REVENUE DEPARTMENT.

APPORTIONMENT ORDER.

No. 2472L.R.—The 30th March 1921.—Under section 114 of the Bengal Tenancy Act (VIII of 1885), the Governor in Council has determined that in police-stations Saltora and Mejhia, in the district of Bankura, where the preparation of a record-of-rights has been undertaken under notification No. 7535L.R., dated the 13th September 1918, the landlords' and tenants' share of cost for the survey and the preparation of record-of rights, including the estimated cost of maintenance of boundary marks for a period of 15 years shall be apportioned and recovered as specified below :—

Bankura.

(1) A rate of 6 annas per acre shall be levied on all lands, classed jungle and waste, which will be paid in all cases by the persons on whose khatians they are recorded.

Common lands such as roads, streams, burning ghats shall be excluded from assessment.

(2) A rate of Re. 1 per acre shall be levied on all other lands, of which raiyats and all persons holding non-agricultural tenancies will pay 6 annas and the landlords of all grades together 10 annas per acre.

(3) Landlords shall pay the raiyats' share for lands in their khas possession and raiyats shall pay the full raiyati rate for lands covered by their holdings.

(4) As between the different grades of landlords the landlords' share shall be apportioned thus—

(a) Permanent tenure-holders whose rent or rate is fixed in perpetuity shall pay their own share of cost and that of landlords superior to them.

(b) Other permanent tenure-holders and temporary tenure holders whose lease has over 15 years to run shall pay three-fourths of the landlords' share and their landlords shall pay the remaining one-fourth

(c) Temporary tenure-holders whose lease has 15 years to run shall pay fifteen-sixteenths of the share they would pay in accordance with (b) above if they were permanent tenure-holders and so on proportionately according to the number of years of the lease to run.

(d) Temporary tenure-holders who do not hold on a lease or for a fixed term shall pay half of the landlords' share.

Explanation.—The calculations shall be made from the lowest grade of landlords immediately above the raiyats. The period for which the lease of the tenure or the under-tenure is to run is to be reckoned in each case from the close of the agricultural year in which the record is finally published.

(5) Rent-free holders. whether the degree of the raiyat or landlord shall pay the whole of the landlords' share for their lands.

6(a). All under-raiyats with the right of occupancy shall pay at the rate of 3 annas per acre for the land in their possession.

(b) Under-raiyats with no right of occupancy shall pay at the rate of 2 annas per khatian

(7) Broken portions of an acre shall always be reckoned as a full acre and broken portions of an anna as a full anna.

APPORTIONMENT ORDER.

Burdwan.

No. 2473L.R.—The 30th March 1921.—Under section 114 of the Bengal Tenancy Act (VIII of 1885), the Governor in Council has determined that in police-stations Asansol, Salanpur, Niamatpur, Dishergarh, Barabani, Raniganj, Jamuria, Ondal, Faridpur and Kanksa, in the district of Burdwan, where the preparation of a record-of-rights has been undertaken under notification No. 7535L.R., dated the 13th September 1918, the landlords' and tenants' share of cost for the survey and the preparation of record-of-rights, including the estimated cost of maintenance of boundary marks for a period of 15 years shall be apportioned and recovered as specified below:—

(1) A rate of 7 annas per acre shall be levied on all lands, classed jungle and waste, which will be paid in all cases by the persons on whose khatian they are recorded.

Common lands such as roads, streams, burning-ghâts shall be excluded from assessment.

(2) A rate of Re. 1-2 per acre shall be levied on all other lands, of which raiyats and all persons holding non-agricultural tenancies will pay 7 annas and the landlords of all grades together 11 annas per acre.

(3) Landlords shall pay the raiyats' share for lands in their khas possession and raiyats shall pay the full raiyati rate for lands covered by their holdings.

(4) As between the different grades of landlords the landlords' share shall be apportioned as follows—

(a) Permanent tenure-holders whose rent or rate is fixed in perpetuity shall pay their own share of cost and that of landlords superior to them.

(*b*) Other permanent tenure-holders and temporary tenure-holders whose lease has over 15 years to run shall pay three-fourths of the landlords' share and their landlords shall pay the remaining one-fourth.

(*c*) Temporary tenure-holders whose lease has 15 years to run shall pay fifteen-sixteenths of the share they would pay in accordance with (*b*) above if they were permanent tenure-holders and so on proportionately according to the number of years of the lease to run.

(*d*) Temporary tenure-holders who do not hold on a lease or for a fixed term shall pay half of the landlords' share.

Explanation.—The calculations shall be made from the lowest grade of landlords immediately above the raiyats. The period for which the lease of the tenure or the under-tenure is to run is to be reckoned in each case from the close of the agricultural year in which the record is finally published.

(5) Rent-free holders, whether of the degree of the raiyat or landlord, shall pay the whole of landlords' share for their lands

(6) (*a*) All under-raiyats with the right of occupancy shall pay at the rate of 3 annas per acre for the land in their possession.

(*b*) Under-raiyats with no right of occupancy shall pay at the rate of 2 annas per khatian.

(7) Broken portion of an acre shall always be recorded as a full acre and broken portion of an anna as a full anna.

RESOLUTION.

The Government of India have had under their consideration the question of extending the use of adhesive stamps on the instruments known as "Policies of Insurance" which are chargeable with stamp duty under article 47 of Schedule I of the Stamp Act, 1899. Under Finance Department notification No. 1140-F., dated the 14th August 1914, these instruments should either be written on stamped paper or be presented to the "proper officer" for the purpose of affixing special adhesive labels. It has been represented that this procedure causes inconvenience to the commercial public and after consulting certain Local Governments, the Government of India have decided to extend further the use of adhesive stamps to these instruments. This decision has been given effect to in the accompanying notification No. 901F, of to-day's date, which permits the use of adhesive stamps. New stamps of the denominations of 2, 3, 4, 6, 8 and 12 annas and 1, 3, 6 and 10 rupees have been ordered from England and will be of the same pattern as the existing "agreement" and "brokers' notes" stamps. Pending the receipt of the new stamps special adhesive stamps, overprinted with the word "Insurance," will be issued for sale to the public.

Ordered that it may be published in the *Gazette of India*.

TRADING BY FOREIGNERS.

Delhi, the 29th March 1921.

AGREEMENT BETWEEN THE BRITISH AND GERMAN GOVERNMENTS RESPECTING ARTICLE 297 OF THE TREATY OF VERSAILLES OF JUNE 28 1919 (PROPERTY, RIGHTS AND INTERESTS).

RESOLUTION.

The following agreement between the British and German Governments respecting Article 297 of the Treaty of Versailles of June 28, 1919, signed at London on the 31st December 1920, is republished for general information. The Government of India have agreed to be a party to the agreement.

AGREEMENT BETWEEN THE BRITISH AND GERMAN GOVERNMENTS RESPECTING ARTICLE 297 OF THE TREATY OF VERSAILLES OF JUNE 28, 1919 (PROPERTY, RIGHTS AND INTERESTS).

London, December 31, 1920.

The Government of His Britannic Majesty and the German Government, with a view to the settlement of certain matters arising under Article 297 of the Treaty of Peace between the Allied and Associated Powers and Germany signed at Versailles on the 28th June 1919, have agreed as follows :—

ARTICLE 1.

The Departments established in the United Kingdom and Germany for the settlement of matters relating to property, rights and interests will mutually appoint a representative or representatives in Berlin and London, through whose intervention communications may be exchanged between the respective Departments. These representatives will constitute in London and Berlin respectively offices which shall be established at the earliest possible date.

ARTICLE 2.

Property, rights and interests in Germany of British nationals which have been subjected to exceptional war measures, but have not been completely liquidated, shall be restored to them immediately upon application, in accordance with the provisions of Article 297 (*a*), free of any private lien in respect of any of the matters referred to in Article 4, or of any costs, charges or expenses of liquidation, administration or supervision, or any deduction whatsoever. The right of private persons to make such claims in respect of maintenance, safe keeping or administration as are provided for under Article 4 is however recognised. This application may be made by the owner or his agent direct to the "Landeszentralbehörde" concerned, or if it is not known in what part of Germany the property is situated, to the "Reichsministerium für Wiederaufbau." It shall be in writing and shall be signed by the applicant, whose signature shall be duly authenticated, and, if the applicant is the agent of the owner, it shall be accompanied by duly authenticated proof of his authorization.

It shall state—

1. The name and address of the owner.
2. The name of his agent (if any) and the address at which the property, rights or interests, or the documents of title shall be delivered.
3. A list, as complete as possible, of the property, rights and interests to be restored. If this list cannot be made complete by the owner, it shall be completed by the German authorities from the information in their possession.
4. A detailed statement as to the locality where the property to be restored was left by the owner, or, in the case of real property or business undertakings, a statement of the locality in which such property or undertakings was situated.

Applications should be signed by the applicant, under whose signature a justice of the peace, barrister or commissioner for oaths should certify—

(*a*) That the applicant is well known to him.

(*b*) That the signature is the signature of the applicant.

The person so certifying shall give his description and address.

Such a certificate shall be regarded as sufficient proof of the authenticity of the applicant's signature.

Alternatively, the application shall be accompanied by a statutory declaration, declared before a justice of the peace or a commissioner for oaths by the applicant, to the effect that he is the owner of the property in question. In any special case, such as that of inheritance, in which the ownership of the property has been altered since the taking effect of the exceptional war measure, the German authority shall, in addition to the certified application, be entitled to call for production of a statutory declaration setting out the title to the property of the claimant.

ARTICLE 3.

Where any prohibition or restriction exists upon the exportation from Germany of British property detained in Germany during the war, a licence to export such property, free of all conditions, shall be issued by the competent German authority immediately upon application by the British Office through the "Reichsministerium fur Wiederaufbau."

ARTICLE 4.

Claims by private persons in respect of expenses incurred in maintenance, safe-keeping and administration of British property in Germany will be settled in the following ways: the property in question shall be restored immediately upon application by the owner, free of any private lien in connection with such expenses.

(*a*) In the case of claims constituting debts within the scope of the Clearing Office, the British Clearing Office will guarantee to credit to the German Clearing Office such sums as may be admitted or found due, without taking advantage of the exceptions contained in paragraph (*b*) of article 296 and paragraph 4 of the Annex thereto.

(*b*) Claims in respect of the period up to the 10th January, 1920, not falling within the scope of the Clearing Offices will be met by the German Government under paragraph (*i*) of article 297. Any amounts admitted or found due from British nationals by the Mixed Arbitral Tribunal, to whose decision they shall in case of dispute be submitted, in respect of such claims will be credited to the German Government in the account relating to German property, rights and interests.

(*c*) Claims in respect of the period after the 10th January 1920, if not admitted by the owner, will be submitted for decision to the Mixed Arbitral Tribunal, and the British Clearing Office will guarantee payment of any amounts admitted or found due from British nationals by the Tribunal.

The obligation of the German Government under article 2 and the present article to restore property free of any private lien shall not apply to any property in respect of which the British Office declines to apply the provisions of the present article.

ARTICLE 5.

A statement of the condition of the property, rights or interests restored shall be drawn up in writing in quadruplicate at the time of restitution and signed by the German administrator, liquidator or supervisor (as the case may be), a representative of the German State Department ("Landeszentralbehörde") and the owner; one copy to be retained by the owner, one by the State Department, one by the administrator, liquidator or supervisor, and one to be transmitted by the State Department to the British Office in Berlin.

ARTICLE 6.

Without prejudice to the rights of His Majesty's Government or the owner under paragraphs 8 and 13 of the Annex to Section 4 of Part X of the Treaty of Versailles, delivery of the documents referred to under article 13 of the Annex relating to property, rights and interests falling within article 297(*a*) shall not ordinarily be required until the restitution of the property, rights or interests. Nevertheless the final report of the liquidator, administrator or supervisor and any further summary information required by the owner shall be handed or sent to him at his request at any time, whether before or after application for restitution, and he shall be given free access to all the documents referred to above. Where property has been completely liquidated all the documents shall be handed to the British national concerned, or to his representative, or if so desired by him, sent to him or to such person as he may direct, at his expense and risk immediately upon his application by the Landeszentralbehörde, or the Reichsministerium.

ARTICLE 7.

In all relations with the German authorities under the preceding Articles, British nationals may act personally or through the British Clearing Office or other authorised agent. If the British Clearing Office is appointed agent to act on behalf of a British national, it shall furnish the German Office with a certificate to that effect. Delivery to the British Clearing Office or other authorised agent shall be equivalent to delivery to the owner.

ARTICLE 8.

In so far as it is not otherwise expressly agreed by the claimant, the signature by the claimant or his agent to any kind of document in connection with the restitution to him direct of his property, rights or interests, whether affixed before or after the signing of this Agreement, shall in no way prejudice any right to compensation which the claimant may have under the provisions of the Treaty of Versailles.

ARTICLE 9.

Any entries in Public Registers and Land Registers necessary in order to effect, complete or validate the restitution of property, rights or interests referred to in this Agreement to the British national concerned, will be made by the German authorities without delay and free of cost, in accordance with the provisions of the local law.

ARTICLE 10.

Claims by British nationals for compensation under article 297(*e*) may, notwithstanding their notification to the Mixed Arbitral Tribunal, be submitted through the British Office in Berlin to the German authorities concerned for the purpose of effecting settlement of the claims by agreement, and the State Department concerned may transmit to the British Office the terms of settlement proposed by them in respect of any claim. If a settlement is arrived at as a result of negotiations thus originated, the German Government shall transmit to the British Office in Berlin a consent to such settlement, which shall be submitted to the Mixed Arbitral Tribunal for formal judgment.

ARTICLE 11.

The British Government will be prepared, on application through the German Office in London, to release from the charge established under the Treaty of Peace household furniture and effects, personal belongings and family souvenirs, and implements of trade belonging to German nationals with the exception of articles of special value, up to an amount of 500*l.*, in addition to the amount of the charges for their conservation and insurance incurred after the 4th August 1914, and up to the date of their release, in any case where the competent German authority certifies that the income of the applicant does not exceed the equivalent of 400*l*, a year at current rate of exchange. The value of the property to be released, unless otherwise agreed, shall be determined by a licensed valuer to be appointed by the British Clearing Office, and the charge for such valuation shall be paid by the owner of the property prior to its release. Applications for such release must be made within a period of six months from the ratification of this Agreement.

Subject to the right of the British authorities to refuse permission in any particular case, and to the laws for the time being in force, German nationals will be permitted, on request conveyed to the British Clearing Office, to bid at any sale by auction of their property in the United Kingdom. The date of any sale of property in respect of which such a request is made shall be notified to the German Office.

ARTICLE 12.

Property released under the provisions of the first paragraph of the preceding Article will be placed at the disposal of the claimant, or the German Office in London, upon payment of any expenses incurred by the British authorities, and of any other charges on the property, notwithstanding the fact that such charges or expenses may constitute debts within the meaning of Article 296.

ARTICLE 13.

The British Clearing Office will furnish the German Office in London with summaries in respect of German property, rights and interests liquidated in the United Kingdom.

The existing books of account of German businesses liquidated in the United Kingdom, or other parts of the British Empire above referred to, except where they have been transferred to the purchaser of a business, will be preserved and ultimately handed to the German authorities. In the meantime the former German owner will be permitted access to the said books on payment of any incidental expenses, and where such books are in the custody of a purchaser, an endeavour will be made to procure access thereto for the former German owner on the like terms.

The British Clearing Office will also furnish summary particulars, if in its possession, of the results of sales by auction or tender and also summary particulars of property registered with the British custodian in individual cases at the request of the German Office in London.

ARTICLE 14.

Where property, rights or interests of German nationals or the proceeds thereof, not being debts within Article 296, are or have been released from the charge created under section 4 of Part X, the German Office in London will be notified by the British Clearing Office and the property or proceeds will not be accounted for through the Clearing Offices.

ARTICLE 15.

This Agreement shall be ratified, and the ratifications shall be exchanged at London as soon as possible. Pending the ratification, both parties shall bring into application the provisions of the Agreement, so far as it is possible to apply them administratively, it being understood, however, that the actual release of German property from the charge established under the Treaty of Peace, provided for in Article 11, will not take place until after ratification.

In witness whereof the undersigned, duly authorised by their respective Governments, have signed the present Agreement and have affixed thereto their seals.

Done in duplicate at London, in English and German texts, the 31st day of December 1920.

Protocol.

ON proceeding to sign the Agreement concluded this day between the United Kingdom and Germany, concerning the execution of article 297 of the Treaty of Versailles, the undersigned, in order to define precisely to what classes of persons and property the Agreement relates, have drawn up the following declaration :—

It is agreed that the stipulations of the said Agreement cannot be invoked in respect of British nationals ordinarily resident and British Companies incorporated in any part of the British Empire outside the United Kingdom and that similarly the stipulations of the Agreement cannot be invoked to the benefit of German nationals in respect of their property, rights or interests in any part of the British Empire outside the United Kingdom.

Nevertheless, at the request of His Britannic Majesty's Government made at any time within three months from the present date, the Agreement shall be made to apply reciprocally to India as well as to the United Kingdom, in its present form or with such modifications as may be agreed upon between the Contracting Parties.

In witness whereof the undersigned have signed the present Protocol and affixed thereto their seals.

Done at London in duplicate, this 31st day of December 1920.

Controller of Examinations.

SENATE HOUSE, *the 4th April 1921.*

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Post Graduate Research Scholarships to be awarded in 1921.

Three Post Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month, and each is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, palæography, epigraphy, philosophy, history, archæology, anthropology, etc., and the third scholarship will be awarded for research either in scientific or in literary subjects. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme of work indicating a definite course of enquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1921, but a scholarship may be renewed from year to year, up to the limit of three years, provided the scholar has throughout the year vigorously prosecuted original research in the subject selected by him.

4. Each candidate for a scholarship should submit his application, through the head of the institution in which he last studied to the Director of Public Instruction, Bengal, on or before 10th May next, and must produce evidence of having passed from a college or other institution in Bengal the M.A. or M.Sc. examination of Calcutta University or of having obtained some other equivalent or higher degree, such as Doctor in Science or Master in Engineering of Calcutta University in 1918 or 1919 or 1920. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigation. He must also state the name of the institution in which he proposes to work with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

W. W. HORNELL,

Director of Public Instruction, Bengal.

LAND SALE NOTICE.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal Railway, in the district of Nadia, will be put up to sale at 1 P.M., on the 15th day of April 1921, corresponding with 2nd Baisak 1328 B. S., at the Court of the Subdivisional Officer of Ranaghat.

The purchasers of the several plots of land will be subject to the following conditions :—

First—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

Second—If the amount of purchase money does not exceed Rs. 100 the whole amount must be paid down at once.

Third—If the amount of purchase-money exceed Rs 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a closed holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of the original sale.

Fourth—The plots of land will be sold revenue-free to the highest bidder.

Fifth—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and regular conveyance will then be granted to the purchaser.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

APPOINTMENT OF A COMMITTEE FOR SELECTION OF CANDIDATES FOR THE PROVINCIAL FOREST SERVICE IN BENGAL.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Forests Branch.

CALCUTTA, THE 29TH MARCH 1921.

RESOLUTION—No. 2432For.

THE Public Services Commission (1916) recommended that appointment to the Provincial Forest Service should be made by nomination by

local Governments on the advice of a Selection Committee. The constitution of the Committee was to be left to local Governments, but it was stated that it was essential that they should contain an Indian and a non-official element. These recommendations were approved by the Government of India and the Secretary of State.

2. The Governor in Council is accordingly pleased to appoint a Selection Committee, whose duty it will be to recommend candidates for appointment to the Provincial Forest Service in Bengal after the publication of the results of the qualifying examination in Mathematics prescribed under the rules for the recruitment of candidates for that service. To this examination all candidates who possess the required qualifications will be admitted. The Committee will consist of the following gentlemen :—

Chairman.

The Conservator of Forests, Bengal (*ex officio*).

Members.

Khan Bahadur Maulvi Musharraf Hussain.
Rai Bahadur Upendra Lal Ray, M.L.C.
Mr. J. R. P. Gent, Deputy Conservator of Forests.
Rai Lalit Mohan Son Bahadur, Deputy Conservator of Forests.

3. The members who are not appointed *ex officio* will hold office for a period of three years.

By order of the Governor in Council,

W. S. HOPKYNS,

Secretary to the Government of Bengal.

TRANSFER OF PUBLIC WORKS, EXCLUDING IRRIGATION FROM THE PUBLIC WORKS DEPARTMENT TO LOCAL BODIES.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENT.

The 30th March 1921.

No. 42.—The following Resolution, issued by the Government of India in the Public Works Department, is republished for information.

C. P. WALSH,
Secretary to the Government of Bengal.

No. 139-E.A., dated Delhi, the 11th March 1921.

RESOLUTION—By the Government of India, Public Works Dept.

With the approval of His Majesty's Secretary of State for India, the Government of India under Public Works Department Resolution No. 06-E.A., dated the 24th November 1916, appointed a Committee to enquire into and report generally upon the organisation and the system of administration of the Buildings and Roads branch of the Public Works Department. Under their terms of reference the Committee were required to report whether the methods at present adopted for the execution of civil works are economical and suitable for the purpose for which they were devised, and to state what modification of the organisation of the staff of the Public Works Department is necessary to meet the changes recommended by them.

The main recommendation made by the Committee is contained in paragraph 13 of Chapter III of their report and is as follows. "It should be the declared policy in India to transfer public works, excluding irrigation, from the Public Works Department to local bodies." The Committee considered that the important advantages gained by the change would be to give to local bodies a considerable share in settling the lines of development of the tracts for which they are responsible, and would bring public works into proper relation with the district and divisional administrations.

2. The Government of India have since referred the report of the Committee to all local Governments for consideration, and note with satisfaction that the consensus of opinion is in favour of the transfer recommended. At the same time they observe that, in regard to the manner in which works should be transferred and the extent and nature of control which should be exercised over local bodies, the views of local Governments are by no means alike.

3. In accordance with the rules made under section 45A of the Government of India Act, 1919, public works, excluding irrigation, are mainly transferred and the Government of India are, therefore, not concerned with the agency by which the bulk of these works should be executed or what control should be exercised over this agency.

Moreover they recognise that the widely divergent conditions in each province render it impossible that any scheme should be prepared which would be suitable in all circumstances. They are, however, fully convinced that the proposed transfer is sound in principle and is desirable in order to promote local self-government in India. The educative results to local bodies of their responsibility for public works will be valuable in themselves, and the responsibilities in regard to the execution of the works will stimulate local interest in their initiation and progress, and in the development of the locality on self-governing principles. The system gives effect to the recommendations of the Decentralisation Commission, and coincides with the advice offered by the Public Services Commission that the Public Works Department should confine itself to work which cannot satisfactorily be discharged by private agency or by means of district boards and municipalities. The localisation of public works, subject to the control of the Local Government Board, is a recognised feature of the system of Local Government in England. The system has also been adopted on a considerable scale in Madras with notable success, and has passed through the experimental stage in some other provinces.

4. In recommending the proposal of the Public Works Department Reorganization Committee to local Governments for adoption the Government of India desire to bring to their notice certain points of major importance and of general application. It will probably not be possible to ask local bodies to assume these new responsibilities without giving them adequate financial assistance and efficient help and advice in technical matters. In the majority of cases it will, therefore, be necessary to grant to local bodies an assignment to cover the cost of the maintenance of works transferred to them and the cost of the additional establishments involved. Such assignments would, of course, be subject to periodical revision and the amounts fixed should suffice to cover the cost of such new works as may be undertaken by the local bodies on their own initiative in consequence of the new responsibilities conferred on them. For the construction of new works on behalf of Government definite allotments to cover the cost of each new work should be made.

As regards technical assistance it is considered essential that there should be established a Government service of Inspectors of Works who would be qualified engineers of sufficient experience and standing to assist and guide professionally the operations of the local bodies. This service should be organized on a provincial basis and would be controlled by local Governments. The duties of the Inspectors of Works, who would act as technical advisers to local bodies and to the Commissioner, would, it is thought, in the first instance, best be carried out by superintending engineers of the Public Works Department. Pending the development of the scheme these officers would generally be required to exercise a certain measure of technical control over local bodies or their engineering staff; they should also be responsible for the technical criticism of plans and estimates assisting in their preparation, and should also undertake the inspection of works in progress.

5. The extent of the transfer of public works to local bodies is restricted by the extent to which it is necessary for the Government to retain control in its own hands. Certain items, *e.g.*, Famine Relief and the residences of Governors of Provinces, are reserved subjects, and though it would be permissible for local Governments to arrange with local bodies for the execution of these works, it would obviously be necessary, if this were done, for the local Governments to reserve to themselves certain powers to ensure that the work was executed in accordance with their instructions. Roads and other communications declared by the Governor-General in Council to be of military importance are subject to such conditions as regards control over construction and maintenance and incidence of special expenditure connected therewith as may be prescribed by him. These works may only be transferred to local bodies with the consent of the Government of India. Further, though local Governments will have full power to hand over to local bodies all public works included under the heading of transferred subjects, they will undoubtedly find it necessary to exercise a certain measure of control over these bodies in order to protect the interests of the public, and to insure that no deterioration shall be allowed to take place in the standard of public works in the provinces. Lastly with the transfer of funds to local bodies the local Government remains responsible for the proper check of the expenditure of public money and for the audit of accounts

6. In order satisfactorily to discharge their responsibilities in these matters, and to secure the requisite measure of control the Government of India consider that local Governments would be well advised to fix the cadres on which district and assistant engineers may be employed by district boards and the scales of emoluments that may be drawn by them, and to lay down such standards of qualifications as will ensure that engineers of the necessary training and ability only are engaged. It is suggested that subscription to a provident fund on terms to be decided by the local Government should be an invariable condition of employment. It will probably be necessary to reserve some measure of control over the appointment and dismissal of these officers including the power to require the removal of a district or assistant engineer who, in the opinion of the local Government, is unfit to hold his appointment.

The Inspectors of Works, who would be Government servants serving under a Chief Engineer, would have access to the advice of the architectural, sanitary and electrical specialists, and should be required to give professional approval to all plans and estimates for works of a certain importance.

They should, it is considered, be empowered to attend in an advisory capacity all meetings of district boards at which questions affecting public works are discussed, and it should be their duty to represent to the authority responsible for the control of district boards such matters in respect of public works which in their opinion should be brought to their notice. Local Governments will probably deem it desirable to consider the extent to which it is necessary for them to reserve powers to suspend or cancel the resolutions of a local board relating to public works, and to deal with instances of neglect in respect of the execution of Government works that may be made over to them for execution. No local body can, without its consent, be required to execute Government work, but once that consent has been obtained it is necessary that local Governments should have power to enforce the proper execution of the works handed over. For this purpose local Governments may decide to reserve the right to dissolve a local body for refusal to execute Government works after having undertaken that responsibility or in cases of gross incompetence or neglect of their duties. It is clearly essential that members of local boards should be debarred from holding a pecuniary interest in contracts for public works for which they are in the main responsible.

7. Powers on the lines of those above indicated exist already in most provinces. They are similar in kind though they vary in degree from the control exercised by the Ministry of Health which has superseded the Local Government Board in England. They do not, it is thought, substantially exceed those which according to the spirit of their Resolution No. 41, dated the 16th May 1918, the Government of India have declared to be suitable. Legislation would, in most provinces, be required to enable local Governments to exercise the power of control that will be found necessary, but in certain cases it may be secured by means of rules framed under appropriate sections of existing Acts.

8. Provision should be made by local Governments for the retention of a sufficient staff of engineers and subordinates for employment on famine works and for the maintenance of a suitable programme of such works. Pending the development of the scheme of transfer the permanent establishment will also be required for the execution and maintenance of works which it may not at present be considered desirable to hand over to local bodies, while later when the transfer of works has expanded it will still be necessary to maintain a permanent establishment for the execution of special works and as a reserve to meet cases of inexperience or proved incapacity which may necessitate the resumption by Government of works previously handed over.

Efficient audit is essential to the success of any scheme of transfer. This matter should receive the careful consideration of all local Governments who will be well advised to lay down that special ledger accounts shall be maintained for all Government works handed over to local bodies and for which specific allotments are made. At the same time one of the main objects of the scheme is to foster the independence of the local bodies in the execution of works with the idea eventually to give them unhampered powers in connection with their engineering staff and the programme and method of execution of works.

9. The Government of India appreciate the fact that the introduction of the scheme of transfer must be gradual and that the transition stage will be lengthy. They desire to emphasize the necessity for the preparation of complete schemes of transfer in detail before actual transfers take place. The earliest experiments of transfer will presumably be made with those local bodies in regard to whom the local Government is satisfied that there exists a reasonable hope of success. The introduction and subsequent working of the scheme will be greatly facilitated by the entire separation of the Buildings and Roads branch from the Irrigation branch of the Department. The proposals of local Governments to effect this separation should, so far as the Indian Service of Engineers is concerned, be submitted to the Government of India in cases in which it is considered possible and is recommended.

10. As already stated some permanent establishment must be maintained in each province for employment on famine works and for the construction of Government works of an important nature which are not handed over to local bodies, and the periodical revision of the strength of this permanent cadre will be necessary according to the circumstances

from time to time. It is essential that the interests of officers now in Government employment should be carefully considered in framing schemes for the transfer of public works. The question of the disposal of officers over and above the strength of revised cadres of the Indian Service of Engineers should be referred to the Government of India as occasion arises.

11. With a view to facilitate the introduction of the policy the Government of India have prepared in outline a scheme based on the recommendations of the committee as modified by criticisms received from local Governments. This outline scheme is circulated herewith to local Governments. The Government of India hope that a consideration of this scheme may be of assistance to local Governments in the preparation of their local schemes.

ORDERED that this Resolution be forwarded to the local Governments, Administrations and officers noted below, for information, and that it be published in the Supplement to the *Gazette of India* for general information.

DRAFT SCHEME FOR THE TRANSFER TO LOCAL BODIES OF PUBLIC WORKS EXCLUDING IRRIGATION.

As indicated in the Government of India, Public Works Department, Resolution No. 139E.A., dated the 11th March 1921, the transfer of public works to local bodies has been accepted by the Government of India as a policy which is in the interests both of the Public Works Department and of the local bodies themselves. The full benefits which it is anticipated will be secured by the adoption of this policy will not, however, be attained unless local bodies undertake the work willingly and are given encouragement and assistance in organising themselves to carry out the duties that will devolve on them. It is essential that before the transfer is effected the details of the scheme of transfer should be fully worked out, as it is most desirable that these schemes of transfer should be designed to avoid dislocation of work as far as possible. This can, it is considered, be best ensured by a scheme which will admit of the complete transfer of all works that it is proposed to hand over in each district at one time. The interest of officers at present in Government service and of the local bodies concerned, and the safeguards necessary to ensure that efficient execution of Government works is obtained, must all be provided for and local Governments should reserve the right to regulate the rate at which the transfer is effected.

The scheme described in outline below, which deals specifically with the proposals advanced and discussed in Chapter III of the Public Works Department Reorganization Committee's report, is designed to secure the objects stated above.

2. **Preparation of lists of works.**—The first step is for the local Government to prepare a list of works by district to include all works that it is not considered absolutely necessary to retain under the Public Works Department.

Roads and buildings in regard to which the local Government proposes to reserve administrative powers should be shown separately on this list.

3. **Circulation of lists to local bodies.**—This list should be circulated to the local bodies concerned who should be informed—

(a) what engineering staff the local Government considered it necessary that they should employ in order to enable them to take over the works to be transferred;

(b) what funds the local Government would be prepared to provide annually for maintenance and in certain circumstances for construction;

(c) the classification of each district in regard to its engineering staff, the limit of cost of individual Government works that each local body would be required to undertake should it agree to take over public works, and generally the conditions and restrictions attaching to the scheme.

4. **Grant of subsidies to district boards.**—With these details before them each local body can consider its position. This scheme is concerned mainly with the transfer of work to district boards and is now considered in relation to those bodies. It is unlikely that many district boards will be in a position to take over Government works on any considerable scale without assistance. Local Governments should, therefore, undertake to subsidise district boards to enable them to engage the necessary staff and generally to organise themselves for the work that they will have to do before the transfer is effected. The amount of the subsidy should be fixed by the local Government who should also lay down any conditions they may consider desirable in connection therewith. It is for consideration whether a local body, having once received a subsidy and having failed to satisfy the local Government that it is competent to be entrusted with the Government works proposed for transfer, should not be debarred for a certain period from again applying to take over those works (See also paragraph 6.)

5. **Right of local Government to reject or defer consideration of application from a district board.**—Local Governments should reserve the right to reject or defer consideration of any application from a district board for the transfer of Government works. This is necessary in order that convenience of administration may be ensured and disorganization of the Public Works Department may be avoided. It would also enable a local Government to reject an application made by a district board which, in its opinion, is unlikely to be able to organize itself satisfactorily to take over Government work, and to give preference to those district boards which are likely to derive the greater benefit from the scheme.

6. **Administrative powers in respect of Government works.**—It is necessary to discriminate between administrative and executive functions in respect of Government works. Though it is possible to transfer to local bodies the execution of all public works it is clearly impossible to grant local bodies administrative powers in respect of certain classes of Government works. Thus local Governments should reserve administrative powers in respect of all Government buildings required for the occupation of Government departments and certain classes of residential buildings. In the case of roads of provincial importance administrative powers should be reserved until such time as in the opinion of the local Government they can safely be transferred to the local body concerned. In respect of Imperial works and roads declared by the Governor-General in Council to be of military importance administrative powers may not be granted to local boards.

7. **Provision of funds.**—On Government works being handed over to a district board the local Government should contribute to it the necessary funds for the execution or maintenance of these works, and should provide

such additional funds as it may consider necessary to assist the local body in the development of the tract for which it is responsible.

Funds should be provided—

(*a*) As a lump sum grant fixed for a definite period.
(*b*) Ear-marked assignments for individual Government works.

Under (*a*) the grant should be calculated to cover the cost of construction or maintenance of all Government works placed under the administrative control of the local body. An addition should be made of such sum as the local Government may decide to cover the cost of new works that can be approved administratively by the local body.

Under (*b*) definite allotments should be made by local Governments for works for which they are administratively responsible. These allotments should be accounted for in ledger form, and local bodies should have no power to reappropriate them. In order to ensure that local bodies shall contribute a due proportion of their funds to the execution and maintenance of public works the amount to be allotted annually for this purpose should be fixed with the approval of the local Government (or the Commissioner) at the time when the Government grant is fixed, and may be varied with the same approval when the Government grant is varied.

The cost of establishment should be met by the addition of a percentage to be fixed by the local Government and applied both to the Government grant under (*a*) and the allotments for individual works under (*b*).

Allotments for Imperial works should be dealt with in the same manner as allotments for provincial works under (*b*).

8. **Execution of works.**—Certain conditions regarding the execution of Government works will generally be found necessary. The following are suggested as likely to meet ordinary requirements :—

(*a*) The local Government should fix a limit (separately for roads and buildings) to the cost of individual works for each class of district, and the district board should not be required, without its consent, to undertake any work, the cost of which is estimated to exceed this figure.

(*b*) The construction and maintenance of Government buildings at headquarters and important building centres, and of certain classes of residential buildings should ordinarily be reserved to Government.

(*c*) The construction and repair of provincial roads should only be reserved if this is considered essential in the public interest.

(*d*) Roads and other communications declared to be of military importance will only be transferred with the consent of the Government of India.

Note.—The Government of India have not declared any road or communication (except railways) of military importance. Until such a declaration has been made roads and other communications will be considered as not of military importance.

As regards military works which are at present carried out by the Public Works Department, it is desirable that this procedure should continue for the present. Should the Military Works Services not be in a position to take them over, these works should continue in charge of the Public Works Department and should not be handed over to local bodies.

9. **Execution of Government works not transferred to local bodies.**—For the execution of Government works not transferred to local bodies, it will, in addition to the Chief Engineer and his staff, Inspectors of Works with their assistants and specialist officers generally, be necessary to retain an establishment of permanent officers in the Public Works Department. The strength of the cadre will gradually decrease as the transfer of Government works is effected. The requirements of local Governments should be reconsidered from time to time as necessary, and the question of the disposal of surplus officers and reduction in cadres should be referred to the Government of India.

10. **Representation of Government interests to local bodies.**—A local body should be permitted, if it so desires, to delegate to a sub-committee of its members some or all of the powers necessary for the control of public works including the power to appoint the subordinate staff. The Inspector of Works or his representative should have the right to attend in an

advisory capacity all meetings of the local body or sub-committee at which questions affecting public works are to be discussed. He will be responsible for the representation of Government interests to the members. He will, at all times, be available to give technical advice.

The Inspector of Works would under this arrangement be able to influence the local body in the consideration of matters affecting public works, and would be in a position to advise the Collector or Commissioner who would have powers to suspend or cancel any of the Committee's resolutions regarding public works.

11. **Arrangements with municipalities.**—A district board should be permitted by arrangement with a municipality to undertake work for that body, or with the approval of a district board a district engineer may, subject to his consent in the case of a Public Works Department officer or to the terms of his agreement in the case of an officer engaged by a district board, be appointed engineer to a municipality on such terms as may be mutually agreed between the two bodies.

12. **Employment by district boards of Government officials.**—District boards should have the right to apply for the services of Public Works Department engineers or subordinates and the local Government should meet their requirements as far as possible subject to the consent of the officers and subordinates concerned to serve under the district boards. Government officials so employed will be engaged on the usual foreign service terms.

13. **District engineers and assistant engineers.**—The local Government should classify its districts in accordance with the importance of, and expenditure anticipated on, public works within their limits. The number of classes into which districts should be divided and the pay of the district engineer in each class of district should be decided by the local Government who should also decide how many assistant engineers should be employed and should fix their pay. District and assistant engineers should not be eligible for extra pay for carrying out Government work. They should be engaged by district boards either by transfer from the establishments of the Public Works Department (on application by the district board) or by recruitment in the open market from the best material available in India. The local Government should prescribe the professional qualifications required to render an officer eligible for appointment in the various classes of district engineer or as assistant engineer. The appointment and dismissal of officers recruited in the open market should be subject to the approval of the Commissioner. The services of an officer or subordinate transferred to a district board from the Public Works Department can only be dispensed with by the authority competent to appoint him to that department.

All district and assistant engineers recruited in the open market should be engaged on definite agreements. Such appointments should, in the first instance, be on probation with provision for the termination of service at one month's notice on either side. When, however, a period of service has been rendered satisfactorily it would be desirable to conclude an agreement for a specific period—say five years—with provision for six months' notice of termination of service on either side. Assistant engineers should have no claim to the appointment of district engineer in the district in which they are serving.

A local Government should, if it considers it necessary, take powers to require district boards to dispense with the services of a district engineer who is, in its opinion, unfit to hold the appointment.

All district and assistant engineers should be required to subscribe to a compulsory provident fund. The contributions to be paid by the engineers and the district boards and the rate of interest to be allowed should be fixed by the local Government.

14. **Inspectors of Works.**—During the process of transfer of Government works to local bodies the duties of Inspectors of Works will usually be carried out by Superintending Engineers of the Public Works Department. So far as it can be arranged the charges of these officers should be separately fixed so as to ensure that they deal with one class of organization only. In the interests of the development of the scheme it is important that a Superintending Engineer concerned with the execution of works under district boards should be free, especially in the earlier stages of the transfer, to give his whole time to that duty. As the scheme develops and the

strength of the Public Works Department is reduced Inspectors of Works should be appointed. They should be qualified engineers of experience competent to supervise or guide professionally the work of district engineers and to safeguard the interests of Government. They may be recruited from selected district board engineers, or from outside if more suitable officers can be obtained in this manner or they may be transferred from the Public Works Department.

The rates of pay of these officers must, to some extent, depend on the rates fixed for district engineers. The local Government would, as occasion arises, submit its proposals for the consideration of the Government of India. The appointments should be permanent but non-pensionable. All Inspectors of Works should be required to join a provident fund maintained by the province.

In provinces in which local self-government has not developed sufficiently to warrant the control of district board engineers being exercised wholly by district boards, the Inspectors of Works should, at the discretion of the local Government, be required to exercise control in technical matters over these officers in so far as Government works are concerned. In such cases Inspectors of Works would correspond direct with the district board engineers and would issue to them such orders as may be necessary in technical matters. Copies of orders issued by an Inspector of Works to the district engineer should, if so required, be sent by the Inspector of Works to the Chairman of the district board or the works sub-committee if such committee is formed. The powers of Inspectors of Works should, in no case, be extended to include control over the district engineers and his staff in other than techinal matters except as proposed in paragraph 15. All control other than technical control should be exercised by the district boards, the Collector, the Commissioner and the local Government. When a district board desires to do so and the local Government is satisfied that it is competent to control the district engineer in all matters, the power of the Inspector of Works to issue orders to the district engineer should be withdrawn. He will then act purely as an inspecting and advisory officer in respect of all works carried out by district boards, as contemplated by the Public Works Department Reorganisation Committee.

15. **Powers of Inspectors of Works and district engineers in respect of works, etc.**—The local Government should fix the power of district engineers of the various classes and of Inspectors of Works to accord technical sanction to estimates It will, in the first instance, be desirable to limit the powers of district engineers in this respect to a low figure.

The power to call for estimates should be vested in the district board who would be addressed in the matter by the local Government, the Commissioner or the head of a department in the case of works for which the local Government is administratively responsible.

Contracts for works for which the local Government is administratively responsible should be subject to the approval of the Inspector of Works or the Chief Engineer so long as technical control over the district board engineers is exercised by the Inspector of Works. Contracts for works for which the district board is administratively responsible and which are in excess of the power of the district engineers to deal with should be approved by the Inspector of Works before being accepted by the district engineer. In the first instance it will probably be desirable to fix the powers of the district engineer to approve contracts at the figure fixed to limit his power of technical sanction.

16. **Chief Engineers and staff.**—It is probable that for some years the Chief Engineer and his staff and establishment will be drawn from the Public Works Department and their pay will be as fixed for that department. It is not, therefore, at present necessary further to consider the scale of pay of these officers and local Governments would make their own recommendations when the question of recruitment arises.

The question of the status of the officer appointed as personal assistant to the Chief Engineer which it was considered by the Reorganization Committee should be that of Inspector of Works, and the extent to which specialist officers are required would be dealt with by the local Government as occasion arises and, would, when necessary, be referred to the Government of India.

It has been represented by some local Governments that the assumption of these powers involves undue interference with the board, but this is not the case under the proposals now made.

17. **Recruitment of officers for the Public Works Department during the transition period.**—The introduction of the scheme will extend over a considerable period, and it appears unlikely that there will be any large number of Public Works Department officers to be disposed of. Until a start has been made with the introduction of the policy, and local Governments are aware of the views of district boards as regards the employment of Public Works Department engineers and subordinates and of the views of the engineer and subordinates regarding the acceptance of service under district boards, it will not be possible to make any reliable forecast of future requirements with a view to regulate recruitment. It is anticipated that the proposal that technical control by the Inspectors of Works over district engineers should be permissible in the initial stages will tend to obviate the objections that might otherwise have been raised by engineers in the department to service under district boards, while the stipulation that no works should be handed over to these boards, until the local Government is satisfied that they are in a position satisfactorily to control these works should result in their applying for the services of Government engineers. It seems not improbable, therefore, that district boards will ask for the services of Public Works Department engineers and subordinates, and that in many cases the engineers and subordinates will accept such service. In any case (*vide* paragraph 9) a considerable number of permanent engineers and subordinates is likely to be required for some time for employment on works that cannot be handed over to district boards.

As the introduction of the policy progresses it will be necessary for the local Governments to revise the cadre of the Buildings and Roads branch periodically, and recruitment will necessarily be based on the decisions arrived at in connection with the strength of the revised cadres.

The weeding out of inefficients both from the Public Works Department and from the staff of district boards should be proceeded with.

18. **Audit.**—Efficient audit is essential to the success of the scheme and the best method of securing it should receive careful attention.

19. **Famine works.**—The investigation and preparation of projects for the famine programme should ordinarily be entrusted to district boards. Administrative powers must be reserved to the local Government, as Famine Relief is not a transferred subject.

The control of famine works must be reserved to the local Government who should take powers to requisition the district board engineering staff for this purpose when necessary. As for some time the services of a considerable staff of Public Works Department engineers will be available the necessity is not likely to arise at present.

20. **Power of control that should be taken by local Governments.**—It has been recommended by the Reorganization Committee that local Governments should take the following powers of control over the proceedings of local bodies:—

(*a*) The Collector may suspend and the Commissioner may cancel any resolution relating to public works.

(*b*) The Commissioner may require a local body, which has neglected a particular work after being called upon to execute it within a reasonable period, to take such action as he may consider desirable subject to an appeal to the local Government against such order.

(*c*) The Commissioner may require the execution of a public work at the cost of the local fund if a Government grant for that particular work has not been properly expended.

(*d*) A member shall be prohibited from having a pecuniary interest, direct or indirect, in any contract given by a local body.

(*e*) The local Government may dissolve any local body refusing to take over Government works and require a fresh election.

(*f*) The local Government may supersede a local body for incompetency or wilful neglect of duty.

With the exception of (*c*) and (*e*) these powers have been taken already by most local Governments. Powers under (*c*) and (*e*) have not hitherto been necessary owing to the fact that local bodies have not been required to execute Government works. Under the scheme as outlined district boards will, when taking over Government works, agree to carry out such works within certain limits of cost, but it is still necessary that local Governments should have power to enforce the terms of the agreement, and desirable, therefore, that they should generally take the powers proposed by the Committee in cases in which they have not done so already.

Assistant Inspectors of Works should, when necessary, be attached to the Inspectors of Works. These assistants would come under the same rules as the Inspectors.

21. **Method of introduction of the scheme.**—This scheme is not designed for introduction by Commissioners' divisions, but by districts. The local Government would select those districts that volunteer to accept it and are likely to derive the greater benefit from its application. Though there are obvious advantages in the introduction of the policy in a Commissioner's division as a whole, it is essential to ensure efficiency rather than to study convenience, and the areas in which the scheme is first introduced and the time at which it is brought into effect should be decided entirely by the local Government.

Though it would be convenient that Public Works Department charges should be organised on a district basis before the introduction of the scheme, this is not essential.

REPORT OF A COMMITTEE APPOINTED BY GOVERNMENT TO EXAMINE EXISTING REGULATIONS FOR THE LICENSING AND CONTROL OF TAXI-CABS.

The following report of a Committee appointed by Government to examine existing regulations for the licensing and control of taxi-cabs and to make recommendations as to the regulations and the degree and manner of control that should be exercised in future to provide Calcutta with an efficient taxi-cab service is published for general information. Government will pass orders on the recommendations of the Committee after one month, and any public bodies or individuals who desire to make any representations regarding any of the recommendations should submit them to the Chief Secretary before the expiry of that period.

The Governor in Council desires to take this opportunity to express his thanks to Mr. Beadel and the Committee for the public spirit they have shown in undertaking the work and the satisfactory manner in which they have completed it.

H. L. STEPHENSON,
Chief Secretary
to the Government of Bengal.

REPORT.

Appointment and constitution.—This Committee was appointed by the Government of Bengal on the 21st January 1921—

(1) to examine the existing regulations and the manner in which control is at present exercised; and

(2) to make recommendations as to regulations, and the degree and manner of control that should be exercised in future to provide Calcutta with an efficient taxi-cab service.

The members appointed were—

(1) Mr. C. F. Beadel (nominated by the Bengal Chamber of Commerce), *President*.

(2) Dr. S. K. Mullick, C.B.E. (nominated by the Calcutta Corporation).

(3) Mr. R. Clarke, C.I.E., Commissioner of Police, Calcutta.

(4) Mr. P. K. Ray Chaudhuri, President of the Motor Drivers' Association.

(5) Captain J. N. Walford, of Messrs. Walford and Company.

Secretary.—Mr. D. Gladding, I.C.S.

Procedure.—We first sat on the 26th January 1921, and we held in all 14 meetings. At the second meeting questionaires were framed, which were sent to those whom it was deemed advisable to consult. Of the 55 persons or bodies addressed, 41 sent in replies. A selected number of those consulted were interviewed in person or by representative. The Police Surgeon and certain officers of the Public Vehicles and Traffic Departments of the Calcutta Police were orally examined, and a representative of the General Motor Export Corporation, New York, was granted an interview at his own request.

Scope of enquiry.—In interpreting our terms of reference we were assisted by an informal ruling from Government, obtained at our first meeting. We decided to confine our attention to the system, expressed in rules and institutions, under which the possession and the driving of motor-cabs is controlled in Calcutta, leaving to the local Government the deduction from our recommendations of riders regarding other forms of motor traffic. We also decided that we had no mandate to enquire into the conduct of the Police or of taxi drivers.

General results.—The measures we recommend are, briefly—

(1) some amendments in the rules, mostly in the nature of further restrictions, and

(2) the strengthening of the institutions entrusted with the enforcement of the rules, of the Police by an expansion of staff, and of the Courts by their consolidation into a central permanently sitting tribunal.

I.—CONTROL BY REGISTRATION.

The taxi-cab.

Evolution of type.—The specifications at present demanded in a car that is to be used as a taxi are copied in the main from the London rules on the subject. In practice in London the type of a taxi (both chassis and body) is first approved by the Police, and cars are then built specially for the work by the trade The result is the evolution of a suitable type definitely distinguishable as a taxi. We recommend the same practice in Calcutta.

Horse-power.—The maximum permissible power of the engine is at present described as "20 horse-power," a term which has no definite meaning unless the rating is specified We recommend the adoption of the rating known as the R.A.C. rating, the formula for which is (used also for British Treasury rating), H. P. = $\frac{D^2N}{25}$ in inches, or $\frac{D^2N}{1613}$ in millimetres. An appreciable number of those consulted by us advised, in the interests of public safety, the adoption of a maxima ranging variously from 10 to 15 horse-power; and it has been argued that normal market conditions should, in fact, lead to the commoner adoption by owners of the low-powered taxi, because it is cheaper to run. In view of the technical advice at our disposal, we have refrained from recommending a reduction of the present maximum; but we hold strongly that our recommendation regarding definition of horse power should be adopted and rigidly enforced in future for all taxis newly presented for registration.

Driving seat.—The rules have hitherto contained no direction corresponding to the London rule which forbids any person to sit next to the driver of a taxi We consider it imperative that the principle that the driver should be the sole occupant of the front of a taxi should now be adopted. The volume of Calcutta traffic is already considerable and developments in the near future are to be expected. There has been a serious increase of motor accidents in recent years, and the dangers attending any risk of distraction of the taxi-driver's attention can no longer be ignored.

Luggage accommodation.—The space to the left of the driver should be reserved for passengers' luggage, as in London. The seat and door to the driver's left should be removed, and the near-side entrance enlarged to a minimum width of 24 inches. In the space thus created there should be a luggage platform.

Turning capacity.—The existing rule regarding the turning capacity of a taxi lays down that a taxi should be capable of turning in a space of 30 feet, but gives the registering authority discretion to pass as a taxi a car not capable of turning in that space. Having regard to traffic conditions in Calcutta, we consider that that discretion should be withdrawn. In London the corresponding rule lays down an absolute maximum turning diameter of 25 feet.

Mechanical speed-check.—We considered the feasibility of limiting by mechanical device the speed capacity of a car when on its top gear. We find, however, that it is a common defect of all devices so far placed on the market that they considerably reduce the efficiency of the car, especially in crowded traffic when on its lower gears. We are accordingly unable to recommend the prescription by rule of any mechanical speed-check.

Garaging.—We consider it essential to the continued efficiency of a taxi-cab that it should be suitably garaged, and we recommend that it should in future, be a condition of obtaining registration of a car as a taxi-cab that the owner should show that he possesses and will maintain suitable garage accommodation for it.

Double seating.—We recommend that in taxis registered in future to carry more than three passengers it should be a condition of such registration that they contain "front seats," to accommodate two persons, as well as "back seats." The supports of the former should be secure fixtures, but seats of an approved "drop seat" pattern should be allowed, if so desired by the owner.

Permits for ownership.—It is noticeable that the registering and licensing authority, while possessing powers to refuse to register as a taxi a car which he considers unfit, and powers to refuse to grant a licence to drive a taxi to a person not qualified under the rules, has no power to withhold from any person the privilege of being registered as the owner of a taxi We consider this a serious hiatus in the present system of control. We recommend that no person should be registered as the owner of a taxi unless he first obtains from the registering authority a permit to own a taxi; and that permits should be liable to suspension or cancellation for misdmeanour or breach of rules. Such permits should be granted free of charge, and should be valid until cancelled or suspended.

II.—CONTROL BY LICENCE.

Physical Fitness.—We approve the rule [Part II, 15 (*8*)] which empowers the Commissioner, before he grants a motor-driving licence, to enquire into the applicant's physical fitness to drive by day or night; and we approve the recently introduced practice of subjecting applicants for taxi-driving licences to actual medical examination. We do not see sufficient grounds for requiring a taxi-driver to undergo re-examination at fixed intervals; but we hold that a taxi-driver should be re-examined medically whenever anything occurs to raise doubts in the mind of the licensing authority as to his continued medical fitness. That authority, when he directs the medical re-examination of a driver, should record a proceeding containing a statement of his reasons.

We approve the use of a detailed form for the medical examination, such as that recently adopted (annexure); and we approve the questions put in that form, with one exception. We consider that a taxi-driver should be allowed to wear spectacles, if spectacles will sufficiently correct a defect in his eye-sight. We accordingly recommend that the question in the form regarding eye-sight should be so framed as to enable the examining doctor to certify, if such is the case, that he has examined the man in spectacles and found his defective vision sufficiently corrected thereby.

In view of the public importance of the medical test, it seems advisable to determine the class of doctors from whom a medical certificate should be accepted. The size of Calcutta is also a consideration; and we suggest that the most satisfactory arrangement would be to appoint a panel of say eight medical men, so situated that each quarter of Calcutta would be served. It should be open to the examinee to go to any member of the panel.

We consider that the present fee of Rs. 5 is a proper fee for the original test and that it should be paid by the examinee, as at present. The same fee should be payable for re-examination.

We recommend that drivers holding a subsisting licence to drive a taxi on the date on which Government's orders on this subject may be passed should be assumed on that date to be medically fit; but should become liable to medical examination in the same circumstances and in the same manner as future new licencees will become liable to medical re-examination.

Knowledge of driving.—We recommend that the test of driving of would-be taxi drivers should be made very strict. Most of those whose statements are before us, including the Motor Drivers' Association, consider that the

present standards are not sufficiently exacting, and the Commissioner of Police explains that a more thorough test is impossible with the small staff at present attached to the Motor Vehicles Section. We wish to emphasise the importance of enabling the Commissioner of Police immediately to raise the standard of test. The development of good training schools will be thereby encouraged, and an improvement should follow in all forms of professional driving in Calcutta.

Other knowledge.—The test of other knowledge, more especially of the names of streets and principal places and of simple motor mechanism, should also, we consider, be stricter than hitherto. Here again the chief present defect appears to be a lack of staff.

Re-test after original failure.—A considerable amount of the department's time is at present wasted in re-testing, at improperly short intervals, failed applicants for driving licences. We recommend that a failed applicant for a taxi-driving licence should not be allowed to appear for a further taxi-driving test until such time as the departments may specify, and should be required to pay a fee for each further test for a taxi-driving licence. The fee might be Rs. 5.

Plural licences.—When a driver is convicted of an offence under the Indian Motor Vehicles Act, the Magistrate is required under the Act [Section 18 (2)] to endorse upon his licence the particulars of the conviction. There should be no loophole of escape from the intended penalties of this procedure. We accordingly recommend that, instead of separate licence forms for each class of professional driving, as at present, there should be a single comprehensive licence form for professional drivers; the holder's fitness to drive any or all of the various types of motor vehicle being entered up as he passes the relevant departmental test. The fee for each test might be the same as the present fee for each licence.

We also recommend, for the same reason that no person should be allowed to hold a taxi-driving licence and a non-professional driving licence at the same time.

The taxi-driver's attendant.—A peculiar feature of the Calcutta taxi-service is the growing practice of carrying attendants. There is no precedent for their employment, as far as we are aware, in any other city in the world, and we are not as a Committee convinced that they are really necessary. Their employment is forbidden under the present rule (Part IV 6A), passed in June 1920; but the rule has not been effectively put into force, and it is at present under suspension, under the terms of the settlement of the recent strike, pending Government's decision on this Committee's recommendations.

That attendants as such can render the driver much legitimate help in the handling of his machine and in his relations with his passengers, is beyond question; and, while refusing to accept the statement that taxi drivers could not carry on without them (quite a number of them are now doing so), we see no objection to their employment, if they can with safety to the general public be accommodated in the car. Unfortunately the practice of employing them has grown up in the absence of any rule forbidding any person to occupy a seat next to the driver. We have already given our opinion that a rule to that effect is long overdue. We consequently hold that attendants should be allowed only if they are accommodated elsewhere than next to the driver. There is already a rule (Part II, rule 19A) empowering the Commissioner to sanction an extra seat on the near side of or behind a motor vehicle; and it is, in our opinion, on such a seat that the attendant, if allowed, should be required to sit. We are of opinion that it is dangerous to allow an external seat on the side of a motor vehicle, and that it should be practicable to add a "dickey" seat at the back of a four-seater body. We accordingly recommend that attendants, if employed, should be required to sit on a "dickey" seat at the back of the car.

Attendants should be required to wear a distinctive uniform, and to take out an attendant's licence. A fee of Rs. 2 would seem to be sufficient, and the licence might be endorsed annually free of cost. If, however, attendants

are allowed to sit next to the driver pending the adoption of the type of body we have proposed, they should be required to take out the ordinary licence to drive a taxi.

III.—OTHER CONTROL.

Uniform.—We recommend a stricter enforcement of the present rule (Part IV, rule 42) that a taxi driver's uniform shall at all times be kept in good and serviceable condition. Rules already exist (Part II, rules 3 and 3A) making the owner as well as the driver punishable for a breach of this regulation; but we suggest that the taxi owner's responsibility in this matter should be explicitly enunciated in Part IV of the rules. There should also be a similar rule regarding attendant's uniform.

Production of taxis.—We consider that taxis should be inspected by the registering authority once a year without fail; and that the registering authority should have power to direct the production of a taxi for inspection at any shorter interval. A rule directing the production of a taxi for inspection once a year already exists (Part IV, rule 4A). A rule to the other effect should be added, together with a rule explicitly empowering the Commissioner of Police to cancel the registration of a taxi if the order of production is not obeyed within a reasonable time, to be stated in the notice requiring the car to be produced.

Taxi stands.—Stands, at reasonable places, should be provided for a proper proportion of the taxis registered. The present proportion of stands to taxis, roughly 1 to 5, is improperly small, and should be at least doubled. We suggest that a figure of proportion be decided upon and that immediate steps be taken to make good the defect. Thereafter it should be a principle that no increase in the number of taxis registered should be allowed until a proportionate increase in stand accommodation has been shown to be practicable and has been sanctioned by the road authorities concerned.

Stands should be railed in. The present right of a hirer to select any particular car on a stand [Part IV, proviso to rule 40 (*l*)] should be cancelled. It should also be penal [in modification of clause (*4*) of the above quoted rule] for a temporarily disabled car to be parked on a stand.

Improper use of horns.—There should be a rule making it penal for a taxi driver to blow his horn in order to attract the attention of possible hirers, or for any purpose other than the purpose of safety in traffic.

Trial in Court.—The law and the rules made under it depend for their real effect upon the prompt enforcement of the penalties which they provide. We are of opinion that a leading defect of the present system of control in Calcutta is the absence of any proper machinery for securing the expeditious and effective disposal of prosecutions. We understand that Government has already under consideration a proposal that a permanently sitting Court, presided over by a stipendiary magistrate, should be instituted for the trial solely of offences against regulations concerned with Calcutta traffic. We consider this a most salutary proposal and desire to urge that it should be given effect to at the earliest possible date. The new Court should be generously staffed and centrally situated; the presiding officer should be fully experienced in motoring matters, and should have attached to him a bench of honorary magistrates, similarly experienced, sitting in the same building. If this important departure is adequately developed, the following benefits, not present hitherto, should be secured.—

(*a*) offences will be commonly tried at a date when both witnesses and accused are in a position to remember the facts;

(*b*) discipline will be induced by prompt punishment;

(*c*) the growth of something approaching a common standard of punishment for similar offences will be encouraged; and

(*d*) the present marked unwillingness of the public to protect their own interests by instituting cases or appearing as witnesses in cases, owing to the loss of private time involved, will be *pro tanto* reduced.

It should also follow that this central Court, profiting by the fuller and prompter evidence placed before it, will function more commonly than Courts have hitherto done in the matter of exercising the powers of cancelling or suspending licences which the law gives it, and in taking effective notice of instances of police misconduct.

Production of drivers to answer a charge.—The powers of the court as regards the production of drivers to answer a charge are not sufficiently large. It is, we are advised, a common thing for drivers to change from one address to another; and the consequent difficulties in serving a summons or a warrant have been considerable, with the frequent result that the penalties of law have been evaded. We consider that a definite responsibility should be imposed upon the owners of taxis in this matter. It should be within the competency of the court, when it decides to summons a driver, to issue a process upon the owner, requiring him to produce the driver before the court; and a penalty should be enforcible in the event of his failure to do so. The Courts in London possess this power under the motor vehicle regulations of that city; and, holding as we do that the expeditious infliction of punishments is the best means of procuring an efficient taxi service, we recommend that the court should be similarly empowered in Calcutta.

Delegation of powers to cancel and suspend licences.—By an amendment of the Indian Motor Vehicles Act passed in October 1920, local governments are now empowered to prescribe by rules "the authority by which and the conditions and limitations subject to which licences may be suspended or cancelled." We consider it advisable that powers to cancel and suspend licences should be given to the Commissioner of Police, under such limitations as the local Government, in consultation with the public, may see fit to specify. We would advise the treatment of the case in such a manner that the Commissioner of Police is enabled to use his powers in the punishment of repeated minor offences, without the necessity of first procuring the finding of a Court. We consider that it is desirable, and should be practicable, for the Commissioner of Police, through the medium of departmental proceedings, formally recorded and based on written dossiers maintained for each driver, to relieve the courts of much petty work and at the same time to impose a proper check upon accumulative minor offences which, to such an appreciable degree, inconvenience the public and hamper the administration.

IV.—MISCELLANEOUS.

Police staff.—We have already indicated that increases of staff are desirable in the Motor Vehicles Section, in order that the testing of drivers may be properly carried out; and we have urged attachment to the new court of an adequate court staff. A proper staff is also required for two classes of out-door work which have hitherto been neglected. Sergeants should be available for the important duties of detecting cases of excessive speed and of scrutinising the condition of taxis plying for hire. They should be officers with a knowledge of motor engineering, and should be mounted on motor cycles provided with speedometers. Rash driving is, in our opinion, not sufficiently prosecuted at present; and we see no likelihood of its being adequately prosecuted unless officers so mounted are detailed to the duty. In general, we wish to urge upon Government the great importance of supplying the Commissioner of Police with the full staff required for the proper handling of taxi and other traffic. The present superior staff of one Assistant Commissioner, one Inspector and three Sergeants attached to the Deputy Commissioner in charge of the Motor Vehicles Section is totally inadequate for the work that section is required to do, and should be immediately increased. The adequacy of the traffic police staff we have not investigated, the question being one on which only a special expert body could pass judgment. We understand that the annual revenue now realised in the Motor

Vehicles Section is more than twice as great as the annual expenditure incurred in the maintenance of the section. There appears, therefore, to be a substantial margin for expenditure upon improvements; and we feel confident that, in any case, steps will be taken to secure to the public the service it is entitled to demand.

Accommodation.—We consider the compound and offices at Fenwick Bazar too small for the work of both branches of the Public Vehicles Department, and recommend their extension or the removal of the Hackney Carriages Branch elsewhere.

Rules and Manual.—It would be an advantage if the rules regarding taxis were re-arranged so as to bring them into homogeneous groups under leading heads. We would also advise the compilation of an indexed manual of the law and rules regarding public motor vehicles. The obligations of owners and drivers should be chaptered separately; and the part dealing with drivers should be translated into the appropriate vernaculars. The Motor Drivers' Association have notified their willingness to undertake the translation and publication of such a manual.

NOTE OF DISSENT.

I am unable to agree in the recommendation of my colleagues that already licensed drivers should be presumed to be medically fit until something happens to raise doubts as to their fitness. I admit that to impose a medical test upon men admitted to the profession when no medical test was enforced may result in hardship to some of them. But I feel that the interests of public safety should outweigh this consideration. I hold that all taxi-drivers who have not yet passed a medical test should be tested for eyesight and hearing (a simple test to eliminate really dangerous cases), before their subsisting licences are renewed.

ANNEXURE.

Medical questions at present put in respect of applicants for a professional licence to drive a motor vehicle.

1. Is he less than 18 years of age?	.....
2. Is the applicant, to the best of your judgment, subject to epilepsy, vertigo or any mental ailment likely to affect his efficiency?	.....
3. Does the applicant suffer from any heart or lung disorder which might interfere with the performance of his duties as a driver?	.....
4. (*a*) Is there any defect of vision?	.....
(*b*) Does the applicant suffer from night-blindness?	.....
(*c*) Is there any defect of hearing?	.....
5. Has the applicant any deformity or loss of members which would interfere with the efficient performance of his duties as a driver?	.....
6. Is he sufficiently active for the performance of his duties?	.....
7. Does he show any evidence of being addicted to the excessive use of alcohol, tobacco or drugs?	.....
8. Is he in your opinion generally fit as regards (*a*) bodily health and (*b*) temperament for the duties of a motor vehicle driver?	.....
9. Marks of identification.	.....

NOTE.—Special attention should be directed to distant vision, to the condition of the arm, hands and joints of the upper extemities.

RESOLUTION REGARDING THE FORMATION OF THE SUBORDINATE ENGINEERING SERVICE AND THE REVISION OF PAY OF THE LOWER SUBORDINATES OF THE PUBLIC WORKS DEPARTMENT.

GOVERNMENT OF BENGAL.

PUBLIC WORKS DEPARTMENT.

Establishment.

Minister-in-Charge : The Hon'ble Nawab Saiyid Nawab Ali Chaudhuri, Khan Bahadur, C.I.E.

CALCUTTA, THE 4TH APRIL 1921.

RESOLUTION—No. 1263E.

READ—

Government of India, Public Works Department, letter No. 441E.A., dated the 16th July 1920 (paragraph 16).

UNDER the authority granted in the Government of India letter, the Governor, acting with the advice of his Minister, is pleased to announce the formation, with effect from 1st February 1920, of the Bengal Subordinate Engineering Service and an improved time scale of salaries, to take effect from the same date, for those members of the Lower Subordinate Service who are not selected for appointment to the new Subordinate Engineering Service. Recruitment to the Lower Subordinate Service will cease and the nomenclature of "Sub-Overseers—1st, 2nd and 3rd grade" will be abolished from the same date, and the Lower Subordinate Service itself will gradually cease to exist.

2. The qualification required for new recruitment to the Subordinate Engineering Service will, after the selection and appointment of suitable Subordinates from the present Lower Subordinate grades, be generally confined to that hitherto required for the old Upper Subordinate Service, viz., the "Upper Subordinate" Certificate of the Joint Technical Examination Board or such qualification as may in future be prescribed in lieu of that Certificate.

3. The salaries of the two services will be as follows :—

(*a*) The Subordinate Engineering Service :—

Rs. 60—5—110 per mensem, reached in the 11th year of service.

EFFICIENCY BAR.

Rs. 115—5—125 per mensem, reached in the 14th year of service.

Rs. 125—10—225 per mensem, reached in the 24th year of service and after.

There will, however, in addition be a "selection grade" on a salary of Rs. 250 per mensem for those members of the service, to a number not exceeding 3 per cent. of the cadre, who may be selected by the Local Government for promotion to that grade on account of good and efficient service in the lower ranks. The members of this service will be styled "Overseers".

(*b*) Improved scale of salaries for the Lower Subordinate Service :—

Rs. 50—$\frac{3}{2}$—100 per mensem.

4. The names of Subordinates appointed to the New Subordinate Engineering Service and the initial salary to be drawn by each Overseer, with effect from the date of introduction of these orders, will be announced in due course.

Increments in both services will be given for approved service only. An increment which will carry a Subordinate over the efficiency bar will require the sanction of the Local Government; subsequent increments may be drawn on the dates they fall due provided no order has been passed withholding an increment.

Overseers who may be placed in charge of subdivisions, a contingency which should seldom arise, will be entitled to a subdivisional allowance of Rs. 75 per mensem.

ORDERED that this Resolution be forwarded to all Superintending Engineers, the Director of Public Instruction, Bengal, the Principal, Bengal Engineering College, the Principal, Dacca School of Engineering, and the Accountant-General, Bengal, for information, and also that it be published in the *Calcutta Gazette*.

By order of the Government of Bengal
(Ministry of Public Works Department),

C. P. WALSH,
Secretary to the Government of Bengal.

APPORTIONMENT ORDER.

No. 266 1L.R.—The 6th April 1921.—Under section 114 of the Bengal Tenancy Act, 1885 (Act VIII of 1885), the Governor in Council has determined that in thanas Santipur, Ranaghat and Chakdah in the district of Nadia, in police-station Saktipur of district Murshidabad, in police-stations Ketugram, Katwa, Purbasthali and Kalna in the district of Burdwan, in police-stations Balagarh and Hooghly in the district of

Nadia.
Murshidabad.
Burdwan.
Hooghly.
24-Parganas.

Hooghly, in police-station Naihati in the district of the 24-Parganas, where the preparation of a record-of-rights has been undertaken under notification No. 7311L.R., dated the 6th September 1918, the landlords' and tenants' share of cost for the survey and the preparation of a record-of-rights including the estimated cost of maintenance of boundary marks for a period of 15 years shall be apportioned and recovered as specified below :—

(1) The rate of cost to be recovered will be Re. 1 per acre.

(2) Of this, raiyats, including *utbandi* raiyats in respect of the land in which they have been recorded with occupancy right, and persons of the degree of raiyats possessing rent-free holdings and persons holding non-agricultural tenancies, shall pay 6 annas and their landlords of all grades together, 10 annas per acre.

(3) *Utbandi* raiyats in respect of the land in which they have been recorded as without occupancy right shall pay 2 annas per acre.

(4) Landlords shall pay 14 annas per acre for lands in their khas possession and for *utbandi* lands in which no occupancy rights have been recorded.

(5) As between the different grades of landlord, the landlords' share shall be apportioned thus :—

(*a*) Permanent tenure-holders whose rent or rate of rent is fixed in perpetuity shall pay their own share of cost and that of landlords superior to them.

(*b*) Other permanent tenure-holders and temporary tenure-holders whose lease has over 15 years to run shall pay three-fourths of the landlords' share and their landlords shall pay the remaining one-fourth.

(*c*) Temporary tenure-holders whose lease has 15 years to run shall pay fifteen-sixteenths of the share they would pay in accordance with (*b*) above and, so on, proportionately according to the number of years of the lease to run.

(*d*) Temporary tenure-holders who do not hold on a lease or for a fixed term shall pay half of the landlords' share.

Explanation.—The calculation shall be made from the lowest grade of landlords immediately above the raiyats. The period for which the lease of the tenure or under-tenure is to run, is to be reckoned in each case from the close of the agricultural year in which the record is finally published.

(6) Rent-free tenure-holders shall pay the whole of the landlords' share of their lands.

(7) Under-raiyats shall pay at the rate of 4 annas a tenancy or part of a tenancy included in one village.

(8) The following minimum charges shall be adopted :—

(*a*) The minimum charge for any tenancy or part of a tenancy recorded in one village shall be 4 annas.

(*b*) (1) The calculations shall be made to the nearest anna.

(2) Fractions of an acre shall count as a whole acre.

CALCUTTA, *the 8th April 1921.*

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Post Graduate Research Scholarships to be awarded in 1921.

Three Post Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month, and each is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, palæography, epigraphy, philosophy, history, archæology, anthropology, etc., and the third scholarship will be awarded for research either in scientific or in literary subjects. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme of work indicating a definite course of enquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1921, but a scholarship may be renewed from year to year, up to the limit of three years, provided the scholar has throughout the year vigorously prosecuted original research in the subject selected by him.

4. Each candidate for a scholarship should submit his application, through the head of the institution in which he last studied to the Director of Public Instruction, Bengal, on or before 10th May next, and must produce evidence of having passed from a college or other institution in Bengal the M.A. or M.Sc. examination of Calcutta University or of having obtained some other equivalent or higher degree, such as Doctor in Science or Master in Engineering of Calcutta University in 1918 or 1919 or 1920. He must state as definitely as possible the subject or part of a subject in which he intends, if elected to a scholarship, to carry on his original investigation. He must also state the name of the institution in which he proposes to work with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5. Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

W. W. HORNELL,

Director of Public Instruction, Bengal.

Advertisements.

LAND SALE NOTICE.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal Railway, in the district of Nadia, will be put up to sale at 1 P.M., on the 15th day of April 1921, corresponding with 2nd Baisak 1328 B. S., at the Court of the Subdivisional Officer of Ranaghat.

The purchasers of the several plots of land will be subject to the following conditions :—

First—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

Second—If the amount of purchase-money does not exceed Rs. 100 the whole amount must be paid down at once.

Third—If the amount of purchase-money exceed Rs 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a closed holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of the original sale.

Fourth—The plots of land will be sold revenue-free to the highest bidder.

Fifth—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and regular conveyance will then be granted to the purchaser.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

Calcutta, the 1st April 1921.

The Commissioners for the Port of Calcutta.

NOTICE is hereby given under the provisions of section 21 of the Indian Ports Act (XV of 1908) that within the limits of the jurisdiction of the Commissioners as Conservators of the Port of Calcutta and its approaches, that is to say, from Kalna in the district of Burdwan to the sea, the throwing of ashes, rubbish, earth or other materials into the river Hooghly or upon the bank in such a position that they are liable to be washed into the river is forbidden.

Proceedings will be taken against any person committing an offence under the abovementioned section after the publication of this notice.

W. J. GOOD, Offg. Secretary.

The 24th March 1921. (564—3)

The Commissioners for the Port of Chittagong.

NOTIFICATION.

IT is hereby notified, for general information, under section 57 of the Chittagong Port Act, V (B. C) of 1914, that, with the approval of the Governor in Council, the following revised scale of charges has been fixed by the Commissioners for the use of their steam-tug *Gekko* both inside and outside the limits of the Port of Chittagong :—

1. On two or more vessels applying for the use of the tug at the same time, preference will be given to that first cleared at the Customs House, provided she be ready to sail.

2. The charge for towing a vessel to or from the lower port limits will be Re. 1 per registered tonnage of the vessel, subject to a minimum charge of Rs. 350 and a maximum charge of Rs 2,000. When more than one vessel is towed at the same time, the rate will be levied on the total tonnage towed.

3. The charge for shifting a vessel from one mooring within the port limits to another will be Rs. 350.

4. The charge for rendering assistance to a vessel in case of fire, stranding or any other accident within the port limits shall be a sum between Rs. 500 and Rs. 1,000 per diem, the exact amount being settled by the Chairman of the Port Commissioners according to the nature of the work to be done.

5. The charge for lighterage of a vessel lying at or near the Outer Bar shall be Rs. 500 for a day or part of a day.

6. The charge for towing or any other work to be done outside the port limits shall be Rs. 1,000 for a day or part of a day, provided that the rate may be increased to any amount up to Rs. 2,000 per diem by the Chairman of the Port Commissioners if the work required to be done is specially arduous, *e.g.*, in cases of stranding.

7. In addition to the above charges, the party requisitioning the use of the tug shall be liable to pay a reasonable compensation for any damage caused to the tug in rendering the assistance required. Such compensation shall be estimated by the Chairman of the Port Commissioners.

8. If the tug is not availed of after steam is raised a demurrage of Rs. 100 per hour shall be payable.

9. All charges are payable in advance. In cases where the charge cannot be accurately estimated beforehand, the Chairman may require a deposit to be made before the tug is employed.

10. The Port Commissioners at a meeting can reduce or remit any charge in any case which deserves such consideration.

K. C. DE,
Chairman, Port Commissioners

Chittagong, the 8th April 1921.

(642—1)

The Commissioners for the Port of Calcutta.

NOTIFICATION No. 25.

IT is hereby notified for general information under the provision of section 107 of the Calcutta Port Act and with the sanction of Government that on all machinery, metal, whether wrought or unwrought, and all articles made of metal, delivery of which is taken at the Calcutta or Garden Reach Jetties or at the Docks, on or after the 1st April 1921, the rate of rent for the sixth day after landing and thereafter, until further notice, will be six pies per cwt. gross weight. For goods landed at the Heavy Lift Yard at Mullick Ghat or at the subsidiary Heavy Lift Yards, rent will be charged as before notified.

THE INDIAN LAW REPORTS.

Published in FIVE SERIES, viz.,

CALCUTTA, MADRAS, BOMBAY, ALLAHABAD AND LAHORE.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible, after the first of each month, at Calcutta, Madras, Bombay, Allahabad and Lahore respectively.

The reports comprise five Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, a fourth for the Allahabad High Court and a fifth for the Lahore High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay, Allahabad and Lahore Series are distributed direct from Madras, Bombay, Allahabad and Lahore, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in Charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras;

the Manager, Yeravda Prison Press, Poona (Bombay Presidency); or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad; or

the Superintendent, Government Press, Lahore, Punjab.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st March, 1921 :—

No. 8 OF 1921.

A

BILL

further to amend the Code of Civil Procedure, 1908.

WHEREAS it is expedient further to amend the Code of Civil Procedure, 1908; V of 1908.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Code of Civil Procedure (Amendment) Act, 192 .

Insertion of new section 35A in Act V of 1908.

2. In Part I of the Code of Civil Procedure, 1908 (hereinafter referred to as the said Code), after section 35, the following section shall be inserted, namely :— V of 1908.

Compensatory costs in fraudulent suits.

"35. A(*1*) Where in a suit any defendant appears and objects to the claim on the ground that it or any

part of it is as against himself false to the knowledge of the plaintiff or any of the plaintiffs, the Court may, if the objection has been taken at the earliest opportunity and if thereafter as against such defendant the suit is dismissed wholly or in part or is withdrawn or part of the claim is abandoned and it is satisfied of the justice of the objection, direct the payment to such defendant of such amount as costs by way of damages as it thinks fit:

Provided that no such direction for the payment of an amount exceeding one thousand rupees shall be made by any Court other than a High Court.

(2) No person who has been directed to pay costs to a defendant under sub-section (1) shall by reason of such direction be exempted from any criminal liability in respect of any claim made by him."

Amendment of section 96, Act V of 1908.

3. To section 96 of the said Code, the following sub-section shall be added, namely:—

"(4) No appeal shall lie from any decree solely on the ground that the Court has or has not directed the payment of compensatory costs to a defendant under section 35A or has directed the payment of an excessive or insufficient amount."

STATEMENT OF OBJECTS AND REASONS.

THE attention of the Government of India has been drawn from time to time to the very great evil arising from the institution of fraudulent and dishonest suits. Though vigorous efforts have been made for many years to eradicate the evil the reports received by Government show that it still continues rife in certain Provinces and the object of this Bill is to add another method to those already in existence for meeting it. Briefly, it is proposed to insert a provision in the Civil Procedure Code empowering Courts to award compensatory costs in fraudulent suits on the analogy of the provisions of section 250 of the Code of Criminal Procedure. It is hoped that the insertion of this provision in the Civil Procedure Code will assist in preventing the institution of such suits. An appeal will lie from an order for costs when an appeal lies against the main decree in a suit, but not otherwise, and there will be no appeal from an order refusing to give compensatory costs.

LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Indian Limitation Act, 1908, was presented to the Legislative Assembly on the 17th March, 1921:—

LEGISLATIVE ASSEMBLY.

WE, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Limitation Act, 1908, was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. We do not propose any alternation in clause 2 of the Bill.

3. We are unanimously of opinion that section 29 of the Indian Limitation Act, 1908, should provide that all the preceding provisions of the Act, other than section 3, should be applicable for the purpose of determining the period of limitation fixed by any special or local law except in so far as any of those provisions may be expressly excluded by such law. Section 3 should obviously not be deemed to affect or alter a period of limitation specially fixed by any such law. We have therefore re-drafted clause 3 of the Bill, and we think that the re-draft precludes, as far as possible, the risk of conflicting decisions by the various High Courts.

4. The Bill was published in the Gazette of India Extraordinary, dated the 21st February, 1921.

5. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

A

BILL

further to amend the Indian Limitation Act, 1908.

WHEREAS it is expedient further to amend the Indian Limitation Act, 1908; It is hereby enacted as follows:— IX of 1908

Short title

1. This Act may be called the Indian Limitation (Amendment) Act, 192 .

Amendment of section 5, Act IX of 1908.

2. In section 5 of the Indian Limitation Act, 1908, (hereinafter referred to as the said Act), the words "for a review of judgment or for leave to appeal or any other application to which this section may be made applicable by any enactment or rule for the time being in force" shall be omitted. IX of 1908

Amendment of section 29, Act IX of 1908.

3. *In section 29 of the said Act,—*

(a) for sub-section (1) the following sub-sections shall be substituted, namely:—

Savings.

"*29 (1) Nothing in this Act shall affect section 25 of the Indian Contract Act, 1872.* X of 1872

(2) Nothing *in section 3* shall be deemed to affect or alter any period of limitation *specially* prescribed *for any suit, appeal or application* by *any* special or local law *now or hereafter in force in British India; but the rest of the foregoing provisions of this Act shall apply for the purpose of determining any such period of limitation, except in so far as, and to the extent to, which, such law may expressly exclude the operation of the said provisions,*" *and*

(b) Sub-sections (2) and (3) shall be renumbered (3) and (4), respectively.

H. MONCRIEFF SMITH,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 21st March, 1921 :—

No, 13 OF 1921.

A BILL

to amend the law relating to emigration.

WHEREAS it is expedient to amend the law relating to emigration; It is hereby enacted as follows :—

CHAPTER I.

PRELIMINARY.

Short title and extent.

1. This Act may be called the Indian Emigration Act, 192 .

Definitions

2. (*1*) In this Act, unless there is anything repugnant in the subject or context,—

(*a*) "dependent" means any woman or child or aged or incapacitated relative or friend accompanying an emigrant;

(*b*) "emigrant" means any person who emigrates or has emigrated or who has been registered as an emigrant under this Act;

(*c*) "emigrate" and "emigration" denote the departure by sea out of British India of any person under an agreement to work for hire, or when assisted so to depart for the purpose or with the intention of working for hire or engaging in agriculture, in any country beyond the limits of India;

(*d*) "prescribe" means to prescribe by rules made under this Act;

(*e*) "work", with its grammatical variations, means skilled or unskilled work;

(*f*) "skilled work" means—

(*i*) working as an artisan; or

(*ii*) working as a clerk or shop assistant; or

(*iii*) working for the purpose of any exhibition or entertainment; or

(*iv*) service in any restaurant, tea-house, or other place of public resort; or

(*v*) domestic service; or

(*vi*) any other occupation which the Governor General in Council may, by notification in the Gazette of India, declare to be skilled work;

(*g*) "unskilled work" includes engaging in agriculture.

(2) In case of any doubt or dispute, arising otherwise than in the course of any legal proceedings, as to whether—

(*a*) any person is an emigrant, or

(*b*) any work is skilled or unskilled,

within the meaning of this Act, the question shall be determined by such person and in such manner as the Local Government may prescribe, and such determination shall be final.

CHAPTER II.

PROTECTORS OF EMIGRANTS AND MEDICAL INSPECTORS.

Appointment of Protector of Emigrants.

3. (*1*) The Local Government may appoint a person to be the Protector of Emigrants for any port, situate within the territories administered by it, from which emigration is lawful.

(*2*) The Local Government may define the area to which the authority of a Protector of Emigrants so appointed shall extend.

(*3*) Every Protector of Emigrants shall be a public servant within the meaning of the Indian Penal Code. XLV of 1860

General duties of Protector

4. Every Protector of Emigrants, in addition to the special duties assigned to him by or under this Act, shall—

(*a*) protect and aid with his advice all emigrants;

(*b*) cause, so far as he can, all the provisions of this Act and of the rules made thereunder to be complied with;

(*c*) inspect, at the time of its arrival, every vessel bringing return emigrants to the port for which he is Protector;

(*d*) inquire into the treatment received by return emigrants both during the period of their service in the country to which they emigrated and also during the return voyage, and report thereon to the Local Government; and

(*e*) aid and advise return emigrants so far as he reasonably can.

Power to appoint persons to exercise functions of a Protector

5. In any specified area where there is not a Protector of Emigrants, the Local Government may appoint any person to perform all or any of the duties of a Protector of Emigrants under this Act.

Appointment of Medical Inspector.

6. (*1*) The Local Government may appoint one or more Medical Inspectors of Emigrants at any port from which emigration is lawful and, where more than one are appointed, may apportion their respective duties.

(*2*) Every Medical Inspector of Emigrants shall be a public servant within the meaning of the Indian Penal Code. XLV of 1860.

Agents in foreign countries

7. The Governor General in Council may, for the purpose of safeguarding the interests of emigrants in any place outside British India, appoint agents in such places, and may define their powers and duties.

Advisory Committee

8. The Local Government may, for the purpose of assisting any Protector of Emigrants appointed by it, constitute an advisory committee in such manner as it may think fit and may prescribe the procedure to be followed and the functions to be performed by such committee.

CHAPTER III.

EMIGRATION FOR THE PURPOSE OF UNSKILLED WORK.

Ports from which emigration of unskilled workers is lawful

9. (*1*) Emigration for the purpose of unskilled work shall not be lawful except from the ports of Calcutta, Madras, Bombay and Karachi, and from such other ports as the Governor General in Council may, by notification in the Gazette of India, declare to be ports from which such emigration is lawful.

(*2*) The Local Government may, by notification in the local official Gazette, fix for the purposes of this Act the limits of any port from which such emigration is lawful.

Countries to which emigration of unskilled workers is lawful

10. (*1*) Emigration for the purpose of unskilled work shall not be lawful except to such countries and on such terms and conditions as the Governor General in Council, by notification in the Gazette of India, may specify in this behalf.

(*2*) No notification shall be made under sub-section (*1*) unless it has been laid in draft before both Chambers of the Indian Legislature and has been approved by a resolution of each Chamber, either without modification or addition, or with modifications and additions to which both Chambers agree, but, upon such approval being given, the notification may be issued in the form in which it has been so approved.

Power of Local Government to suspend emigration of unskilled workers

11. (*1*) Where the Local Government has reason to believe that, in any country to which emigration for the purpose of unskilled work is lawful, plague or any other epidemic disease dangerous to human life has broken out, and that emigrants, if allowed to emigrate to that country, would be exposed to serious risk of life on arrival there, it may, by notification in the local official Gazette, declare that emigration to that country for the purpose of unskilled work from any port in the territories administered by it shall cease to be lawful pending a reference to the Governor General in Council.

(*2*) The Local Government shall at once report the publication of a notification under sub-section (*1*), with the reasons for it, to the Governor General in Council, who shall thereupon publish a notification in the Gazette of India confirming or cancelling the notification published by the Local Government.

Revocation of prohibition.

12. Where the Governor General in Council is satisfied that the ground on which a notification confirming a notification under sub-section (*1*) of section 11 has been made with respect to any country has ceased to exist, he may, by notification in the Gazette of India, declare that emigration to that country for the purpose of unskilled work shall again be lawful from a date to be specified in the notification.

Power of Local Government to prohibit emigration to specified country.

13. The Local Government may, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, prohibit from a date to be specified in the notification all persons or any specified class of persons from emigrating to any

specified country from the territories under its administration or any specified part thereof for the purpose of unskilled work.

Saving

14. A notification under section 10, 11, 12 or 13 shall not affect any act done, offence committed, or legal proceedings commenced before the date on which such notification takes effect.

CHAPTER IV.

EMIGRATION FOR THE PURPOSE OF SKILLED WORK.

Ports from which emigration of skilled workers is lawful.

15. Emigration for the purpose of skilled work shall not be lawful except from a port from which emigration for the purpose of unskilled work is lawful and from such other ports as the Governor General in Council may, by notification in the Gazette of India, specify in this behalf.

Emigration of skilled workers.

16. Whoever desires to engage, or to assist, any person to emigrate for the purpose of skilled work shall apply for the permission of the Local Government having jurisdiction at the port from which such person is to depart, and shall state in his application—

(*a*) the number of the persons whom he proposes so to engage or assist;

(*b*) The place beyond the limits of India to which each such person and his dependents are to proceed;

(*c*) the accommodation to be provided for each such person and his dependents until their departure out of India and during the voyage;

(*d*) if he desires to engage any such person to emigrate,—

(*i*) the provision to be made for the health and well-being of such person and his dependents during the period of the proposed engagement and for his repatriation at the end of such period,

(*ii*) the terms of the agreement under which such person is to be engaged, and

(*iii*) the security in British India which he proposes to furnish for the due observance of such agreement and for the proper treatment of the person to be engaged and his dependents.

Applications how to be disposed of.

17. On receiving an application under section 16 the Local Government may, after such inquiry as it may deem necessary, grant the permission applied for on such terms and conditions (if any) and on payment of such fees (if any) as it thinks fit, or withhold such permission, and the decision of the Local Government shall be final.

Appearance of engaged persons before, and registration of names by, Protector of Emigrants.

18. (*1*) Before any person departs from British India in accordance with permission granted under section 17, the person by whom he has been engaged or assisted shall appear before the Protector of

Emigrants at the port of embarkation with such first-mentioned person and with any persons intending to accompany him as his dependents.

(2) If it appears to the Protector of Emigrants—

(a) that permission to engage or assist such person has been duly obtained,

(b) in the case of an engagement; that the terms of the agreement under which such person has been engaged are in accordance with the terms of the permission granted and are understood by him, and .

(c) that the conditions on which the permission was granted have been complied with,

he shall register in a book to be kept for the purpose such particulars concerning the person engaged or assisted and his dependents (if any) and concerning the person engaging or assisting him, and in such form, as the Local Government may prescribe.

Provisions as to security.

19. Where such security as is referred to in sub-clause (*iii*) of clause (*d*) of section 16 has been furnished, the Local Government may, after such inquiry as it may deem necessary, pass orders in regard to the forfeiture of the security and the application of the same or of any part thereof, or may order the return of the security or of any part thereof to the person by whom it was furnished, or to his representative.

Delegation to Protector of Emigrants of authority to receive or dispose of applications.

20. The Local Government may, by notification in the local official Gazette, authorise a Protector of Emigrants to receive and dispose of applications made under this Chapter:

Provided that an appeal shall lie to the Local Government from every order passed by a Protector of Emigrants in exercise of the authority so conferred.

Power to prohibit emigration of skilled workers

21. Where the Governor General in Council has reason to believe that sufficient grounds exist for prohibiting emigration of skilled workers to any country, he may, by notification in the Gazette of India, declare that such emigration to that country shall cease to be lawful from a date specified in the notification; and from that date such emigration to that country shall accordingly cease to be lawful.

Saving.

22. Nothing in this Chapter shall apply in any case in which a person engages another to accompany him out of India as his personal domestic servant.

CHAPTER V.

RULES.

Power for Local Government to make rules

23. The Local Government may, by notification in the local official Gazette, make rules consistent with this Act to prescribe the person by whom any doubt or dispute referred to in sub-section (2) of section 2 shall be determined and the procedure to be followed and the proof to be required in such cases, and to provide for any other matter which it is by this Act empowered to prescribe.

Power for the Governor General in Council to make rules.

24. (*1*) The Governor General in Council may, by notification in the Gazette of India, and after previous publication, make rules for the purpose of carrying into effect the provisions of this Act.

(*2*) In particular and without prejudice to the generality of the foregoing power, such rules may provide for—

(*a*) the powers and duties of the several officers appointed by the Government under this Act; and

(*b*) the security, well-being and protection of emigrants.

CHAPTER VI.

OFFENCES.

Unlawful emigration or inducement to emigrate.

25. (*1*) Whoever, except in conformity with the provisions of this Act or of the rules made under this Act,—

(*a*) emigrates or attempts to emigrate, or

(*b*) makes, or attempts to make, any agreement with any person purporting to bind that person to emigrate, or

(*c*) induces, or attempts to induce, any person to leave any place for the purpose of emigrating,

shall be punishable with fine which may extend to five hundred rupees.

(*2*) If any person commits an offence under this section, any police-officer may arrest him without warrant.

Fraudulently inducing to emigrate.

26. Whoever, by means of intoxication, coercion or fraud, causes or induces, or attempts to cause or induce, any person to emigrate, or enter into any agreement to emigrate, or leave any place with a view to emigrating, shall be punishable with imprisonment for a term which may extend to one year, or with fine, or with both.

False representation of Government authority.

27. Whoever falsely represents that any emigrants are required by the Government or are to be engaged on behalf of the Government shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

Sanction to prosecutions.

28. No prosecution shall be instituted for any offence under this Chapter except with the sanction of a Protector of Emigrants or of a person appointed under section 5 and empowered in this behalf or, where there is no Protector or person so appointed and empowered, of the District Magitrtaes.

Power for Customs-officer to search and detain for purposes of Act.

29. All the powers for the time being conferred by law on officers of sea-customs with regard to the searching and detention of vessels or otherwise for the prevention of smuggling on board thereof, may be exercised by those officers for the prevention of offences against this Act.

CHAPTER VII.

SUPPLEMENTAL.

Prohibition of departure by land under an agreement to work for hire in some country beyond the sea.

30. (1) The departure by land out of British India of any person under, or with a view to entering into, an agreement to work for hire, or when assisted so to depart for the purpose or with the intention of working for hire or engaging in agriculture, in any country beyond the sea is prohibited.

(2) Whoever departs or attempts to depart, or induces, or attempts to induce, any person to depart, by land out of British India in contravention of this section shall be deemed to have committed an offence under section 25.

CHAPTER VIII.

SAVINGS AND REPEAL.

Application of Act.

31. Nothing in this Act shall be deemed to apply to the departure out of British India of any person who is neither of Indian parentage nor a subject of a State in India.

Repeal

32. The Indian Emigration Act, 1908, is hereby repealed. Act 1908.

STATEMENT OF OBJECTS AND REASONS.

"EMIGRATION" as defined by section 2 (*iv*) of the Indian Emigration Act, 1908 (XVII of 1908), *i.e.* what is commonly known as "indentured emigration," is still lawful under section 4 of the Act to the countries specified in the first Schedule, except to Natal, in respect of which a notification prohibiting emigration was issued under section 5 of the Act in 1911 An announcement was, however, made by the Government of India in 1917 that indentured emigration would not in future be permitted. Effect has hitherto been given to this undertaking by means of Rule 18-B of the Defence of India (Consolidation) Rules, 1915, which prohibits the emigration, except by license, of all unskilled labour, "for the purpose of, or with the intention of, labouring for hire." It is therefore necessary to take power, before the expiry of the Defence of India Act, to prevent indentured emigration by some other means. This is the first object of the present Bill.

2. The second object of the Bill is to provide machinery for the control of emigration in the future.

3. The principal provisions of the Bill are as follows :—

(1) "Emigration" is defined as the departure by sea out of British India of any person, (*a*) under an agreement to work for hire, or (*b*) when assisted so to depart for the purpose or with the intention of working for hire or engaging in agriculture, in any country beyond the limits of India [clause 2 (*c*)].

(2) "Work" is defined as either skilled or unskilled. Skilled work means the occupations specified in Chapter XI of the present Act, working as a clerk or shop assistant, or any other occupation which may be declared by the Governor General in Council to be skilled work. Unskilled work includes engaging in agriculture [clause 2 (*e*) (*f*) and (*g*)].

(3) Power is taken to appoint

(*a*) Protectors of Emigrants [clause 3], and committees to advise them [clause 8];

(*b*) Agents of the Governor General in Council in places outside India [clause 7].

(4) Emigration for the purpose of unskilled work is prohibited except to such countries and on such terms and conditions as the Governor General in Council, by notification in the Gazette of India, may specify. No such notification shall be made unless it has been laid in draft before both Chambers of the Indian Legislature and has been approved by a Resolution of each Chamber [clause 10].

(5) Emigration for the purpose of skilled work is permitted subject to certain restrictions on the lines of Chapter XI of the present Act [clauses 16 to 20]. But the Governor General in Council is empowered to prohibit by notification the emigration of skilled workers to any specified country where he has reason to believe that sufficient grounds exist for such prohibition [clause 21].

(6) Penalties are provided for unlawful emigration or inducement to emigrate [clauses 25 to 27]. But no prosecution shall be instituted without the sanction of the Protector of Emigrants, or, where there is no Protector, of the District Magistrate [clause 28].

(7) The Bill applies to emigration to all countries. Emigration to Ceylon and the Straits Settlements, which is excluded from the present Act, will be subject to the provisions of the Bill. The Bill does not, however, apply to the departure out of British India of persons who are neither of Indian parentage nor subjects of a State in India [clause 31].

Suction dredgers are at work in the Deli channel, and will show the following signals in addition to the regulation marks and lights :—

BY DAY :

(*i*) If the dredgers are at work :

(*a*) A cone at the yardarm indicates that vessels should keep to the eastern side of the channel.

(*b*) Two cones at the yardarm indicate that vessels should keep to the western side of the channel.

(*ii*) If the dredgers are anchored with the suction apparatus on the bottom, an anchor at the yardarm indicates that vessels should pass on the side on which the anchor is shown.

BY NIGHT :

(*i*) If the suction apparatus is on the bottom :

(*a*) A *green* light at the yardarm indicates that vessels should keep to the eastern side of the channel.

(*b*) A *red* light at the yardarm indicates that vessels should keep to the western side of the channel.

(*ii*) When the suction apparatus is not on the bottom no special signals will be made.

When two dredgers are working at a distance of not more than a quarter of a mile apart, in the event of a vessel approaching, the dredger furthest away from the approaching vessel will cross over to the same side of the channel as the dredger nearest the approaching vessel.

Former Notice.—No. 76M. of 1918 (This office No. 261 of 1918; Admiralty No. 1285 of 1918) hereby cancelled.

Position.—Fort William, lat. 22° 33′ 31″ N., long. 88° 20′ 16″ E.

Details.—Wireless time-signals, in accordance with the system adopted by the International Time Convention are sent out twice daily controlled from the Alipore Observatory at Calcutta by automatic apparatus.

The signals are made at 7h 00m. and 19h. 00m Standard Time, corresponding to 1h. 30m. and 13h. 30m. G. M. T., respectively, as follows :—

Preparative signals.

A series of the letter " X " of the Morse code from 6h. 57m. 00s. and 18h. 57m. 00s. followed by three *dashes* ending at 6h. 58m 00s. and 18h. 58m. 00s.

First series of time signals.

From 6h. 58m. 08s. and 18h. 58m. 08s., the letter " N " of the Morse code, repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 6h. 59m. 00s. and 18h 59m. 00s.

Second series of time signals.

From 6h. 59m. 06s. and 18h 59m. 06s., the letter ' G " of the Morse code repeated every 10 seconds, the *dot* being made at each even 10 seconds; followed by three *dashes* ending at 7h. 00m. 00s. and 19h. 00m. 00s.

Excepting in the letter " X " the *dashes* are of one second and the *dots* of a quarter of a second duration, each sign being separated from the one which immediately follows in the same group by an interval of one second duration.

The wave length used is 2,000 metres.

Remarks.—Should the signal be inaccurate it will be followed by the " Erase " signal of nine or more dots and the words " signal failed."

Chart affected.—No. 748*b*, Indian Ocean, northern portion.

RESOLUTION ON THE REPORTS FROM THE COMMISSIONERS OF DIVISIONS ON THE WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTTA) DURING THE YEAR 1919-20.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT.

CALCUTTA, THE 7TH APRIL 1921.

RESOLUTION—No. 2006L.S.-G.

READ—

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1919-20.

1. **Number of municipalities.**—The number of municipalities remained the same, viz., 115. The name of the South Barrackpore municipality was changed to Khardah.

2. **Elections.**—General elections were held in 16 municipalities and were contested in the majority of cases. There was no contest at Maniktala and there was also no poll in nine out of ten wards in Darjeeling. On the other hand, feeling ran so high in the small municipality of Jaynagar that the polling in one ward could not be finished in consequence of disturbances caused by the candidates' partisans, and a fresh election was held on a subsequent date, when 98 per cent. of the voters attended. The system of secret balloting was adopted in Hooghly-Chinsura and proved successful. The elections at Dacca, Barisal and Tollygunj were followed by litigation, and so was the election of a chairman at Madaripur. A civil suit in connection with the general election held at Sirajganj in April 1918, which was pending before the High Court, was dismissed on compromise in February 1920, and a new Municipal Board has since been constituted. A decision was also given in a civil suit instituted by a ratepayer of Kotrung in connection with the general election held in 1918-19, and the Municipal Board was consequently constituted, but the Commissioners could not agree to the election of any of their number as chairman and asked Government to make an appointment.

3. **Meetings.**—On the average one out of every 20 meetings failed for want of a quorum. The failure was most marked at Jessore, where 7 out of 21 meetings proved abortive. The Commissioners failed to meet once a month in only four municipalities.

4. **Ratepayers and voters.**—The total number of ratepayers rose from 317,117 to 319,906 or 16·2 per cent. of the total population. There are large variations in the ratio, the maximum being 39·2 per cent. and the minimum 3·5 per cent.

5. **Assessment and taxation.**—The average incidence of taxation rose from Rs. 2-9-1 to Rs. 2-14-5 per head of population. In this case also there are large variations, the incidence being above Rs. 5 in five municipalities, viz., Howrah, Cossipore-Chitpur, Chittagong, Kurseong and Darjeeling, while it is as low as 6½ annas in Ramjibanpur, under 7 annas in Baduria and under 9 annas in Kishorganj.

6. **Collections.**—The collections increased by Rs. 2⅔ lakhs, but the percentage on the current demand fell from 97·7 to 90·1, the lowest ratio (74·2) being returned by Satkhira. In the municipalities of the Dacca Division the fall was due largely to the distress caused by the cyclone of September 1919. The percentage of remissions on the current demand fell from 3·6 to 2·8. It was specially high in Bansberia (21·4), Debhatta (16·9) and Narainganj (10·1) as a result of revision on appeals or laxity in collections. Too often there is a tendency to defer writing off demands which should be either collected or remitted earlier.

The total outstanding balances aggregated Rs. 6 lakhs or Rs. 55,000 in excess of the previous year; they were largest in Burdwan, Howrah, Cossipore-Chitpur, Tollygunge, Dacca, Narayanganj, Mymensingh, Barisal and Rampur-Boalia. Nearly half the current demand in Satkhira was in arrear at the end of the year, and there were unsatisfactory results in the municipalities of Midnapore, which are described as follows by the Magistrate :—

"Midnapore ends the year with 13 per cent. of its annual and 42 per cent. of its arrear demands still uncollected. Ghatal was 9 per cent. behind in its annual collection and 10 per cent. in arrear collections. Chandrakona was unable to collect 50 per cent. of its arrears, while its collection of current demand was 29 per cent. short. Khirpai starts with an arrear balance of more than 25 per cent. of its current demand, while Kharar is worst of all with an arrear demand of 50 per cent. of its current demand. The fact is that no serious efforts were made to collect the quarter's dues within the quarter. It is only at the end of the year, when returns have to be submitted with percentages of collections, that a scramble-

occurs to collect as much as possible. Under this system heavy arrears cannot but accrue."

7. **Income and expenditure.**—The total receipts, including opening balances, rose from Rs. 89,06,396 to Rs. 98,29,204, the income from rates and taxes showing an increase of over Rs. 2 lakhs and the receipts from grants and contributions of nearly Rs. 4¾ lakhs.

The total expenditure rose from Rs. 69,67,662 to Rs. 81,33,115. The increase under the head of "Public health and convenience" alone was about Rs. 9½ lakhs. The expenditure under "General administration and collection charges" rose by over Rs. ½ lakh, but represented only 6·6 per cent. of the total expenditure as against 8 per cent. in the previous year.

8. **Closing balances.**—The closing balances, which had risen from 17 lakhs to 19 lakhs in 1918-19, fell again to Rs. 17 lakhs; about one-third of the municipalities closed the year with balances exceeding one-quarter of their total expenditure. A large proportion consists of funds accumulated for schemes of improvement such as water-supply and drainage. On the other hand, a number of municipalities failed to keep adequate working balances. In eight cases they were insufficient to meet outstanding liablilities, viz., Mymensingh, Muktagacha, Barisal, Tollygunge, Baduria, Nabadwip, Murshidabad and Jessore.

9. **Education.**—The total amount spent on education, including the Government grant of Rs. 72,091, was Rs. 2,92,394 or 4·2 per cent. of the municipal income. The expenditure on primary education rose from Rs. 1,27,466 to Rs. 1,34,221, but altogether 22 municipalities, as against 24 in the previous year, failed to spend even 3·2 per cent. of their ordinary income on this object. On the other hand, the percentage was over 5 per cent. in 43 municipalities and over 10 per cent. in eight.

10. **Water-supply.**—The Nator and Satkhira waterworks schemes were completed during the year and progress was made with those designed for Midnapore, Mymensingh and Dacca. A water-supply scheme for Noakhali was sanctioned and partly carried out with the help of a Government contribution. A grant of Rs. 1,25,000 was also made by Government towards the execution of the Krishnagar waterworks scheme. The Comilla water-supply scheme, towards the cost of which the Maharaja of Tripura has promised to contribute Rs. ½ lakh, received the approval of the Sanitary Board. Projects for other municipalities were under preparation or could not be taken up for want of funds. An important appeal to the High Court regarding the legality of metering house-connections in Chittagong was decided in favour of the municipality, and meters have consequently been affixed.

11. **Drainage.**—A drainage scheme for the Budge-Budge municipality was sanctioned during the year, and administrative approval was given to projects designed for the drainage of Suri, Krishnagar and Basirhat. The Commissioners of Hooghly-Chinsura are considering a comprehensive scheme, which will be carried out in parts as funds become available. Minor works were carried out in Uttarpara, Chittagong, Comilla, Darjeeling, Kurseong and Rangpur.

12. **Conservancy.**—There was an increase of Rs. 2 lakhs in the expenditure under this head, which was mainly due to the grant of allowances to the staff and the increased price of materials. The conservancy charges were Rs. 5½ lakhs in excess of the receipts from latrine fees, which rose by only Rs. 44,000. There is often unwillingness to raise the rate of fees so as to make the latrine fund self-supporting and deficit balances are not uncommon.

The sewerage project for Kurseong was nearly completed, and progress was made with the important sewerage scheme at Dacca. Sewerage schemes

for Bhatpara and Kamarhati, towards which the local mill companies subscribed liberally, were under preparation.

13. **Public Health.**—As in the previous year, many municipalities took steps to improve sanitation by filling up or clearing insanitary tanks, *dobas* and ditches and by removing jungle. A congested *bustee* was opened out at Faridpur to the great advantage of the locality. This is an example which might be followed elsewhere, for as a rule little is done in the way of town-planning and improvement. In many municipalities also there is a regrettable reluctance to introduce the market sections of the Municipal Act and to insist that the owners who make profits out of the markets shall keep them in a sanitary condition.

Free vaccination was introduced in Pirojpur and Patuakhali, and elsewhere additional vaccinators were appointed. Nator utilized the services of a midwife to vaccinate *pardanashin* ladies. Lantern lectures on hygiene were delivered by Sanitary Inspectors, and leaflets containing instructions about the precautionary measures to be taken against epidemic diseases were circulated. Special doctors were appointed in some localities; wells and tanks were also disinfected; quinine and other medicines were distributed free to school children and poor persons in several municipalities. Vigorous action was taken by the Civil Surgeon to fight the influenza epidemic in Darjeeling. A special segregation hospital was established, temporary dispensaries were opened in different parts of the town, and Sub-Assistant Surgeons went about treating those who were unable to go to the different hospitals and dispensaries. Steps were taken by some municipalities to eradicate the water hyacinth: Bansberia, Bogra and Ghatal have framed by-laws on the subject.

14. **Public Works.**—The amount spent on public works (Rs. 10,40,825) showed a slight increase. The percentage of outlay on public works to the total expenditure ranged from 1·1 in Halisahar to 49·9 in Taki.

15. **Loans.**—Loans aggregating Rs. 1,32,000 were granted to Burdwan, Hooghly-Chinsura, Brahmanberia and Dinajpur. Altogether 41 municipalities were in debt to Government at the end of the year, their total liabilities amounting to nearly Rs. 40 lakhs. The largest outstanding liabilities were those of Howrah (Rs. 19,17,101), Darjeeling (Rs. 5,72,438), Dacca (Rs. 3,98,511), Hooghly-Chinsura (Rs. 1,62,688) and Chittagong (Rs. 1,31,539).

16. **Audits and embezzlements.**—The accounts of almost all the municipalities were audited during the year. Embezzlements occurred in Burdwan, Bhadreswar, Tollygunge, Baruipur, Netrakona and Ramjibanpur. In some cases the money misappropriated was recovered and the offenders were either dismissed or prosecuted.

17. **General Remarks.—Burdwan Division.**—The record of the year's administration in Howrah, the most important municipality outside Calcutta, is disappointing. As in previous years, a number of necessary improvements could not be taken up for want of funds. The capital outlay on water-supply amounted to only Rs. 7,852 and the insufficiency of the supply continued to cause serious inconvenience. An attempt was made to check waste by the appointment of a superintendent of mains and by metering private connections. No new drainage project could be undertaken, but subsidiary drains and culverts were constructed in different parts of the town. The question of introducing dumping septic tanks in place of the present unsatisfactory trenching grounds was considered, but the municipality is not in a position to finance the scheme, which would cost Rs. 7 lakhs, and it appears that the introduction of a modern sewerage scheme must await the extension to Howrah of the operations of the Calcutta Improvement Trust. The ten ward committees which were formed experimentally for one year from September 1918 for the supervision of conservancy were made permanent. The Commissioner of the

Division complains of their inadequate supervision and of want of co-ordination with the central municipal office. The expenditure on the maintenance of roads remained practically stationary. With an increasing volume of traffic the condition of many roads is going from bad to worse, but the Municipal Commissioners have decided to cut down their programme of road repairs for some years owing to insufficiency of funds. The general health of the town was unsatisfactory. The fact that the death-rate was 68 per mille in 1918 and 58 per mille in 1919, when it was the highest recorded in any town or district of Bengal, points to the imperative need for improving the sanitation of the town.

It should be added that the Municipal Commissioners have realized the necessity for enlarging their resources and making retrenchments where possible. They accordingly resolved during the year under review to raise the rate from 7½ to 8½ per cent., which will bring in an additional income of Rs. 50,000, and also to make readjustments which will effect a saving of about Rs. 10,000 a year.

18. The period of its supersession having expired the administration of the Burdwan municipality was entrusted to a board of nominated Commissioners in October 1919 and a promising start was made. The question of introducing the elective system in Asansol is under consideration. Suri suffered from an indifferent-water supply and a heavy death-rate caused by epidemics. In Bankura a large percentage of the current demand remained unrealized at the end of the year, while the adminstration of the municipalities in the district of Midnapore was also marked by a general laxity in collections, except in Tamluk, which is reported to have given evidence of vigorous management. The municipalities in the district of Hooghly showed marked progress during the year. The income from municipal rates and taxes increased by 9 per cent, and outstanding balances fell by 15 per cent. There is an increasing tendency to recognize the necessity for schemes of improvement, and several of the municipalities have projects of different kinds in hand. In view of this spirit it is regrettable to notice the refusal of the two chief towns (Hooghly-Chinsura and Serampore) to adopt building regulations. In October 1919 on the expiry of the period of supersession Hooghly-Chinsura was removed from official tutelage, and it rests with the new board of Municipal Commissioners to maintain the improvement in its finances which was effected during the term of official administration.

19. **Presidency Division.**—The following extracts from the report of the Magistrate of the 24-Parganas furnish a review of municipal administration in that district, which contains one-fourth of the total number of municipalities in the Presidency :—

"There were no marked signs of progress in the municipalities of this district considered as a whole. The bad municipalities, such as Barasat, Baduria, Halisahar, Tollygunge and Basirhat continued to be bad, and the better municipalities, such as Bhatpara, Titagarh, Naihati and Baranagar, generally continued satisfactorily with the exception of Cossipore-Chitpur, which had got its finances into such a state that the utmost economy will be required during 1920-21 before the general fund can again be solvent. Generally the municipal administration was carried on without much friction, and it is pleasant to be able to note that party feeling was not so bitter as it sometimes had been in the past. There are several Ratepayers' Associations in the district, but the effect they have on the administration at present is not great, as too often they are suspected of being the creation of a defeated minority and not the spontaneous expression of a widespread interest in municipal affairs. The average ratepayer still prefers low rates and a correspondingly low standard of administration to enhanced taxation and improved modern methods. But in view of the great rise in the cost of living this is not to be wondered at. In far too many cases the administration of the municipalities is left to the poorly paid office and outdoor staff, the Chairman and the Vice-

Chairman contenting themselves with attending meetings and signing such papers and registers as the office puts up to them. There are, of course, noteworthy exceptions, but only too often is it the case that the efficiency of the municipality depends almost entirely on the efficiency of the subordinate staff, which is usually badly paid and often not very well qualified ".

In the districts of Murshidabad and Khulna the Commissioner notices a considerable amount of dissatisfaction both as regards the amount of taxation imposed and the inadequacy of the benefits received, and he is impressed with the insufficiency of the municipal resources for dealing with the many problems which are pressing for solution. The Magistrate of Murshidabad reports, that on the whole the administration showed steady progress as far as funds permitted.

20. **Dacca Division.**—The Commissioner of the Dacca Division observes that on the whole the result of the working of the municipalities in the division was satisfactory. There was an advance in public health administration, but so far as collections form a criterion of the quality of administration many municipalities failed to reach a good standard. In Dacca the proportion of collections to the current demand was as low as 83 per cent., and it has recently been necessary for Government to invite the attention of the Municipal Commissioners to the fact that their financial position is deteriorating while their liabilities on account of schemes of improvement are about to be increased. Arrears of taxes have been increasing every year for some time past; the revenue shows no sign of growth, and Government have impressed on the Commissioners the grave concern with which the state of their finances is viewed. Good work was done by the Chairman of the Narayanganj municipality in carrying the reassessment through to a successful conclusion and starting the preparation of schemes of drainage and electric lighting. It is reported that the administration of Barisal causes general dissatisfaction, but that public opinion is too apathetic to enforce a remedy. Elsewhere in the Bakarganj district municipal affairs were managed with efficiency within the limits of small incomes, and the same account is given of the working of the municipalities in Faridpur, where also the people are adverse to the self-taxation necessary to improve civic amenities.

21. **Chittagong Division.**—Comilla and Cox's Bazar were efficiently administered, but a certain lack of vigour was noticeable in Noakhali and Chittagong. Noakhali suffered from erosion by the river, which curtailed its income and deprived it of the principal sources of water-supply. The municipal limits have since been extended to the north, and a waterworks scheme has been sanctioned. Difficulty was caused in Chittagong by a diminished water-supply, to deal with which a scheme has been prepared by the Sanitary Engineer. An interesting development in this town is the establishment of a co-operative society among the municipal sweepers, which has rescued them from the money-lender's grip. There was an embittered agitation in Chandpur regarding the representation of the north and south of the town on the Municipal Board, as a result of which the educated section on the north side refused to participate in the general election.

22. **Rajshahi Division.**—The following extract is taken from the report of the Commissioner of the Rajshahi Division :—

" Among the municipalities of this division Darjeeling stands by itself as the only municipality which maintains a modern standard of administration. Kurseong is a progressive municipality, which has carried out improvements as far as its income permits, and wishes to undertake a comprehensive scheme for the development of the town if funds can be obtained. The most noticeable defect in the administration of other municipalities is the small expenditure on original works. Few important works of improvement

have been carried out, and in this respect the principal municipalities in the plains portion of the division compare unfavourably with municipalities in other parts of Bengal. Nator is the only municipality in the plains which has a piped water-supply. In many municipalities the income could be increased by more careful assessment of taxes."

The administration of the Rampur-Boalia municipality showed no improvement, and was characterized by lack of interest and of a due sense of responsibility on the part of the Commissioners. Nator, Rangpur, Bogra and Dinajpur were managed satisfactorily. The incidence of taxation is abnormally low in the municipalities in the districts of Pabna and Malda. In the important trade centre of Sirajganj with many wealthy merchants, the main bazar roads are still unmetalled, while Old Malda has so far failed to assess the merchant class adequately. In English Bazar there was a severe outbreak of small-pox, and it was only at the insistent request of the Civil Surgeon that the vaccination staff was strengthened by the appointment of one extra vaccinator.

23. The names of the following Chairmen and Vice-Chairmen have been specially brought to the notice of Government by the Commissioners of Divisions on account of the good work done by them: and the Government in the Ministry of Local Self-Government desire to express their appreciation of the public spirit shown by them :—

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the *Rabi* Crops of Bengal, 1920-1921.

(NOTE.—On an average of the five years ending 1918-19, the area under summer rice in Bengal has represented some 0·5 per cent of the total area under rice in British India.)

Character of the season.—Excessive rainfall during the months of September and October retarded preparatory operations. *Rabi* sowings were, in consequence, generally late. Subsequently prolonged drought adversely affected the growth and caused damage in many parts of the western and northern districts. The rainfall during the latter part of January and in February, though somewhat late, generally improved the prospects of the late sown crops, especially those of summer paddy, but heavy rain in the beginning of March accompanied with hailstorms in some eastern and northern districts has damaged the early crops which were nearly ready for harvest. On the whole the season was fair for the early crops and satisfactory for the late crops.

Acreage.—The normal area under the different *rabi* crops in the province dealt with in this forecast is estimated at 3,755,400 acres. The area actually sown this year is reported to be 2,849,500 acres against 2,930,900 acres last year. Of this, the area under summer (*boro*) rice is returned at 426,400 acres against 372,300 acres of last year.

Outturn.—According to the estimates of district officers, the outturn of the different *rabi* crops for the province as a whole works out to 81 per cent of the normal against 82 per cent of last year, the returns from the more important *rabi* districts being as follows:—Nadia 53, Murshidabad 77, Jessore 55, Burdwan 89, Midnapore 100, Rajshahi 74, Jalpaiguri 89, Rangpur 100, Pabna 67, Malda 81, Dacca 76, Mymensingh 75, Faridpur 86, Bakarganj 105, Tippera 77, and Noakhali 100.

Summer rice crop.—The outturn of summer rice according to district estimates is 81 per cent of the normal against 89 per cent last year. The gross yield of the crop for the province, on the basis of a normal yield of 14⅓ maunds of clean grain per acre, is thus estimated at 181,900 tons against 174,500 tons last year or an increase of about 4 per cent.

RANGPUR.	Barley	300	200	300	90	100	Middle of November.	Not yet begun ...	The decrease in area under tobacco was due to unfavourable weather at the sowing time. The increase in area under other crops was due to favourable weather. Heavy rain in September and October left the land full of moisture for the *rabi* food crops, but damaged the tobacco seedlings. The rainfall in January however was beneficial to the crops. Hailstorm in the beginning of February has caused slight damage to tobacco in some selected areas of the subdivisions.

PABNA.	Barley	16,000	13,000	12,300	60	67	Beginning of November.	Not yet commenced.	The decrease in area under barley, gram and other *rabi* cereals as compared with last year was due to bad outturn of last year. The weather was favourable at the time of cultivation. Want of rain since the sowing time retarded the growth of the crops, but the rainfall in the first part of February has improved the growth to some extent. About 30 per cent. of the crop was damaged by drought.

REPORT

ON

PUBLIC INSTRUCTION IN BENGAL

FOR

1919-20.

CHAPTER I.

Introductory.

Total number of institutions and pupils.

1. Institutions, both public and private, increased from 51,701 to 52,879 or by 1,178; while pupils attending these institutions increased from 1,931,535 to 1,953,909 or by 22,374. The increase of 1,178 institutions is the net result of a loss of 219 in the number of private institutions as against a gain of 1,397 in that of public institutions. Public institutions increased from 49,223 to 50,620; while private institutions decreased from 2,478 to 2,259. The number of pupils in public institutions increased from 1,862, 326 to 1,886,599 or by 24,273; and that of pupils in private institutions decreased from 69,209 to 67,310 or by 1,899. The decrease was due to adverse economic conditions, the devastation caused by the Eastern Bengal cyclone and the prevalence of epidemic diseases. Of the total number of pupils in all classes of schools 1,611,175 were males and 342,734 females, as compared with 1,605,646 and 3,25,889, respectively, in the preceding year.

Different classes of public institutions.

2. The return of public institutions on the 31st March 1920 included 53 arts and professional colleges, 903 high schools, 1,897 middle schools, 46,240 primary and 1,527 special schools. The corresponding figures for the previous year were 53,847; 1,966; 44,925 and 1,432, respectively. Classified according to management, 399 of these institutions were under the direct management of Government, and 3,018 under that of district boards and municipalities; while 39,989 institutions were aided and 7,214 unaided. The corresponding figures for the preceding year were 412, 2,976, 38,671 and 7,164, respectively.

Total expenditure on public instruction.

3. The total expenditure on public instruction increased during the year under report from Rs. 2,77,57,635 to Rs. 3,01,92,891 or by Rs. 24,35,256. Of this amount Rs. 2,05,22,304 represented direct and Rs. 96,70,587 indirect expenditure, as compared with Rs. 1,94,27,078 and Rs. 83,30,557, respectively, in the previous year. Of the total expenditure Rs. 1,00,05,332 came from Provincial revenues; District and Municipal funds contributed Rs. 13,38,693 and Rs. 2,06,030, respectively; while the contributions from fees and other private sources amounted, respectively, to Rs. 1,31,58,444 and Rs. 54,84,392. The corresponding figures for the previous year were Rs. 86,27,261, Rs. 13,36,207; Rs. 1,94,703; Rs. 1,26,64,883 and Rs. 49,31,581, respectively.

It will be seen from the figures quoted above that there was an all-round increase of expenditure during the year under review, the most marked increases being under the heads "Provincial Revenues" and "Fees." The increase of expenditure under the two heads just referred to points unmistakably to the conclusion that the demand for education has been growing steadily despite adverse conditions.

Important features of the year's progress.

4. The year under review has been an important one from the point of view of higher education. It witnessed the report of the Calcutta University Commission in which the Commission suggested reforms of far-reaching consequence in almost all branches of education. The passing of, the Dacca University Act has been the first instalment of these reforms The cyclone which took place on the 24th September 1919, demolished a large number of school buildings in the affected areas. The help given by Government and the Central Cyclone Relief Committee relieved the situation.

CHAPTER II.

Controlling Agencies.

Indian Educational Service.

5. On the 31st March 1920 the cadre of the Indian Educational Service consisted of 55 appointments, viz., 50 permanent posts on ordinary rates of pay, 4 on special rates of pay and 1 temporary post on the ordinary rate of pay. During the year under review one post was created in the Indian Educational Service for the Principal of the Rajshahi College in lieu of an appointment in the Provincial Educational Service. This transfer accounts for the excess of 1 appointment over the number of permanent posts on ordinary rates of pay recorded in the report for the year 1918-19.

Provincial Educational Service.

6. At the close of the year 1918-19 the Provincial Educational Service cadre consisted of 173 appointments—171 permanent and 2 temporary. During the year under review 33 new posts were created and 1 post was abolished. The service thus contained on the 31st of March 1920, 205 posts—203 permanent and 2 temporary. The additions made during the year under review included 30 new posts, which were created for headmasters of high schools for boys in connection with the scheme of improvement of secondary education, 2 for additional professors in colleges and 1 for an additional professor in the Dacca School of Engineering.

Subordinate Educational Service.

7. On the 31st March 1919 the cadre of the Subordinate Educational Service consisted of 901 appointments. During the year under review 286 new posts were added to the cadre and 5 posts were abolished. Of the additional posts 210 were created in connexion with the improvement of secondary education; 9 for manual instructors in Government high schools; 5 in connexion with the reorganisation of the Dacca School of Engineering; 54 for headmasters of *guru*-training schools of the improved type, and the remaining 8 for certain colleges and schools. The posts abolished included 1 appointment which was replaced by an additional post in the Provincial Educational Service for the Assistant Headmaster of the School of Engineering at Dacca; in lieu of the remaining 4 appointments, 4 posts outside the graded services were created for foremen-instructors of the Bengal Engineering College, Sibpur. Thus the strength of the service on the 31st March 1920 comprised 1,182 posts.

Lower Subordinate Educational Service.

8. On the 31st March 1920, the number of appointments in the Lower Subordinate Educational Service stood at 451 against 728 on the corresponding date of the preceding year. A large number of posts attached to high schools for boys were abolished during the year in consequence of the introduction of the scheme for the improvement of secondary education in the Presidency, new appointments in lieu of the posts thus abolished having been made in the Subordinate Educational Service and the new Vernacular Teachers' and Clerical services

Vernacular Teachers' Service.

9. As a result of the introduction of the scheme for the improvement of secondary education in Bengal, a new service, called the Vernacular Teachers' Service, was created during the year. It contains 159 posts for vernacular teachers in Government high schools, the pay of each of these posts being Rs. 30—1—50 a month.

Clerical Service.

10 A further result of the improvement scheme has been the creation of what is known as the Clerical service, in which the pay of each post has been fixed at Rs. 30—1—50 a month Twenty-six new appointments have been sanctioned for this service. Each Government high school now has a clerk in this service.

11. The number of posts outside the graded educational services on the 31st March 1920 was 410 (including 46 posts since transferred to the Vernacular Teachers' Service) against 485 at the close of the previous year. During the year under report 24 new ungraded posts were created and 99 posts abolished. Among the officers of this class 35 drew salaries of Rs. 200 a month or upwards, and the rest drew salaries ranging from Rs. 12 to Rs. 180. **Officers not within the classified lists.**

12. For the greater part of the year under review Mr. W. W. Hornell was in charge of the office of the Director of Public Instruction, Bengal; Mr. W. C. Wordsworth and subsequently Mr. T. O. D. Dunn acted temporarily during Mr Hornell's absence on leave. Mr. J. A. Taylor, Assistant Director of Public Instruction for Muhammadan Education, Bengal, went on leave about the middle of the year. Mr. E. F. Oaten officiated for him. **Direction.**

13. The table below shows the strength of the inspecting agency on the 31st March 1920 :— **Inspecting Agency.**

14. Only one officer, Mr. H. E. Stapleton returned from Military duty during the year under report. Ever since his return he has been on special duty in connexion with the establishment of the Dacca University. **Indian Army Reserve of officers.**

15. The reorganization of the Indian Educational and the Provincial Educational Services (the latter is henceforth to be called the Bengal Educational Service) as the result of the Public Services Commission has been worked out since the period under review closed. All the grades of employment below the Provincial Educational Service are still exactly as they have been for several years, except for some *ad interim* allowances for clerks, and many a hard lot is being patiently endured. The Government of Bengal has appointed a committee to advise on the general revision of terms for all employees of the Education Department who are not in the Indian Educational Service, the Provincial Educational Service or the office cadre of the Director of Public Instruction. **The reorganization of the Education Department.**

CHAPTER III.

Collegiate Education.

Arts Colleges.

16. On the 31st March 1920 there were 36 arts colleges in Bengal (including 3 women's colleges). The number of students in these colleges was 21,557 against 20,780 returned for the preceding year. The expenditure on these colleges increased from Rs. 21,07,604 to Rs. 23,24,083. Eight colleges were under Government management and one was under municipal management, while 13 were aided and 14 unaided. During the year under review the average cost of a college was Rs. 64,558 and that of educating a student Rs. 107-12-2. The cost of each student to Provincial revenues works out at Rs. 36-5-7. **General statistics.**

Arts Colleges for Men.

Number of colleges.

17 The number of arts colleges for men was 33; of these Government maintained 7, a municipal body 1 and private associations 25.

Number of students.

18. The number of students rose from 20,616 to 21,380; of these 18,745 were Hindus and 2,332 Muhammadans, while 303 belonged to other communities. The corresponding figures for the preceding year were 18,160, 2,076 and 380, respectively.

Expenditure.

19. The total expenditure on arts colleges for men, which amounted to Rs. 22,45,855, showed an increase of Rs. 2,07,028 over the expenditure of the preceding year. The table below gives the details of the expenditure for the two years:—

	1918-19	1919-20
	Rs.	Rs.
Provincial revenues	6,17,069	7,29,751
Municipal funds	54	345
Fees	12,35,310	13,12,457
Endowments and other sources	1,86,394	2,03,302
Total	20,38,827	22,45,855

Special non-recurring grants.

20. The undermentioned colleges received, during the year, special non-recurring grants (aggregating Rs. 12,786) for effecting certain structural and other improvements:—

(1) Wesleyan College, Bankura.
(2) Midnapore College.
(3) St. Paul's Cathedral College, Calcutta.
(4) Diocesan College, Calcutta.

Out of the Imperial recurring grant of Rs. 1,29,000 made available for private colleges Rs. 1,20,400 was distributed during the year for the improvement of college laboratories and libraries on the recommendation of the Syndicate.

Government colleges—(1) Presidency College.

21. On the 31st March 1920 there were 832 students on the rolls of the college against 927 of the previous year. This number included 715 Hindus and 113 Muhammadans, while 4 students belonged to other communities. The decrease in the number of students during the year is attributed partly to the atempts made to observe strictly the numerical limits laid down by the Governing Body, and partly to a further shrinkage of the fifth and sixth year classes under the new postgraduate scheme of instruction. The total expenditure on the college was Rs. 3,71,337, towards which Provincial revenues contributed Rs. 2,60,556. The average cost of educating a student was Rs. 450-10-5. of which Government paid Rs. 316-3-4.

With effect from the session 1919-20, the Presidency College, Calcutta, was affiliated to the Calcutta University in Botany up to the Intermediate standard. An attempt was made during the year under review to improve the facilities for reading in the seminars by purchasing duplicate copies of books which were in great demand. A scheme was also approved for the increase of accommodation in the arts library. The Chemical Society of the College was revived during the year. The study of physics seems to have suffered, to some extent, as no apparatus could be brought from Europe or America. The geology and botany students made various excursions in charge of their professors. Discipline in the college and the hostel—except for an unpleasant party quarrel in the latter—was satisfactory throughout the year.

(2) Dacca College.

22. The Dacca College returned 754 students on the 31st March 1920 against 800 in the previous year. The reductions in number were greatest in the second and fourth year classes, which were formerly far too large for efficient teaching. Of the total number of students, 563 weer Hindus, 189 Muhammadans and 2 Christians. Some important changes took place in the staff of the College during the year under review. The total direct expenditure on the College during the year amounted to Rs. 2,29,254, towards

which Provincial revenues contributed Rs. 1,72,881. The average cost of educating a student was Rs. 293-14-7, of which Rs. 221-10-3 was borne by Government and Rs. 72-4-4 was paid from fees. Some students were expelled for using unfair means in examination.

(3) Hooghly College.

23. The number of students on the rolls of the Hooghly College on the 31st March 1920 was 255 against 249 in the preceding year. Of the total number of students 228 were Hindus, 26 Muhammadans and 1 Christian. The College was affiliated to the University in Philosophy and Economics up to the B.A. Pass standard during the year under report. The discipline maintained at the College was quite satisfactory. The total direct expenditure on the College amounted to Rs. 72,418, towards which Government contributed Rs. 54,876. The average cost per student was Rs. 304-4-6, of which Government bore Rs. 230-9-2.

(4) Sanskrit College.

24. There were 290 students on the rolls of the College against 168 on the same date of the preceding year. The total direct expenditure and the net cost to Government were Rs. 34,750 and Rs. 15,422, respectively. The average cost per pupil amounted to Rs. 120-10-6, towards which Government contributed Rs. 53-8-9. The officiating Principal complains that there has been a tendency, of late years, among students to give up higher studies in Sanskrit, which previously constituted the chief feature of the College.

(5) Krishnagar College.

25. On the 31st March 1920, the College had 281 students on its rolls against 264 on the corresponding date of the previous year. Of the total number 265 were Hindus, 15 Muhammadans and 1 Christian. A post of Professor of Economics was created during the year under review. There were a few cases of indiscipline, which were punished by the infliction of fines. The total direct expenditure of the College amounted to Rs. 64,372, out of which Rs. 40,634 was met from Provincial revenues. The average cost of educating each student was Rs. 232-6-2, towards which Provincial revenues contributed Rs. 146-11-1.

(6) Chittagong College.

26. The number of students on the rolls of the College on the 31st March 1920 was 405 against 370 in the previous year. The number of Muhammadan students rose from 115 to 124 during the year under report. The total direct expenditure on the College amounted to Rs. 55,621 against Rs. 43,368 in the preceding year. Of this expenditure a sum of Rs. 24,699 was met from Provincial revenues. The average cost of educating a student was Rs. 104-13-0, towards which Provincial revenues contributed Rs. 62-8-6. The College has applied for affiliation in Philosophy up to the B.A Pass standard. To cope with the increased work brought about by the affiliation of the College in some additional subjects in the previous year a Professor of Economics in the Provincial Educational Service, an additional Lecturer in English and a Lecturer in Logic were appointed during the year under report. There were no noteworthy cases of breach of discipline.

(7) Rajshahi College.

27. There were 800 students on the rolls of the College on the 31st March 1920 against 760 on the corresponding date of the previous year. Of these, 650 were Hindus and 150 Muhammadans. The post of a Lecturer in Mathematics was created during the year. Administrative approval was accorded by Government during the year to an outlay of about 3 lakhs of rupees for the construction of 5 Hindu and 1 Muhammadan hostels accommodating 50 students each. The total direct expenditure of the College amounted to Rs. 99,202, towards which Provincial revenues contributed Rs. 30,369. The cost of educating a student was Rs. 128-5-4; of this Rs. 39-4-7 came from Provincial revenues.

Municipal College.

28. The Midnapore College is the only college managed by a Municipal Board. In addition to the annual maintenance grant of Rs. 7,848, Government paid Rs. 2,000 during the year for the provision of additional class rooms. The College had on its rolls 207 students, of whom 195 were Hindus, 10 Muhammadans and 2 of other communities. The total direct expenditure of the College was Rs. 22,680 and the average cost of educating a student was Rs. 110-10-2.

Aided Colleges.

29. The number of aided private colleges during the year was the same as in 1918-19, viz., 12. The number on the rolls of these colleges

was 6,817, of whom 5,875 were Hindus, 740 Muhammadans and 202 came from other communities. Government contributed Rs. 1,21,812 towards the total expenditure of Rs. 6,11,990 during the year. The corresponding figures for the previous year were Rs. 1,25,227 and Rs. 5,81,802, respectively. The average cost of educating a student in aided colleges was Rs. 91-1-1, towards which Government contributed Rs. 18-2-2

A general condition of uncertainty and depression.

30. The period under review, as has been stated above, saw the publication of the Calcutta University Commission's report. After an exhaustive inquiry this Commission found fundamental defects in the present scheme of education in general, and in the University education scheme in particular. The Dacca University Act has found its way to the Statute Book, but the outcome of the Commission's report, so far as it affects the general university and secondary education system of the Presidency is still, in spite of the Government of India resolution, a mere matter for speculation. The resolution foretold an early Bill, but no Bill has as yet appeared. Meanwhile ominous mutterings of financial stringency are in the air. One of the results of all this is that college workers generally are losing heart. They are quite capable of appreciating the financial and other difficulties. What they do ask is that the period of suspense may be ended as soon as possible. As things are it seems idle to discuss the future and quixotic to prepare schemes against it.

CHAPTER IV.

Secondary Education.

General statistics.

31. The total number of secondary schools of all types and grades decreased from 2,813 to 2,800. The number of pupils declined from 404,469 to 397,987, *i.e.*, by 6,482. The gross direct expenditure increased from Rs. 96,27,419 to Rs. 1,00,31,351. The average cost of a secondary school was Rs. 3,582-10, and the cost of educating a pupil Rs. 25-3-3.

Secondary Education for Indian Boys*.

Schools and pupils.

32. During the year under review there was a decrease of 19 schools in the total number of secondary schools for Indian boys. The high schools increased from 812 to 869 or by 57, while middle schools decreased from 1,896 to 1,820 or by 76. The decrease of 43 in the number of middle English schools was due mainly to the raising of these institutions to the high school status The fall of 33 in the number of middle vernacular schools has been due to the ever-growing unpopularity of purely vernacular education. The curriculum for middle vernacular schools is said to be heavier than that of middle English schools, and their worst feature is that they do not lead to any suitable career. The general decline in the number of pupils is attributed partly to the prevailing economic distress and partly to the effects of the cyclone which destroyed many school buildings in some of the eastern districts.

Expenditure.

33. The total expenditure on secondary schools for Indian boys was Rs. 85,83,876. Towards this amount public funds contributed Rs 11,19,319 and private sources Rs. 74,64,557. A comparison with the corresponding figures for 1918-19 shows an increase in expenditure of Rs. 1,53,382 from public funds and of Rs. 3,87,663 from private sources. High schools cost Rs. 64,21,438, middle English schools Rs. 20,02,633 and middle vernacular schools Rs. 1,59,805. The corresponding figures for the previous year were Rs 58,69,488, Rs. 19,95,716 and Rs. 1,77,627, respectively. The increase in expenditure was chiefly confined to high English schools.

Improvements.

34. The year under review witnessed the fruition of the scheme for the improvement of secondary education which had been, for some time past, under the consideration of Government. All headmasters of Government high schools now hold post in the Provincial Educational Service, while the

* The secondary education of Indian girls and Europeans is dealt with in the respective chapters.

other teachers in these schools have been classified into (*i*) English teachers, and (*ii*) vernacular teachers. The grant-in-aid allotments at the disposal of Divisional Inspectors were also increased to enable them to give increased grants to high and middle English schools.

These measures have scarcely touched even the fringe of the problem. In the first place the terms sanctioned for English and vernacular teachers were settled years ago, and with reference to economic conditions which were quite different from those which now obtain. This difficulty has, however, been recognised and is being dealt with. A far more serious consideration is involved in the prospect—a by no means remote one—that the whole secondary school system of the Presidency is approaching the point of break down. The system has been built up on an absolutely unsound financial basis. A general reorganization of pay is taking place It is not likely that the school-teacher in private schools will continue indefinitely to work under his present conditions But without large additional funds the Education Department can do nothing.

The present position.

35. In the sphere of secondary education the position is almost as difficult as it is in the University grade. The Calcutta University Commission recommended the separation from the University curriculum of what is now covered by the first two years of the present University course, the constitution of a new authority to control secondary and intermediate education and the establishment of a system of intermediate colleges, some of which were to contain the high school classes. The adoption of this vital reform was announced in the Government of India resolution, but nothing can be done without an Act Much additional expenditure is also involved In these circumstances a general suspension of effort and a wide-spread feeling of that strain and despondency which always accompany periods of doubt are the prevailing features of the situation. Meanwhile the number of hopelessly inefficient high schools grows apace and the whole position becomes daily more disastrously baffling.

High schools.

36. The number of high schools is increasing fast. In 1918 19, their number was 812, in 1919-20, it rose to 869 Thus the number of high schools increased by 57 or 7 per cent. in the course of a year. As was observed in the previous report the rise in the number of pupils in high schools has not been proportionate to the increase in the number of institutions. The number of pupils during the year 1919-20 rose from 232,476 to 233,429 only. The Inspector of Schools, Rajshahi Division, writes:—

"Some of the new schools are evidently small ones. They cannot pay their way, and are having a hard struggle for existence."

The Hastings School, Alipore.

37 The school had 51 pupils on its rolls on the 31st March 1920. Of these, 23 were boarders and the rest day-scholars. The income from fee-receipts amounted to Rs. 35,853, and the expenditure Rs. 53,687, the deficit of Rs. 17,834, having been met from Provincial revenues. The continuance of the school up to the end of 1922 was sanctioned by the Secretary of State, but the Local Government has decided to close it at the end of 1920.

Manual instruction.

38. Sanction was accorded during the year under report to the permanent retention of manual instruction classes in 21—9 Government and 12 aided-schools. This work is encouraging and should be extended; but this requires funds.

CHAPTER V.

Primary Education.

General statistics.

39. The total number of primary schools for boys and girls rose from 44,925 to 46,240; and the number of pupils attending these schools increased from 1,384,201 to 1,409,814. The expenditure rose from Rs. 48,02,756 to Rs. 49,45,625. The average cost of a primary school and of educating a pupil in it during the year was Rs. 106-15-3 and Rs. 3-8-1, respectively.

Primary Education of Indian Boys*.

Schools.

40. The number of primary schools for Indian boys increased from 34,271 to 34,856, *i.e.*, by 585. Of these, 3,131, were returned as upper primary and 31,725 as lower primary schools. The corresponding figures for the previous year were 3,138 and 31,133, respectively A comparison of the two years' figures reveals that upper primary schools decreased by 7, while lower primary schools increased by 592 The subjoined table compares the numbers of these schools in each division for 1918-19 and 1919-20:—

	1918-19.		1919-20.	
	Upper Primary Schools	Lower Primary Schools	Upper Primary Schools.	Lower Primary Schools

Rajshahi " ...	569	6,234	600	6,264
Total ...	3,138	31,133	3,131	31,725

Pupils.

41. The number of pupils attending primary schools for Indian boys on the 31st March 1920 was 1,151,988 as against 1,144,383 returned on the same date of the preceding year; these figures show an increase of 7,605 pupils. Of the total number of pupils, 146,580 were in upper primary and 1,005,408 in lower primary schools. The corresponding figures for the previous year were 148,914 and 995,469, respectively. On a comparison of these figures it is noticed that the number of pupils attending upper primary schools decreased by 2,334, while pupils attending lower primary schools increased by 9,939. The decrease in the number of pupils in upper primary schools was shared by the Burdwan, Presidency, Dacca and Chittagong Divisions The increase in the number of pupils in the lower primary schools was shared by the three eastern divisions, the largest increase being in the Chittagong Division. The loss of pupils is attributed to the increased cost of living and the high rate of mortality due to influenza and other diseases The figures quoted above refer to primary schools only, and do not take into account the pupils reading in primary classes of secondary schools The number of such pupils was 175,156. The total number, therefore, of pupils in the primary stages of instruction during the year was 1,327,144. The figure for the preceding year was 1,324,030, of whom 179,647 were in secondary schools and 1,144,383 in primary schools. These figures show an increase of 3,114 in the total number of pupils in the primary stages of instruction in secondary and primary schools for Indian boys taken together.

Progress of education among Hindus and Muhammadans.

42. Of the total number of pupils in primary schools for Indian boys, 532,104 were Hindus and 598,507 were Muhammadans. The corresponding figures for the preceding year were 539,164 and 584,917, respectively. Thus the number of Hindu pupils fell by 7,060, or by 1·3 per cent., and of Muhammadan pupils increased by 13,590, or by 2·34 per cent. Of the total male Hindu population, 5·05 per cent. were in primary schools, and of the Muhammadan population 4·88 per cent. The percentages for 1918-19 stood at 5·11 and 4·78, respectively.

Expenditure.

43. The total direct expenditure on primary schools increased during the year under review from Rs. 40,24,826 to Rs. 41,55,666 Of this amount Rs 20,31,479 or 48·9 per cent. came from public funds and Rs. 21,24,187 or 51·1 per cent. from private sources. In the year preceding public funds contributed 49·4 per cent. and other sources 50·6 per cent. of the total expenditure About one-half of the entire cost of primary education for Indian boys is now met from public funds.

* Primary education of Indian girls and Europeans is dealt with in the respective chapters

44. The major portion of the expenditure on primary education from public funds is confined to the additional contributions received from the Imperial Government. A short description of these grants is given below. **Imperial grants.**

The entire assignment was made over to District and Municipal Boards for expenditure on the objects specified in the previous reports, viz., maintenance of Board primary schools and enhancement of the pay of teachers in aided primary schools. **(i) The Durbar grant of Rs. 6,00,000.**

Of the Imperial recurring grant of Rs. 3,65,000 Rs. 2,18,820 was spent for recurring purposes, and a sum of Rs. 58,190 was re-appropriated at a later date for certain other objects. **(ii) The grant of Rs. 3,65,000.**

The entire amount was made over to District Boards for expenditure on specified objects, viz., female education, Muhammadan education, repairs to, and maintenance of, Board primary schools. **(iii) The special Imperial grant of Rs. 2,85,000 for Eastern Bengal districts.**

Out of the grant of Rs. 4,50,000, the total expenditure amounted during the year to Rs. 3,39,241, as detailed below:— **(iv) The grant of Rs. 4,50,000.**

	Rs.
(*a*) Enhancement of the pay of trained teachers of primary schools by Rs. 2 a month	1,47,864
(*b*) Allotment to supplement the grant for enhancement of the pay of trained and untrained teachers ...	32,833
(*c*) Enhancement of the pay of teachers in girls' primary schools in Board areas	35,560
(*d*) Special grant to the Midnapur District Board ...	15,000
(*e*) Inauguration of the scheme for the training of teachers in boys' primary schools	72,394*
(*f*) Construction of *guru*-training school buildings ...	35,590
Total ...	3,39,241

* The amount was spent on other objects by re-appropriation

During the year under review the following items of expenditure were sanctioned out of the recurring Imperial grant of Rs. 5,50,000 made available, since the year before, for the development of primary education:— **(v) The grant of Rs. 5,50,000**

	Rs.
(*a*) Increase of the pay of teachers in aided primary schools and *maktabs* for girls	77,800
(*b*) Construction of *panchayati* union schools for girls ...	30,000
(*c*) Construction of buildings for model girls' schools ...	12,550
(*d*) Charges incurred on account of two assistant inspectresses of schools in Eastern Bengal who were appointed in the year before	12,134
(*e*) Training of Moslem women teachers	4,469
(*f*) Education of *dai* girls	3,000
(*g*) Increased grants to *maktabs* in Board areas ...	74,094
(*h*) Construction of *panchayati* union schools for boys ...	1,02,000
(*i*) Fixing a minimum rate of stipend for untrained teachers in aided primary schools and *maktabs* for boys	53,229
(*j*) For Santal education in Dinajpur	4,000
(*k*) Grant to society for the improvement of backward classes	3,000
(*l*) Construction of buildings for *guru*-training schools ...	1,00,000
Total ...	4,76,276

45. The number of panchayati union schools for boys and girls, for the construction of which funds were made over to the District Boards, was 132—102 schools for boys and 30 for girls. Teacherships in Board primary schools are no longer attractive, since the successive contributions from the Imperial grants have had the effect of raising the income of the trained teachers of aided primary schools above the pay of the Board school teachers. **Panchayati union schools.**

46. Two distinct curricula were in force in the two parts of the Presidency. The revised curriculum drawn up by the Department, which is to be introduced in the whole Presidency, was under the consideration of Government during the year under review. The revised curriculum has since been issued. **Curricula.**

* Inclusive of grants to the District Boards of Midnapur and Mymensingh which were held up during the year.

Primary Education Act.

47. In terms of the Primary Education Act, which was passed in February 1919, the municipalities in Bengal were called upon to submit to Government certain statistics and estimates for the extension of primary education in their respective areas, and the subordinate inspecting staff was advised to help the municipalities in the preparation of the statistics. Nothing practical has as yet evolved, except from the municipalities of Darjeeling and Kurseong. The municipalities hesitate to commit themselves to any additional expenditure. Since the period under review closed, an officer of the Indian Educational Service has been placed on special duty to work out a practical programme of expansion and improvement.

The general position at present.

48. The condition of primary education in Bengal continues to be bad, and the outlook is depressing. The worst feature is the fact that the primary school teacher does not get a living wage. Hence a not inconsiderable number of the primary schools are mere make-believes. Children are collected in them to be seen by the inspecting officers of the Education Department, but ordinarily the teachers devote the bulk of their time to supplementary or more lucrative avocations. Then the facilities for training primary school teachers are inadequate, while many of the older schools, especially those in Western Bengal, are hopelessly inefficient. The malaria which rages for certain months in the year in certain parts of the Presidency is another serious obstacle in the path of progress. A great deal more money is, of course, needed. Indeed, even the rudiments of what might be called with any show of reason a primary school system can scarcely be said to exist. But something could undoubtedly be done by organisation. In some areas the slender resources of the local Education authority are frittered away over a considerable number of inefficient and unnecessary schools, resources, which if they were concentrated, might go to maintain an adequate number of reasonably efficient institutions. It is hoped that the officer to whom reference has been made in the paragraph above will help the local Education authorities to organise their resources.

CHAPTER VI.

The Training of Men Teachers.

Number of institutions and pupils.

49. On the 31st March 1920 there were 119 institutions for the training of men teachers for Indian schools, and these institutions had 2,694 pupils on their rolls. The corresponding figures for the preceding year were 125 and 2,563, respectively. The decline in the number of institutions was due to the abolition of the old type *guru* and *muallim* training schools noted below:—

(1) Hamdua *Guru* Training School.
(2) Dhonda *Guru* Training School.
(3) Sanko *Guru* Training School.
(4) Kankuria *Guru* Training School.
(5) Shambazar *Guru* Training School.
(6) Kumarpara *Guru* Training School.
(7) Govindapur *Guru* Training School.
(8) Hakola *Guru* Training School.
(9) Old Kusthia *Guru* Training School.
(10) Sadarpur *Guru* Training School.
(11) Natunchati *Guru* Training School.
(12) Pandua *Mianji* Training School.
(13) Ramu *Mianji* Training School.

At the same time *guru* training schools of the improved type were started at Rupganj, Burdwan, Kalna, Katwa, Serampore and Bankura, and a *mianji* training school at Hooghly. Of the total number of training institutions, 2 are training colleges, 6 normal schools and 111 *guru*, *muallim* and special training schools.

Training Colleges.

50. The two training colleges for teachers in Bengal prepare students for the B.T. degree and the Licentiate in Teaching. The remarks which were made in previous reports about these courses still hold good.

51. There were on the rolls of the College, on the 31st March 1920, 42 students—25 in the B.T. and 17 in the L.T. class. Of these, 2 were Indian Christians, 35 Hindus and 5 Muhammadans. Twenty-five students appeared in the B.T. Examination, of whom 21 passed, 10 being placed in the 1st Division. In the L.T. Examination, 16 students appeared, of whom 14 were successful. The total direct expenditure of the College amounted to Rs. 39,892. The average cost of training a student was Rs. 949-13, and this was met entirely from Provincial revenues. (i) David Hare Training College.

Owing to the general inadequacy of the educational attainments of the students taking the licentiate course special tutorial classes in History, Geography and Mathematics had to be arranged for them by the college authorities. Some of the Muhammadan students of the Training College were accommodated in the Carmichael hostel. The College continued to occupy the old premises during the year. The arrangements in regard to practical training were the same as in the year preceding.

52. On the 31st March 1920 the Dacca Training College had 58 students on its rolls. Of these, 46 were Hindus and 11 Muhammadans, while 1 belonged to another community. The session commenced with 45 students in the B.T. and 18 students in the L.T. class. Some of the students withdrew either on account of ill-health or to join more remunerative appointments. Four B.T. students were deputed to the College by the Government of His Exalted Highness the Nizam of Hyderabad. Thirty-nine students sat for the B.T. Examination, of whom 32 were successful, 18 obtaining first class. Of the 15 candidates who appeared at the L.T. Examination, 9 were successful, 1 gaining distinction. The total direct expenditure on the College amounted to Rs. 58,196, towards which Provincial revenues contributed Rs. 55,496, and the balance, viz., Rs. 2,700 was met from other sources. The average cost of training a student was Rs. 951-10-5. (ii) Dacca Training College.

During the year under review the practical work of the students was carried on in the Dacca Collegiate and Armanitola High Schools. The use of the Moslem High School for practical teaching was discontinued owing to various difficulties. The teachers of the Armanitola High and Dacca Collegiate Schools were granted honoraria for their assistance in connexion with the practical teaching work of the students. The officiating Principal reports that the absence of infant and primary classes is a distinct obstacle to training for the earlier stages of education. The value of the stipends paid to L.T. candidates was raised during the year from Rs. 15 to Rs. 20 each.

53. The Calcutta University Commission recommended important changes in the organisation and course for training colleges, the latter being considered too theoretical. Changes suggested.

54. The number of training schools for vernacular teachers remained stationary at 6, 5 of which are managed by Government, while one, an aided institution, is maintained by the Church Missionary Society. These schools had 492 pupils on the 31st March 1920, as compared with 509 pupils on the same date of the preceding year. Training Schools for Vernacular teachers.

The expenditure on these schools amounted to Rs. 97,573 against Rs. 87,051 in 1918-19. Of this amount, Rs. 92,668 came from Provincial revenues and Rs. 4,905 from other sources. The corresponding figures for the previous year were Rs. 82,125 and Rs. 4,926, respectively. Out of 214 students who appeared at the Final Examination, 131 were successful, the figure for 1918-19 being 134. During the year under review a further special grant was sanctioned in favour of the Calcutta Training School for the purchase of appliances and books for the improved teaching of geography. A scheme for opening a new class in connexion with the Chittagong Normal School for the supplementary training of B.T.s and L.T.s who will be appointed to the staff of *guru* training schools of the improved type has been under consideration. The question of reorganising the normal schools has also been engaging the attention of the department.

55. The number of *guru* training schools and special training classes returned on the 31st March 1920 was 111, of which 107 were managed by *Guru*-Training Schools

Government and 4 were aided. During the year under review the number of Government schools decreased by 5, the decrease being due to the abolition of certain old-type schools, as has been explained in a preceding paragraph. The number of *gurus* and *muallims* under training during the year was 2,102 against 1,956 in 1918-19. Out of 1,382 candidates, 989 were successful in the Final Examination. The maintenance charges of all the institutions amounted to Rs. 2,38,747, towards which Provincial revenues contributed Rs. 2,14,649.

During the year under review orders of the Secretary of State were received on the proposals for opening *guru* training schools of an improved type in central places. The value of the stipends paid to *guru* pupils was also raised, as a temporary measure, to Rs. 11 a month during the year under review.

A sum of Rs. 1,50,000 was made available during the year under review for the construction of buildings for *guru*-training schools of the improved type. With the money available the buildings of three *guru* training schools, viz., Bankura, Thakurgaon and Kurigram and of one *muallim* training school at Hooghly were completed.

CHAPTER VII.

Professional and Technical Education.

Law Colleges and classes.

56. As in the previous year facilities for the study of law existed in the University Law College, Calcutta, and the law classes attached to the Arts Colleges at Hooghly, Krishnagar, Dacca, Rajshahi, Chittagong, Midnapore, Berhampore and the Ripon College, Calcutta. There were no students during the year in the law classes attached to the Hooghly College. The total number of law students is reported to have been 2,939 on the 31st March 1920 against 3,148 students returned in the preceding year. Of these, 2,667 were Hindus and 257 Muhammadans, while 15 belonged to other sections of the community; the corresponding figures for the previous year were 2,878, 257 and 13, respectively. The total direct expenditure on law institutions amounted during the year to Rs. 2,78,970, of which Rs. 30,000 was paid from Provincial revenues. At the B.L. Final Examination 1,559 candidates appeared, of whom 703 passed.

Pleaders' Survey Examination Board.

57. The short-term training classes at Dacca and Sibpur continued. Out of 14 registered candidates, all of whom appeared at the examination held in February 1920, only 5 passed.

During the year under review revised proposals were received for the delivery of a course of lectures by the Director of Surveys, Bengal, on survey maps and records for the benefit of pleaders and law students. These lectures are to be controlled by the University of Calcutta, which body will pay the lecturer's remuneration out of the fees realised from the students.

Amin Examination Board.

58. The number of candidates that appeared at the Amin Examination, held in September 1919, was 43, of whom 27 passed. The corresponding figures for the previous year were 59 and 48, respectively. The cost of conducting the examination amounted to Rs. 568, including the travelling allowance of the touring examiners in practical surveying. Government have been addressed with a view to enlarging the functions of the Board. Proposals have also been submitted to Government for the opening of a survey class at the Burdwan Technical School.

The Mainamati Survey School.

59. During the year under review orders were received from Government transferring the control of the school from the Director of Surveys, Bengal, to the Education Department, with effect from the 1st April 1920. On the 31st March 1920 the school had 57 students on its rolls; of this number, 52 were Hindus and 5 Muhammadans. The school trains a few kanungoes besides the regular students. At the Final Examination 48 students appeared, of whom 45 were successful. The total direct expenditure on the school amounted to Rs. 10,000, to which Provincial revenues contributed Rs. 7,921.

60. The number of students attending the Engineering Department of the College was 87 as against 91 returned in the previous year. The number of students in the Apprentice Department was 245 against 237 in the year preceding. The artisan classes had 40 pupils against 58 in the year before. Of the total number of students, 299 were Hindus, 16 Muhammadans, 53 Christians, 2 Buddhists and 2 Parsis. The total direct expenditure of the College amounted to Rs. 2,35,843, of which Rs. 2,05,028 came from Provincial revenues. The average cost of educating a student was Rs. 693-10-6, of which Rs. 603-0-4 came from Provincial revenues. The total value of the work turned out in the College workshops aggregated Rs. 17,193. **Bengal Engineering College, Sibpur.**

During the year under review the title of the College was changed from the Civil Engineering to Bengal Engineering College. The sanction of Government was also accorded to the appointment of visiting lecturers for the College as in the previous year. No new building was constructed during the year under review; administrative approval of Government was, however, conveyed to certain urgent improvements at an estimated cost of Rs. 3,32,257. The dyeing classes of the College were removed to the Government Weaving Institute at Serampore. Five boarding stipends of Rs. 25 each were created in place of five free-studentships available for Europeans and Anglo-Indians in the Apprentice Department. A committee composed of Messrs. Heaton, Everett and Richardson was constituted to prepare a definite scheme in connexion with the institution of a course in hydro-electric engineering.

The scheme which seeks to co-ordinate the apprentice training in the Eastern Bengal Railway workshops at Kanchrapara with the Mechanical Engineering classes of the Bengal Engineering College, Sibpur, has been favourably considered by Government, who have sanctioned a part of the non-recurring expenditure.

61. The Dacca School of Engineering had 277 pupils in its three departments; of this number, 59 belonged to the old Overseer classes, 63 to the new Upper Subordinate classes and 66 to the new Lower Subordinate classes Ten students were in the Amin class and 79 attended the Artisan Department. The total direct expenditure on the institution amounted to Rs. 61,560, towards which Provincial revenues contributed Rs 50,273. The expenditure during 1919-20 increased by Rs. 2,803, due chiefly to the appointment of two additional teachers and the increment in grade pay earned by certain officers. The total value of the work turned out was Rs. 2,777 for outside work and Rs. 3,535 for work done to the school hostel and workshops. There was no serious breach of discipline during the session. **Dacca School of Engineering.**

The scheme for the general improvement of the Dacca School of Engineering, which was submitted to Government, was sanctioned during the year. The improvements sanctioned included the removal of the school and the workshops to the building formerly used as the Secretariat Press, and the change in the designation of the head of the institution from "Head Master" to "Principal." The old Overseer class will cease to exist after March 1921. A scheme for opening a 2nd year Amin class has been submitted to Government. The system of crediting each artisan with one-half share of the profit made on his work was introduced during the year with very good results. The school sent a large variety of exhibits to the Peace Celebration Exhibition at Calcutta and the Social Service Exhibition at Dacca.

62. During the year under report 50 students were under training in the higher classes in which they are expected to qualify as organisers of the weaving industry. In the Artisan class, in which actual handloom weaving is taught, the number was 92, out of which 53 passed out. Of the 53 students, 32 are working on fly-shuttle looms at their own homes, 5 have been employed in power mills, 2 in hand-loom factories, 5 have found employment as weaving assistants, 1 has started a factory of his own, 2 have started dyeing businesses, 2 are employed in other occupations, 2 are dead and the whereabouts of the remaining 2 are unknown. The officiating Principal complains of the insufficient number of students for admission to the higher classes, which he attributes partly to the late commencement of the session **Serampore Weaving Institute and outlying centres.**

in November. During the year under review block printing was introduced, and the students are said to have evinced a keen interest in it. It has been proposed to remove the Weaving Institute from Serampore, where there are difficulties in the way of expansion, to a spacious site at Lillooah. The Collector of Howrah has been asked to provide an estimate of the cost of the necessary land. The total direct expenditure on the institute amounted to Rs. 26,464, of which Rs. 25,952 came from Provincial revenues. The following table furnishes the necessary particulars about the outlying centres:—

Centre.	Total expenditure of Government.	Number of students under training in 1919-20.	Number passed.	How employed.				
				Working at home on fly-shuttle looms and primitive looms.	Opened factory.	Taken service	Deputed to Serampore for further training.	Present occupation not known

The Dacca District Board have launched a scheme for starting a weaving institute at Dacca, where the weavers seem eager to adopt the improved machinery. It has been proposed to close the outlying centre at Cox's Bazar, which has proved a failure, owing to the dislike of the weavers to all innovations; at the same time two more centres are to be opened at Zoravganj and Chowmohani. The six peripatetic centres of instruction in weaving at Bankura, Pabna, Tangail, Malda, Dacca and Khulna, which were opened as an experimental measure for two years, are said to have been a success, and will be retained permanently.

Government Commercial Institute, Calcutta.

63. The number of pupils in the day and evening classes together on the 31st March 1920 totalled 184. Some of these students were graduates and Muhammadans, very few of whom sought admission to the institution previously. The institute was removed to larger premises in Bow Bazar Street during the year under report. Except the Auditing and Accountancy classes and the Mercantile Law class, no class for advanced courses of study in Political Economy, Banking and Currency and Annuity and Insurance could be formed. Two additional lecturers, in addition to an instructor in Typewriting, had to be appointed, to cope with the increased teaching work in English, Book-keeping, and Geography. The officiating Principal represents that the initial pay offered is not attractive to qualified lecturers. At the Final Examination 7 candidates passed out of 10 and at the Special Examination 31 passed out of 43. Out of 150 candidates who appeared at the Final and Special Examinations as private candidates from affiliated institutions, 54 achieved success. The total direct expenditure during the year amounted to Rs. 28,027, and the income from fees was Rs.11,308.

Owing to paucity of candidates no examination was held in Bengal during the year for the issue of Diplomas in Accountancy instituted under the scheme in connection with the Sydenham College of Commerce and Economy, Bombay.

Government School of Art, Calcutta.

64. The number of students on the rolls on the 31st March 1920 was 276 against 246 in the previous year.

The Elementary, Industrial, Draftsman, Fine Arts and Teachers' Department had 119, 51, 37, 65 and 4 pupils, respectively. As in previous years, students from all parts of India—Cochin, Mysore, Assam, the Punjab, Bihar and Orissa and Rangoon—attended the school. In the Industrial Department the advanced students were allowed to study drawings from life. The students of the modelling section executed a number of commissions, which

gave them both practice and remuneration; these commissions included the historical paintings of the Government House, Delhi, which were repaired and renovated.

The passed students of the Draftsman Department generally secure appointments in Government and private offices. Of the total number of students, 254 were Hindus, 14 Muhammadans, 3 Christians, 2 Buddhists and 3 of other communities. There were 28 boarders in the attached hostel. During the year under review the direct expenditure on the school amounted to Rs. 28,503, the whole of which came from Provincial revenues.

Oriental Art.

65. The Indian Society of Oriental Art has promoted the Indian School of Painting by means of exhibitions in London, Paris and Calcutta. The society received a capital grant of Rs. 12,900.

Joint Technical Examination Board.

66. In the Overseer Examination, held in March 1920, 36 candidates passed out of 56 who actually appeared, or 64·3 per cent. against 81·7 per cent. in the previous year. The figures for the Overseer Examination include 14 candidates in the Mechanical and Electrical branch, of whom 10 were successful. In the Sub-Overseer Examination, which was held for the last time, 46 candidates passed out of 77 actually appearing at the examination, or 59·7 per cent. against 53·9 per cent. in the previous year.

In the Lower Subordinate Examination (first examination under the new course, which is to take the place of the Sub-Overseer Examination) 29 passed out of 50 or 58 per cent.

The figures in this paragraph include the candidates from Bihar and Orissa.

Mining Instruction in the Coal Fields.

67. With a view to improve the evening classes at the mining centres in Bengal, Bihar and Orissa (2 in Bengal and 2 in Bihar and Orissa), the Government of Bengal proposed that, owing to the refusal of the Indian Mining Association and the Mining Federation to accept the responsibility for any share of the cost of the mining classes, the two Governments should, at any rate for the time being, provide for the capital expenditure of Rs. 1,50,800 and the recurring cost, namely, Rs. 70,368 of the scheme less the subsidy of Rs. 10,000, which the Government of India consented to pay until the new financial settlement comes into force. The Government of Bihar and Orissa having expressed their inability to agree to the proposal, the Government of Bengal are considering the advisability of carrying out the scheme separately for the Bengal centres.

In the Mining Department of the Bengal Engineering College, out of 14 students who entered on the final year's course, 12 were awarded diplomas. In the junior year 24 students entered on the course, 16 were permitted to sit for the examination and 13 qualified for promotion to the final year. There were 4 special students studying during the period; 33 students entered the preliminary class, of whom 27 were promoted.

The annual mining camp was pitched at Jhariah. Nine outside students attended the camp for the special survey course, the total number in the camp being 49.

City and Guilds of London Institute Examination.

68. During the year under review 82 candidates appeared in the examinations. Of these, 35 passed—25 in textile and 10 in non-textile subjects. Twenty-six women candidates also appeared at the examinations in domestic subjects, held in November, at Calcutta and Kurseong. Of these, 24 passed; the total fee receipts in connection with the examination amounted to Rs. 1,281, and the expenditure incurred was Rs. 858.

"B" Classes.

69. The syllabus of the "B" classes has been revised. At the Final Examination of the "B" classes of 1920, 44 candidates appeared and 19 passed, or 43·2 per cent. The corresponding figures for 1919 were 44 and 24, respectively. These figures do not include candidates from Bihar and Orissa.

Technological Institute, Calcutta.

70. Government have decided to establish in Calcutta a technical school, with the object of training foreman mechanics. The proposed school is not to be a Government institution, but one owned by trustees and conducted by a Governing Body with the assistance of a grant from Government. The question of the selection of a site is engaging attention.

The Rangamati Industrial School.

71. Government have sanctioned the opening, as an experimental measure for three years, of an industrial school at Rangamati at an initial cost of Rs. 6,149 and a recurring cost of Rs. 3,840 per annum. The school is to be under the control of the Superintendent of the Chittagong Hill Tracts.

Reformatory School.

72. The reformatory school at Hazaribagh not being a suitable place for the reception of European and Anglo-Indian boys, the question as to the best way of disposing of such boys from Bengal has been engaging the attention of Government.

State Technical Scholarship.

73. During the year under review one State Technical Scholarship of the value of £150 a year was awarded to Mr. Apurba Kumar Sen for training in Industrial Chemistry with special reference to paper manufacture.

Transfer of Technical and Industrial Schools to the Industries Department.

74. During the year under review the Industries Department was reorganized in accordance with the general proposal of the Indian Industries Commission. Subsequent to the close of the year Government have issued an order transferring all educational institutions for technical and industrial training, with the exception of the Bengal Engineering College and Ahsanullah School of Engineering at Dacca from the Education to the Industries Department. Thus a new era for technical and industrial education has now been inaugurated.

CHAPTER VIII.

Education of Indian Girls and Women.

Institutions.

75. The number of public institutions of all classes for Indian girls on the 31st March 1920 increased to 11,543 against 10,811 returned on the corresponding date of the previous year. Of these, 3 were arts colleges, 2 training colleges, 13 high schools, 54 middle schools, 11,366 primary schools, 10 training schools and 95 other special schools. The corresponding figures for the preceeding year were 3, 2, 13, 48, 10,636, 9 and 100, respectively.

Pupils.

76. The number of pupils, including girls reading in mixed schools, increased from 307,773 to 323,992, or by 16,219. Of this number, 149,088 were Hindus, 166,843 were Muhammadans and 8,061 belonged to other communities. It will be noticed that while the number of Hindu girls increased by 229 only, that of Muhammadan girls increased by 15,759.

Controlling agency.

77. No further addition was made to the female inspecting agency during the year under review. The female inspecting staff consisted, as in the previous year, of 2 Inspectresses and 12 Assistant Inspectresses. One more Assistant Inspectress of Schools for Eastern Bengal, with headquarters at Chittagong, is urgently required.

Collegiate Education—Arts Colleges.

78. The Bethune College and the Collegiate School have for many years been seriously cramped for accommodation. To remove the congestion Government have sanctioned a scheme for the construction of temporary class rooms, and these rooms are now being used. The College needs further development and reorganisation, but the question has been held in abeyance pending the consideration of the report of the Calcutta University Commission. The proposal to separate the college from the school and locate it in a separate part of the town has been abandoned. Proposals for extended affiliation in Botany and Mathematics up to the B.A. standard were under consideration during the year under report.

There were 89 students on the rolls against 85 in the preceding year. Of this number, 78 were Hindus and 11 Christians. The total direct expenditure amounted during the year to Rs. 50,251, towards which Government contributed Rs. 45,428. The average cost of educating a student was Rs. 552-3-4, of which Rs. 499-3-4 came from public funds.

The two other arts colleges for Indian girls besides the Bethune College were the Diocesan College and Loreto House. The former had 79 pupils on its rolls and the latter 9.

Secondary Education—(1) High Schools.

79. Of the 13 high schools for Indian girls, 4 were under Government management and 9 aided. They had 2,575 scholars on the rolls against

2,356. A course of lectures in first-aid and hygiene was given to the senior pupils of the Eden High School, Dacca, by a specially appointed hygiene lecturer. Lessons on first-aid and infant-rearing were also started in the Vidyamayee High School, Mymensingh. Miss Brock, Inspectress of Schools, Presidency and Burdwan Divisions, alludes in her report to the utter lack of teachers in high English and higher secondary schools for teaching such subjects as science, domestic science, sanitation, physical education and art work. In the matter of domestic science, Government was addressed during the year with a view to the provision of two State scholarships, to enable two Indian ladies to be sent to the Gloucester School of Domestic Science to undergo a course of training, the idea being that these teachers should, on their return, be occupied with the training of teachers in this subject. As regards physical culture, Miss Brock says that in several high schools there is not even a central hall where the girls can take exercise. The Mission schools are said to be far better off in this respect. Conveyance difficulties in high schools are becoming more acute owing to the increased cost involved.

(2) Middle Schools.

80. There were 54 middle schools in the Presidency, of which 27 were middle English schools and the remainder middle vernacular. Of the total number of middle schools for girls, 5 were under public management and 49 were aided. The schools were attended by 6,463 pupils against 5,475 in the previous year. Dealing with the future development of middle schools, Miss Brock remarks that these schools should be made strictly *purdah* with trained Hindu female teachers. It was decided to start a central *purdah-nashin* school at Calcutta, to provide instruction for orthodox Hindu girls in accordance with a distinct syllabus of its own. For this purpose the Binapani Girls' School—an aided institution—has been converted into a *purdanashin* school and removed to more spacious premises.

Primary education.

81. The number of primary schools for the education of Indian girls stood at 11,366. The total direct expenditure on these schools amounted to Rs. 722,312. Of 256,915 pupils attending them on the 31st March 1920, 110,547 were Hindus and 142,152 Muhammadans. The numbers of Muhammadan and Hindu pupils reading in primary schools are reported to have increased by 16,516 and 1,614, respectively, during the year under report. The increase in the number of Muhammadan pupils is largely attributed to the attractive nature of the *maktab* curriculum, which includes the teaching of the *koran* and the rituals of Islam. No new grant was received from the Imperial Government during the year under review. A large part of the allotments available from the Imperial assignments of Rs. 9,00,000 and Rs. 5,50,000 was utilised on specific objects, among which the following are worth mentioning :—

(*a*) Increase of the pay of whole-time teachers working in aided primary schools by Rs. 2 a month.

(*b*) Increase in the grant-in-aid allotment at the disposal of each Inspectress of Schools by Rs. 17,000 per annum for giving new and enhanced grants to deserving primary schools.

(*c*) Extension of panchayati union schools for girls. Funds were allotted during the year for the construction of 30 such schools in the province.

(*d*) Charges on account of two Assistant Inspectresses of Schools in East Bengal, who were appointed in the year before.

(*e*) Establishment of a class in Calcutta for the training of Moslem women teachers.

(*f*) Education of the daughters of indigenous midwives, the special features of which were described in previous reports.

(*g*) Provision of buildings for model primary schools for girls. Money was allotted for the Bankura Model Girls' School during the year under review.

Zanana education.

82. During the year 61 zanana teachers worked in the presidency; they had 1,302 pupils under instruction. Owing to the outbreak of epidemics the work at some centres came to a standstill. Miss Brock speaks highly of the consistently good work of the secondary zanana class at Krishnagar, where

teaching in hygiene and first-aid is to be undertaken by a lady doctor. The present conveyance allowance of the Zanana Governesses is said to be inadequate. In East Bengal the work of the Zanana Governess at Noakhali is said to be the best.

Training of teachers—(a) Secondary training.

83. The training class attached to the Diocesan College was the only place where arrangements existed for the training of women teachers for secondary schools, but the scope of the College is limited. During the year under report proposals for additional grant in favour of the college were sent up to Government; this extra grant is to be given provisionally on account of additional stipends and the teaching of Geography. The scheme for a Government training college for women has not yet materialised. Mr. Dunn, as Officiating Director of Public Instruction, Bengal, submitted to Government a somewhat modified scheme in connection with the reorganisation of the Bethune College, but the matter has been held in abeyance pending action on the report of the University Commission.

(b) Primary training.

84. The number of training institutions for teachers of primary schools for girls was 10. Of this number, 3 are managed by Government, and the remaining schools are aided institutions. During the year under review a training class was started in connection with the Brahmo Girls' High School in Calcutta; the Government training class for Moslem women teachers also came into being: the Ballyganj training class was developed further by increase in the number of stipends and accommodation. Additions were also made to the teaching staff. It is hoped that these measures will tend to increase the annual outturn of trained teachers. In Western Bengal 14 girls passed the Senior Vernacular Teachership Examination and 35 the Junior Examination. At the Teachers' Examination of the Eden High School 13 girls passed.

Industrial and Technical education.

85. There were in the Presidency 30 industrial and technical schools for girls and women against 29 returned in the previous year; they had on the rolls 840 pupils against 820 in the year before. With few exceptions all these institutions are said to be doing well.

Needle work.

86. The scheme for the teaching of needlework by peripatetic teachers is popular, but its extension has not been possible for want of funds. The introduction of the Lady Carmichael Diploma has also done much to improve the quality of the work. In West Bengal the Girl Guides' Association and the National Indian Association have done much to encourage needlework; the latter has been awarding a diploma.

Scholarships.

87. The Uttarpara Hita Kari Sabha continued to award scholarships for the benefit of the girls in the Burdwan Division. Miss Irons is of opinion that the present system of awarding scholarships to girls at home in special cases is unsatisfactory, and that the rules should be revised.

Conclusion.

88. During the year under review the education of girls and women has undoubtedly advanced. The main condition of further progress is women teachers. The difficulty of securing such teachers need not be reiterated, but the training facilities are inadequate, especially in Eastern Bengal. Epidemic diseases and the cyclone were retarding causes and the war has seriously crippled the resources of the Missions. Social and domestic prejudices are still factors in the situation, but speaking generally the demand especially for secondary education exceeds the supply. With more funds a further advance could undoubtedly be made, especially in Calcutta and in the district headquarters of Eastern Bengal.

CHAPTER IX.

Education of Europeans.

Schools.

89. The number of schools for the education of European children in Bengal during the year under review was 81 against 80 returned in the preceding year; the excess of one school over the last year's figure is due to the fact that a supplementary technical class is counted as a separate institution. Of the 81 schools, 62 were for general and 19 for special instruction. Of the

institutions which impart general instruction, 14 are graded as higher secondary, 7 as secondary, 17 as higher elementary and 24 as elementary schools (including preparatory and ungraded schools).

Pupils.

90. The number of pupils on the 31st March 1920 is returned as 10,106 against 10,005 on the corresponding date of the year preceding. Of the total number of pupils, 5,585 were boys and 4,521 girls against 5,577 boys and 4,428 girls in the year before. The total number of pupils (boys and girls) in higher secondary schools was 3,818, in secondary schools 1,035 and in elementary schools 4,782. The corresponding figures for the previous year were 3,772, 1,045 and 4,737, respectively. There were 471 pupils under instruction in special schools against 451 in the year preceding. The European and Anglo-Indian pupils numbered 9,016 against 9,259 in the previous year. Of these, 4,806 were boys and 4,210 girls. The corresponding figures for the previous year were 4,947 and 4,312, respectively. The number of non-European pupils was 1,090, of whom 779 were boys and 311 girls.

Expenditure.

91. The total expenditure upon the education of European and Anglo-Indian students during the year under review amounted to Rs. 32,23,633, as compared with Rs. 31,39,140 during the previous year. This amount included Rs. 10,80,353 for direct expenditure and Rs. 21,43,280 for indirect expenditure. This expenditure was met from the following sources :—

	Rs.
Provincial revenues	10,77,643
Municipal funds	7,314
Fees	12,54,979
Endowments, subscriptions, etc.	8,83,697

The allotments from the Imperial grants, aggregating Rs. 1,67,000, were spent on enhancing teachers' salaries.

Scholarships.

92. An amount of Rs. 32,741 was spent, as compared with Rs. 33,665 in the year before, on the payment of stipends and scholarships, including 8 scholarships from the Doveton Trust Fund. This sum also included the expenditure on certain extra-Provincial scholarships paid in Bengal. The State scholarship did not fall to Bengal during the year under report. In addition to these scholarships, 9 boys and 11 girls were awarded scholarships out of the Sussex Trust for study in India and 1 boy and 4 girls for study in the United Kingdom.

Teachers.

93. Six hundred and forty-four teachers were employed in European schools on the 31st March 1920 as compared with 626 on the corresponding date of the previous year. Of these teachers, 320 were trained and 324 untrained. The corresponding figures for the previous year were 285 and 341, respectively.

Training of teachers.

94. As was reported previously, there is no training class in Bengal for European male teachers. The Government of Bengal, however, assists intending teachers to proceed to Sanawar for training. Only one candidate from Bengal was deputed for such training during the year under report. On the 31st March 1920 the number of mistresses under instruction in the training class for European women attached to the Dow Hill School, Kurseong, was 6. The average monthly roll number and the average daily attendance during the year were 18 and 18, respectively. The results of the annual examinations are reported to have been good. Of the 7 senior students, 6 passed, and of the 9 junior or first year students, 6 passed.

Vocational training.

95. The number of schools which maintained, classes following recognised supplementary courses was 17. Of these schools, 6 were for boys and 11 for girls. The number of pupils on the rolls of these classes on the 31st March 1920 was 461 (305 boys and 156 girls).

Technical and industrial institutions.

96. (a) On the 31st March 1920 the Commercial and Technical classes attached to the Young Women's Christian Association, Calcutta, had 66 students on the rolls Shorthand and Typewriting were taught. These Commercial classes were affiliated to the Government Commercial Institute, Calcutta.

(b) The Commercial classes for boys and girls at La Martinière were continued.

(c) There were 41 students on the rolls of the Bengal-Nagpur Railway Apprentices' night school at Kharagpur. As in the previous year, there were 4 classes, but no change in the curriculum was reported. The cost of maintaining the school amounted to Rs. 2,709 during the year, towards which Provincial revenues contributed Rs. 440.

(d) The Calcutta Technical School, which was held in the premises of the Government School of Art, had 195 students on its rolls. The subjects taught were mathematics, building construction, mechanics, practical mathematics, strength of materials, steam, electricity and drawing. The cost of maintaining the school amounted to Rs. 15,013, of which Rs. 2,000 came from Provincial revenues.

Domestic training.

97 Domestic science subjects were taught at Dow Hill and St. Helen's Convent Schools, Kurseong, Special classes for probationary sick nurses were held at Entally Convent and at St. Andrew's Colonial Homes, Kalimpong The Calcutta Free School, Kidderpore House and St. Andrew's Colonial Homes, Kalimpong, held special classes for children's nurses.

At the City and Guilds Examinations held in November 1919, 26 candidates appeared—14 in plain needle work, 11 in plain cookery and 1 in dress-making. In needle-work 12 passed, 4 obtaining prizes. In cookery 11 candidates were successful, of whom 7 obtained prizes. In dress-making the 1 candidate passed, and won a prize.

Examinations.

98. The following table gives the results of the various examinations:—

	Number sent up.		Number passed.	
	Boys.	Girls.	Boys.	Girls.
Elementary Schools.				
(1) Elementary School Certificate Examination.	114	78	68	59
(2) Supplementary Class Final Examination.	11	11	10	10
Secondary Schools.				
(1) Cambridge University Junior Local Examination.	80	107	54	60
(2) Cambridge University Senior Local Examination.	76	61	66	41
(3) Vernacular Examinations for Secondary Schools.	103	...	56	...

Controlling agency.

99. Mr. A. Mercer continued to act as Inspector of European Schools, Bengal, during the period under review.

Cadet grants.

100. During the year under report Government decided, at the instance of this office, that, pending the revision of Article 49 of the Code of Regulations for European Schools, a grant at a uniform rate of Rs. 7 should be given for every cadet or boy scout between the ages of 12 and 16 Since the close of the period under review a similar concession has been extended to girl guides.

The general position.

101. The general condition of European schools in Bengal is fairly satisfactory. A great deal of good work is being done under conditions of considerable difficulty. Public interest, which was recently stimulated, and showed itself in the admirable report on the education of the domiciled community, which was published in December 1919, is being maintained. School authorities generally are pressing for improvement. But there are undoubtedly troubles ahead. The schools cannot maintain themselves in efficiency on their present incomes. The possibility of further increases in fee rates is problematical. None of the schools have any capital to fall back upon, and building improvements and extensions are in many cases vitally and urgently necessary. School managers are looking to Government for capital

grants, and are in many cases confessing their inability to contribute anything Boarding schools for the poor, such as the Entally Convent, are having a desperate struggle to exist. Subscriptions are not easily collected at the moment. Imperial grants are now things of the past. Whether Government will be in a position during the next few years to increase substantially its contributions to European education in Bengal is a question which many are asking, but no one can answer. The situation is one which all those interested would do well to watch carefully.

CHAPTER X.

Muhammadan Education.

Statistics of Muhammadan pupils.

102. During the year under review there were 919,033 Muhammadan pupils in institutions of all kinds for Indians against 891,118 in the preceding year, *i.e.*, the number increased by 27,915. Mr. Griffith, Inspector of Schools, Dacca Division, observes that Muhammadans are gradually gaining ground, but have still considerable leeway to make up. The proportion of Muhammadan pupils to the total number of pupils in schools rose from 46·4 per cent. to 47·3 per cent The proportion of Moslem students in arts colleges rose from 10 per cent. to 10·8 per cent.; in professional colleges it remained almost stationary, *i.e.*, at 8 per cent.; in high schools it declined slightly from 20·1 per cent. to 20·09 per cent.; in middle schools the proportion declined from 31 1 per cent. to 30·5 per cent.; in primary schools it rose from 51·4 per cent. to 52·6 per cent.; and in special schools from 64·6 per cent. to 64·9 per cent. The progress in the year under review is, in fact, confined to the sphere of primary education. In primary schools the proportion of Moslem pupils is now commensurate with the ratio of the Muhammadan population to the total population of the Bengal Presidency.

The number of Hindu and Muhammadan pupils compared.

103. The following table compares the Hindu and Muhammadan pupils in various classes of public and private institutions during the two years 1918-19 and 1919-20:—

		Muhammadans.			Hindus.		
		Males	Females.	Total	Males.	Females	Total.
1918-19	...	729,966	161,152	891,118	843,481	151,980	995,461
1919-20	...	741,575	177,458	919,033	836,476	152,164	988,640

It will be seen from the foregoing figures that Muhammadans gained during the year 11,609 male scholars and 16,306 female scholars, their total gain amounting to 27,915 pupils. Hindus, on the other hand, lost 7,005 male scholars, but gained 184 female scholars The gain of Muhammadans in male and female scholars constituted 1·6 per cent. and 10·1 per cent., respectively, of their total school population while the loss of Hindus in male scholars constituted ·8 per cent. of their total male school population. Their gain in female scholars was insignificant, having been only ·01 per cent. of the total female school population. The percentage of increase in the number of Muhammadan girls at school far exceeded that in the number of Muhammadan boys.

Madrasahs.

104. On the 31st March 1920 there were 316 Madrasahs—13 senior and 303 junior, with 25,871 pupils. The corresponding figures for the year preceding were 273 and 22,792 respectively. The number of pupils reading in Madrasahs, therefore, increased by 3,079, or by a little over 13·5 per cent. The total expenditure on these institutions amounted to Rs. 5,39,485, of which, Rs. 2,47,102 came from public funds. The additional allotment of Rs. 30,000, which was made available during the year under report for giving maintenance grants to Madrasahs adopting the reformed course of studies, was wholly utilised.

The Islamic Matriculation Examination.

105. The outstanding feature of the year's progress was the special Islamic Matriculation Examination instituted under the reformed Madrasah scheme, which was held for the first time in April 1919. Forty-two candidates

appeared at the Examination, of whom 27, or 64·29 per cent were successful. During the year under report Dacca was the only centre for this examination; but Chittagong has since been constituted a second centre.

Islamic Intermediate class.

106. The first year Islamic Intermediate class was started at the Dacca Madrasah in July 1919.

Old scheme of Madrasahs.

107. During the year under report the Darul-Ulum Madrassah at Chittagong and the Islamia Madrasah at Noakhali were temporarily recognised for the purpose of sending up candidates for the central Madrasah Examinations.

Muktabs.

108. The number of Muktabs (recognised and unrecognised) rose from 11,120 to 12,839; of these, 9,071 were for boys and 3,768 for girls. They were attended by 358,944 pupils as compared with 310,044 pupils in the previous year; of the total number of pupils 261,952 were boys and 96,992 were girls; the corresponding figures for the preceding year were 236,808 and 73,236 respectively. The total expenditure on Muktabs increased during the year from Rs. 7,91,129 to Rs. 8,97,720. The contribution from public funds amounted to Rs. 4,71,090 against Rs. 4,15,742 in the year before. As in the previous year, aided muktabs in the District Board areas received 50 per cent grants in excess of what was given to ordinary aided primary schools.

In certain districts, viz., Howrah, Murshidabad, Dacca, Tippera, and Rungpur, a Sub-Inspector of Schools was withdrawn from the ordinary inspecting staff for the inspection of Muktabs exclusively. The scheme has been introduced as an experimental measure for three years.

Hostels.

109. The Muhammadan hostel attached to the Bogra Zilla School was completed during the year under review. The administrative approval of Government was also accorded to the construction of a hostel for the Muhammadan students of the Rajshahi College at an estimated cost of Rs. 56,815.

The position.

110 The general position is not satisfactory. More Muhammadan children are being sent to primary schools, and this is good so far as it goes. But in other grades of education the previous record of lost ground being gradually regained is not being maintained. The set-back is perhaps due largely to economic causes.

CHAPTER XI.

Education of special classes.

Education of Chiefs and Nobles.

111. The Nawab Bahadur's institution at Murshidabad, which is managed by the department, continued to provide special educational facilities for the boys of the Nizamat family. At the close of the year under review 26 boys of the family were receiving education in the institution. The total expenditure amounted during the year to Rs. 3,776 against Rs. 3,400 in the year before

Education of aborigines and other backward races.

112. Notwithstanding economic distress the desire for education among backward classes, particularly among the members of the Namasudra community, has, in recent years, been very keen.

Presidency Division.

In the district of 24-Parganas 2 primary schools for boys and 1 for girls, which were originally started by the Secretary of the Depressed Classes Society, are now maintained from the Sussex Trust Fund. A sum of Rs. 50,000 has been set apart from the endowment on account of these schools. In Calcutta the Salvation Army, the Wesleyan Mission and the Church Missionary Society had under their control 4, 2 and 1 schools, respectively, for Chamar, Dom and other pupils. About 751 children of the backward classes also attended ordinary schools in Calcutta.

Burdwan Division.

In Bankura and Midnapore the Mission maintained 3 industrial schools for Sonthal girls and a training school for Sonthal teachers at Sarenga, besides a large number of primary schools.

Dacca Division.

One more primary school was opened at Betuail in the district of Dacca at a recurring cost of Rs. 216 per annum for the children of fishermen exclusively. Fees are not charged in these schools for fishermen; there are also free

primary schools in the Dacca district for the children of Muchis and Rishes In the schools in the colonization areas of Bakarganj education is fostered by the grant of free studentships, higher stipends and special scholarships.

Chittagong Division.

In the Government High School at Rangamati the bulk of the pupils were Chakmas, Tipras and Mughs. The privately-managed middle English school at Ramu, which provides chiefly for Mugh boys was raised to the status of a high school during the year. There were 9 primary schools with 373 Mugh boys in the Cox's Bazar subdivision; 19 aboriginal *gurus* were trained in the training classes at Rangamati and Chandraghona.

Rajshahi Division.

The special Sonthal schools in Dinajpur are reported to have done good work

The Society for the Improvement of the Backward Classes maintained a number of primary schools in various parts of the Presidency for education of the children of poorer communities. The Society receives from the department a recurring grant of Rs. 3,000 annually for their educational work. Some District Boards have reserved special primary scholarships for encouraging pupils of backward communities.

Education of the defectives.

113. The school for deficient and defective European children at Kurseong, where pupils are educated by special methods of sense-training, has achieved remarkable success. The institution receives from Government a monthly grant of Rs 150. The Deaf and Dumb School at Calcutta had on its rolls 87 pupils against 85 in the previous year, and taught up to the upper primary standard, besides giving instruction in painting, carpentry and tailoring. In the printing press, which has been started in connection with the school, the pupils worked as compositors and printers under expert guidance.

The Blind School, Calcutta, had 37 boys against 33 in 1918-19, and taught the three " R's ", cane-work, basket-making and music. There were two more deaf and dumb schools—one at Dacca and the other at Barisal. They taught 13 and 18 pupils, respectively. The Dacca school cost Rs 1,751, of which Rs. 450 came from Provincial revenues. The school at Barisal cost Rs. 1,893, of which Rs. 1,344 was met from public funds. Some of the District Boards provided scholarships in the Calcutta schools for the education of blind and deaf and dumb students.

Education of children in tea-gardens.

114. There were 67 tea garden schools in Darjeeling with 1,219 pupils. The total expenditure on these during the year was Rs. 8,913, of which Government contributed Rs. 5,126.

The Jalpaiguri district returned 43 schools with 740 pupils. Of these 5 were " A " class schools managed by Government, 25 " B " class aided from public funds and 13 " C " class not receiving any aid. The " A " and " B " class schools cost Rs. 2,928, of which Rs. 2,376 came from Provincial revenues.

Education of Factory children.

115. The school established at Tittagarh for the children of mill employees had 97 pupils on the rolls, and is reported to have done good work Besides this school, which taught Hindi and Urdu, there is also a primary school intended for the Telegu-speaking people residing in the mill area

CHAPTER XII.

Private Institutions.

116. As was observed in the previous report, the number of private institutions and the attendance in them are always subject to fluctuation. Schools are opened and closed according to the caprice of the managers. Unrecognised *tols*, *Quoran* schools and *Kyaungs* or monastic schools all belong to this category. These schools very seldom conform to the rules issued by the department, or care to adopt the departmental standard, with the result that their number is gradually declining. During the year under review the number of private schools fell from 2,478 to 2,259, and the pupils attending them decreased from 69,209 to 67,310. Of the total number of pupils, 17,090 were Hindus and 47,986 Muhammadans, while the rest belonged to other communities.

CHAPTER XIII.

Physical and Moral Training.

Hostels.

117 The number of hostels and boarding houses was 826 against 809 in the preceding year; the number of boarders 23,239 against 22,896 The number of boarding houses for girls was 85 with 4,734 inmates. The sanitary arrangements and control over the inmates continued to be satisfactory only in the hostels and messes attached to Government schools and colleges, and in the hostels attached to some of the well-managed aided and unaided institutions.

Miss Brock, Inspectress of Schools, Presidency and Burdwan Divisions, speaks adversely of the hostels attached to aided High Schools for girls, which are said to be overcrowded. The boarding allowances paid in the hostels attached to the Behune College had to be increased temporarily during the year on account of the prevalence of high prices of foodstuffs. The seat rents for the hostels attached to the Dacca College were also revised

There was no change in the arrangements for the accommodation of students in messes in Calcutta and Dacca as previously reported. At Dacca the control over these arrangements was placed in the hands of a new committee with the Proctor as Secretary.

Physical training.

118. During the year under report there was no Advisor in Physical Education, Dr. Segard having left India The appointment of a whole-time Advisor to the Department in Physical Education has been sanctioned by the Secretary of State. The new officer is expected shortly.

Football, cricket and hockey continued to be the favourite games of town schools, although the games are not in all cases properly organised. Country games were played in rural areas. Drill has been introduced in almost all the secondary schools, but it is rarely well taught for lack of competent teachers. The peripatetic drill master appointed by the Bakarganj District Board is reported to have done good work. Lectures on hygiene and sanitation, illustrated by suitable lantern-slides, were delivered during the year to the students of some schools. Miss Brock makes special mention of the Girl Guides' Association, which has been doing excellent work in drill.

Religious and moral instruction.

119 Direct moral and religious training was imparted only in denominational schools.

Discipline.

120. During the year under review there was no serious breach of discipline among school boys or college students. The disciplinary control exercised by the Education Department over schools and colleges appears to have been entirely satisfactory.

The number of national schools remained the same as in the previous year, *viz.*, 4, but the number of pupils in these schools fell from 369 to 326. No unfavourable report was received during the year against any of the teachers or pupils of these schools.

CHAPTER XIV.

Conferences.

121 No conference of educational officers was held during the year under the presidency of the Director of Public Instruction. The Divisional Inspectors held conferences of subordinate inspecting officers at the divisional headquarters, to discuss important educational matters, notably the co-ordinated primary school curriculum. Some of the District Deputy Inspectors also held conferences of Sub-Inspectors at district headquarters, to discuss educational problems relating to their respective areas.

CHAPTER XV.

Text-book Committees.

122. Two separate text-book committees, one at Calcutta and the other at Dacca, are still maintained, to advise the Education Department in the approval of text-books for use in the western and eastern divisions of the Presidency. No change was made in the personnel of either committee during the year under report. The Calcutta Committee received 424 books, of which 162 were approved, 205 were rejected, 3 books were submitted to this office for disposal and the remaining 54 books were left over for the consideration of the committee in June 1920. The Dacca Committee examined 423 books, of which 161 were approved.

During the year under report a committee consisting of officials and non-officials was appointed to advise Government on certain matters connected with the constitution and functions of text book committees in Bengal

RESOLUTION ON THE REPORT OF THE CALCUTTA TRAMWAYS STRIKE COMMITTEE

GOVERNMENT OF BENGAL.

COMMERCE DEPARTMENT.

CALCUTTA, THE 11TH APRIL 1921.

RESOLUTION—No. 1359 Com.

READ—

Report of the Calcutta Tramways Strike Committee.

On the 25th January 1921, the Calcutta Tramways Company received an unsigned petition, dated the 23rd January, purporting to come from the conductors and drivers of the Company and setting forth their grievances under thirteen heads On the day after the petition was received by the Company, the majority of the men ceased work, and the tramway service was practically suspended for four weeks. Various attempts to settle the dispute having failed, the Calcutta Corporation, on the 18th February, passed a resolution asking Government to appoint a Committee of enquiry or to take such action as they might deem fit to terminate the existing deadlock and prevent such deadlocks in future. Government immediately entered into communication with the parties to the dispute, and on the 23rd February, it was settled that the men should return to work on the following day, that the Company should announce their decision on the men's petition within one week, and that if the men were dissatisfied with the Company's decision, Government would constitute a Committee to investigate their grievances. The men having expressed their dissatisfaction with the Company's decision, a committee of enquiry was constituted on the 8th March, composed of the following gentlemen:—

Mr. D. B. Meek, Director of Industries, *Chairman;*

Mr. R. M. Watson Smyth, President of the Bengal Chamber of Commerce;

Mr. Byomkesh Chakravarti, Bar-at-Law;

Rai Chuni Lal Bose Bahadur, I.S.O., Sheriff of Calcutta,

Mr. G. H. W. Davies, I.C.S., *Member* and *Secretary.*

The Committee's report has been received and is published for general information.

2. It is satisfactory to find that agreement has been reached between the Company and the representatives of the men, in regard to the majority of the Committee's recommendations, but in regard to certain other points, the Company took exception to the Committee's proposals, and expressed their inability to give effect to them until the report had been placed before the Board of Directors in London. The Committee were accordingly asked to give the Company a further opportunity of explaining their objections in detail, but the Committee report that after a further interview with the Manager, they see no reason to make any modifications in their original report. The Company have also taken exception to the criticisms contained in the Committee's report of the manner in which complaints against the men have been investigated in the past, and of the action of the Company in dealing with certain cases during the course of the enquiry. As to the first point, the Company claim that, while they have agreed to the introduction

of a new procedure for dealing with such cases, it was not suggested during the enquiry that the Company had not conducted the proceedings in a proper manner in any particular instances which were put before the Committee As to the second point, they urge that they were unable to suspend the ordinary disciplinary administration of the Company's business pending the completion of the Committee's enquiries.

3. The Governor in Council does not propose to discuss the Committee's report or their detailed recommendations. It is not the proper function of Government to decide such questions nor indeed have Government any legal power to enforce their conclusions. His Excellency in Council having taken such executive actions as was open to him to terminate the strike and to bring about a satisfactory settlement, is content to leave the matter to the judgment of the public. The Committee, which included gentlemen holding the highest positions in public and commercial life, have obviously performed their task with the greatest care and thoroughness, and the utmost weight must attach to their unanimous conclusions. The Governor in Council, while thanking the members of the Committee for the thorough and impartial manner in which they have carried out their duties, desires to express his earnest hope that their report will be accepted as a basis of settlement by both parties to the dispute, and that the result will be the establishment and maintenance of harmonious relations between employers and employed in a service which is of the utmost importance to the comfort and convenience of the public of Calcutta

By order of the Governor in Council,

A. MARR

Secretary to the Government of Bengal.

Dated Calcutta, the 22nd March 1921.

From—G. H. W. DAVIES, ESQ., I.C.S., Secretary, Tramways Strike Committee,

To—The Secretary to the Government of Bengal, Commerce Department.

I HAVE the honour to forward herewith the report of the Committee appointed under Government Resolution No. 856 Com., dated the 8th March 1921.

REPORT OF THE TRAMWAYS STRIKE COMMITTEE.

1. On the 26th of January 1921, the conductors and drivers of the Calcutta Tramways Company went on strike. On the 23rd of February 1921, a Government *communiqué* was issued stating that the Calcutta Tramways strike had been settled on the following terms :—

(1) All men return to work on Thursday morning with the exception of driver No. 134. Allowance to be made during the first week after work is resumed for those who have gone home during the strike. Men who resume duty within the said period will receive on the 1st March, or as soon after as possible, the pay for the days they worked during the month of January.

(2) The Company to investigate the grievances set forth in the unsigned petition received by the Company on the 25th January and to announce their decision within one week of the resumption of work.

(3) If the men are dissatisfied with the Company's decision, Government will, within one week of receiving information as to such dissatisfaction from the representative of the strikers, constitute a Committee to investigate the grievances.

It was added that the question of the procedure to be followed in connection with cases involving punishment would be dealt with in the first instance by the Company, and, in the event of the men being dissatisfied with the Company's decision, by the Committee to be appointed by Government.

2. In paragraph 1, sub-paragraph (2) above, it was stated that one of the conditions of settlement of the strike was that the Company would investigate the grievances set forth in the unsigned petition (dated 23rd of January) received by the Company on the 25th of January and announce their decision.

3. The following is a copy of that petition :—

TO THE GENERAL MANAGER,

THE CALCUTTA TRAMWAYS CO., LTD.

SIR,

In October last we the Drivers and Conductors of the Company submitted a petition through Driver No. 134 stating our grievances

During the strike which followed our representative interviewed you on several occasions, and on your granting us certain concessions on the promise of a consideration of our other grievances, we re-joined work.

We regret to find that nothing has been done to redress our other grievances, which are mentioned below :—

(1) Under the present system we have sometimes to work over 12 hours daily and at other times get no work although we have to put in attendance daily.

(2) Our pay ranges nominally from Rs. 24 to Rs. 28 per month, but as the system of payment is by the working hours and not by day, we can never get our full pay At present 12 hours work counts as a day, and as every day we cannot get work and even when we get work we cannot get twelve hours work, we never earn a full month's pay.

(3) There being too many temporary men there is never sufficient work for all.
(4) There is no fair distribution of work.
(5) Constant harassment by Inspectors and Flying Checkers to compel Conductors to pay gratuity.
(6) When incapacitated by accident (due to no fault of ours) in the course of our employment we get no pay or compassionate allowance.
(7) We get no leave, casual or otherwise, during the year, and if we go away even on the most urgent necessity we are liable to be dismissed.
(8) On account of shortage of cash due to accident we are liable to be suspended, although we make it good.
(9) A Conductor's deposit is liable to be forfeited on the Company dismissing him without any enquiry in his presence, without the alleged offence being tried by Court.
(10) Employees are frequently suspended and dismissed without proper enquiry on a complaint by any passenger. When even a case is proved to be false a suspended servant gets no compensation.
(11) When an employee has to attend Court in connection with any case by or against the Company he gets no pay or allowance.
(12) Since last year we have not been given any warm clothing, not even an overcoat, although we have to begin work early in the morning at 4-30 A.M. and work till midnight.
(13) We are not properly defended in cases of accidents and we are often wrongly convicted, when fault is not ours at all.

We beg most respectfully to request you to—
(1) Fix 8 hours as a working day and pay overtime allowance for work done in excess.
(2) Give us a fixed monthly salary on a graduated scale, with a minimum pay of Rs. 30.
(3) Not to introduce any more extra hands till all men have been provided with permanent jobs.
(4) See that Head Starters distribute work fairly and not for gratification as at present.
(5) Make proper enquiries in cases reported by Flying Checkers and Inspectors.
(6) Grant us compassionate allowance in cases of accidents.
(7) Make rules for the grant of privilege and casual leave.
(8) Allow us to make good shortage of cash within a week without its entailing suspension.
(9) Abolish forfeiture, except in cases where a man is found guilty of cheating by a competent Court of Justice.
(10) Not to dismiss any employee without conducting an enquiry in his presence and giving a right if he chooses to appear by a lawyer or other representative.
(11) Count the attendance in Court under summons as a witness as attendance on duty.
(12) Supply us with an overcoat for the winter months free of cost.
(13) Employ competent lawyers for the Company for the purpose of defence.

We shall be obliged if you will let us know your decision on or before the 25th January 1921, failing which we shall have no other alternative but to regretfully suspend work—a course which we are extremely reluctant to adopt.

We remain,
SIR,
Your most obedient servants,
CONDUCTORS AND DRIVERS OF THE CALCUTTA TRAMWAYS CO., LTD."

The 23rd January 1921.
Drivers and Conductors.
C-o Walters Mother, Nikareepara, Tollygunge.

4. As a result of their investigation the Company replied to the above letter of grievances as follows :—

"To N. C. Sen, Esq., 98, Beltola Road, Kalighat.

The 5th March 1921.

Dear Sir,

We have very carefully considered the various specific questions raised by you at our meeting on Monday last. We do not propose to go into details for the purpose of challenging the truth of the various allegations made in the men's petition, but you of course understand the general position we take up that the alleged grievances do not in fact exist, and that the statements made in the men's petition are for the most part misleading and inaccurate. In the hope, however, of being able to arrive at a settlement of the whole matter, we propose to take the specific questions put to us by you at our meeting in their order, and tell you how far the Company can go.

(1) (*a*), (*b*) and (*c*). The Company cannot guarantee a limit to the working hours per day, as the system of working a tramway undertaking is such that it is not possible to fix definite hours of labour. The Company does not ask any man to work more than an average of 9 hours per day in any one month. If at the end of the month it is found that a man has worked more than a daily average of 9 hours, he will be paid overtime, as at present, for all extra hours worked over the daily average on the basis that 9 hours duty equals one day's pay. By hours of work is meant the actual hours a man is on duty as is the practice at present. The Company cannot agree to any further increases in the existing rates of pay.

(2) The Company cannot agree to the suggestion that the men should be taken on the basis of monthly pay.

(3) and (4) The Company will frame a rule to the effect that every permanent man who answers his proper roll-call on his proper shift will be given work. This in fact is the present practice, as temporary men are only taken on to fill up the vacancies in the permanent staff owing to absence or sickness.

(5) The Company are not prepared to alter the present system of Inspectors and Flying Checkers. If, however, any specific cases of extraction of bribes from Drivers or Conductors are brought to the Company's notice, they will be enquired into, and, if proved, severely dealt with.

(6) The Company will frame a rule embodying their present practice of paying compensation to Drivers and Conductors incapacitated by accident whilst on duty. The Company will only pay allowances provided they are satisfied that the injury is not caused by carelessness and recklessness on the part of the person injured. The amount of any allowance will be half pay, and there must be a limit to the time for which such allowance is payable.

(7) Every application for leave is dealt with on its merits, and leave is granted whenever possible consistent with the Company's obligations to the public, provided the applicant's attendance has been satisfactory. The Company is prepared to frame a rule on these lines.

(8) The present rules dealing with cases of cash shortage afford ample facilities to Conductors for making good any cash shortage without suspension. A Conductor must take steps to ascertain the amount of any cash short, which he can easily do. Every Conductor will be given a receipt for the actual cash deposited by him within 15 minutes of his bag being handed to the Cashier. The Company cannot at all times undertake that a Conductor's tickets and way bills will be checked in this time.

(9) A Conductor's deposit is only liable to be forfeited in cases where the man after enquiry is found to have defrauded the Company in the collection of fares. In every case there is the most careful enquiry, which is always conducted in the man's presence with an interpreter. The Conductor is always allowed to produce evidence, and he is treated in the fairest possible manner. The Company cannot agree to any modification in the present procedure adopted in dealing with cases of fraud.

(10) Employees are only suspended in cases of complaints of a serious nature, and no man is dismissed without a full enquiry conducted on the same lines as is done in cases of fraud by a Conductor. The Company will frame a rule providing that in cases other than those of a serious nature no employee shall be suspended until he has failed to attend the office on notice from the Company that his case is to be dealt with.

(11) The Company will frame a rule embodying the existing practice under which an employee gets pay granted for the time he is in Court as a witness whether the case is actually taken up or not.

(12) No change has been made in the issue of warm clothing which has not been recognised as part of a man's outfit owing to the very short time it can be worn daily throughout the year. The management is, however, prepared to bring this question before the Board of Directors for favourable consideration as to whether, and if so upon what terms, the men can be provided with a warm garment for use during the cold weather months.

(13) The Company has a competent staff solely employed for the purpose of instructing pleaders and solicitors in cases brought against the men. The Company cannot make any alterations in these arrangements.

Yours faithfully,

(Sd.) W. P. ALLEN."

5. In sub-paragraph (*3*) of paragraph 1, reference has been made to Government's promise that if the men were dissatisfied with the Company's decision, a Committee would be constituted to investigate the grievances. As it was reported to Government that the men were dissatisfied with the decision of the Company the following resolution of the Government of Bengal was issued :—

"GOVERNMENT OF BENGAL.

COMMERCE DEPARTMENT (COMMERCE).

Calcutta, the 8th March 1921.

RESOLUTION No. 856-Com.

On the 23rd February 1921, a Government *communiqué* was issued stating that the Calcutta Tramway strike had been settled on the following terms :—

(1) All men to return to work on Thursday morning with the exception of Driver No. 134. Allowance to be made during the first week after work is resumed for those who have gone home during the strike. Men who resume duty within the said period will receive on the 1st March, or as soon after as possible, the pay for the days they worked during the month of January.

(2) The Company to investigate the grievances set forth in the unsigned petition received by the Company on the 25th January and to announce their decision within one week of the resumption of work.

(3) If the men are dissatisfied with the Company's decision, Government will, within one week of receiving information as to such dissatisfaction from the representative of the strikers, constitute a Committee to investigate the grievances.

It was added that the question of the procedure to be followed in connection with cases involving punishment would be dealt with in the first instance by the Company, and in the event of the men being dissatisfied with the Company's decision, by the Committee to be appointed by Government.

(2) It has now been reported to Government that the men are dissatisfied with the decision of the Company on the points at issue. The Governor in Council is accordingly pleased to constitute the following Committee :—

Mr. D. B. Meek, Director of Industries, Bengal, Chairman.
" R. M. Watson Smyth, M.L.C., nominated by the Committee of the Bengal Chamber of Commerce.
" Byomkesh Chakrabarti, as representative of the men.
Rai Chuni Lal Bose Bahadur, I.S.O., Sheriff of Calcutta.
Mr. G. H. W. Davies, I.C.S., Member and Secretary.

The Committee will investigate the grievances of the Conductors and Drivers of the Calcutta Tramways Company as set forth in a letter to the General Manager of the Company, dated the 23rd January 1921, and received by the Company on the 25th January. The Chairman of the Committee is authorised to fix the time and place for the meetings of the Committee, and His Excellency in Council hopes that the Committee will be able to submit their report at a very early date.

(Sd.) A. MARR,
Secretary to the Govt. of Bengal."

6. The terms of reference of the Committee are :—

(1) to investigate the grievances of the condactors and drivers of the Calcutta Tramways Company ;
(2) to deal with the procedure to be followed in connection with cases involving punishment provided that the men were dissatisfied with the Company's decision on this point ; and
(3) to report to Government.

7. From the nature of the grievances stated in the letter dated the 23rd January 1921, it is only natural that the investigation of any of them had a tendency to broaden the enquiry, but we have limited our investigations definitely to the grievances set forth. We do not pretend to have made a complete investigation on the whole system of the running of the Calcutta Tramways, but have confined our enquiries to the points raised in the letter of the 23rd of January.

8. If the decisions of the Tramways Company resulting from their enquiry and set forth above had been entirely accepted by the employees, our appointment as a Committee would have been unnecessary. We, therefore, did not consider it our duty as a Committee to investigate those grievances wherein the representative of the employees was willing to accept the decisions of the Tramways Company. Further during our enquiries, by bringing the representatives of the Tramways Company and of the employees together and by discussing with them the several points at issue, it has been found possible to obtain an amicable agreement on some of those points. In this way the scope of the enquiry has been considerably reduced. On the points of difference which remained, after those indicated above had been eliminated by conciliation, we have arrived at definite conclusions and hereafter make our recommendations regarding these.

9. It will be convenient to take the grievances contained in the letter of the 23rd January seriatim.

Grievance No. 1.

10. The first grievance as stated is—"Under the present system we have sometimes to work over 12 hours daily and at other times get no work although we have to put in attendance daily." Our enquiries lead us definitely to the conclusion that the grievance, as it is stated, is misleading, especially if it is read in conjunction with the request—"Fix 8 hours as a working day and pay overtime allowance for work done in excess."

11. In order to examine the grievance it is necessary to understand the difference between two classes of men employed as drivers and conductors by the Tramways Company, the system of work and the method of calculating times of work. The two classes of men are what are called "permanent" men and "temporary" or "extra" men, and the separation into those two classes holds for both drivers and conductors. The difference between the two classes is by no means great. It simply amounts to this, that in the allocation of work the permanent men are given the preference. About half the men on the Tramways Company's books are permanent and half are temporary. At the beginning of each month a duty-list is posted up at each depot showing the allocation of the cars to the men. In making this allocation the names of the permanent men are absorbed first, and then the names of temporary men are taken for any cars that are left over. In addition to the names which are definitely allotted as those of the men who will work the cars, the names of spare men—who are all temporory—are also added for about 50 per cent. of the cars, in order to provide men for cars left unmanned by the absence of any of the allotted men. All men, both permanent and temporary, have to turn up at roll-call, and if it is found that the allotted driver or conductor of a car has not attended, then one of the spare men is given the work. If all the men to whom work has been allotted on the duty-sheet attend, then all the spare men are sent away without work, and told to return again at the next roll-call with a view to being given any car which may not be completely staffed. There are two roll-calls each day, one for the morning shift and one for the evening shift. The time of the morning roll-call varies with the season of the year from 5 A.M. to 5-30 A.M. The time of the evening roll-call is somewhere between 12 noon and 1 P.M. So if the spare men who attend in the morning do not receive work, they are told to come back for the evening shift some time between 12 noon and 1 P.M. So far as this 1 P.M. or evening shift is concerned, the spare men who attend in the morning without receiving work have a preference over the spare men who attend the roll-call for the evening shift only.

12. For each shift the complete roll-call is taken at one time, and, confining the attention to the morning shift, all men, both those to whom duty has been allotted on the duty-list and those who have been put down as spare men on that list, have to attend at 5 A.M. or 5-30 A.M. according to the season of the year. If a man obtains a car he sets out with it at the scheduled time, and continues backward and forward on his section until the first occasion on which he arrives at the starting depôt at or after 1 P.M. Then his shift is finished. On one section, the running of which we examined in detail, this has the effect that a man who arrives back with his car just before 1 P.M. has to go off for another complete trip and is not back at the depôt until 2-40 P.M. The conductor of such a car has then to deposit his cash and obtain a receipt before leaving, and this takes a further 15 minutes. So that on this section, confining the attention to one season of the year, the hours of working are from roll-call at 5 A.M. until 1-15 P.M. or 2-55 P.M., as the case may be. The duty-list posted up at the beginning of the month is so arranged that the distribution of these shifts of varying duration is as equitable as possible.

There is also a third type of shift known as the office shift. The cars for this shift run from about 8 A.M. until 12 noon and again for a somewhat similar period in the evening from 1 P.M. From our enquiries it has transpired that the roll-call for these shifts was taken at 5 A.M. This necessitates attendance by the men allotted to these cars three hours before the time when their work really begins, and they are not paid for this period of waiting.

13. The duration of work calculated on an average for various sections is about 9 hours per shift. It is also a fact that in practice men often do a complete second shift or a portion of a second shift, and this by the Company is said to be voluntary. If a man does a second shift or a portion of a second shift he is paid extra for this work, and the extra payment is calculated on the fraction of a complete shift which he performs. One complete shift is paid for as one day's work, *i.e.*, the pay for a complete shift is the monthly rate of pay of the man divided by the number of days in the

month. It therefore obviously varies with the number of days in the month.

14. From an examination of the attendance books it appeared that in this case, as in most other concerns in Calcutta, the labour is seasonal in its nature. The supply of labour is much greater in the cold weather than it is in the hot weather, and the number of occasions when men are asked to carry on with a portion of a second shift is much larger in the hot weather than it is in the cold weather. From an examination of the books it is also apparent that, at least when the supply of labour is good, the working of the extra shifts or portions of shifts is optional. In the hot weather when the labour is scarce, the optional character of such overtime is not by any means so obvious. At least for a considerable period of the year the permanent men are not compelled to work more than 10½ hours per day even on the days on which they have been allotted by the duty-list the most unfavourable conditions. On other days when the conditions are favourable, they have only to work about 8½ hours and on some sections even less than this.

15. As regards the temporary men, we have found from enquiry that they may be fined if they are absent from roll-call even although by attendance they are not sure of work. We are of opinion that it is wrong to fine temporary men who are absent from roll-call. We are also of opinion that 9 hours including half an hour's rest is a fair working day and that the working time should count from roll-call, the time of which should be definitely fixed, until the completion of the last trip, with a suitable allowance of time to enable the driver to hand over his car and the conductor to obtain his receipt.

16. Paragraph 1 of the Company's letter dated the 5th of March 1921 is an offer of a new method of working with a view to meeting the first grievance in the letter from the conductors and drivers dated the 23rd of January 1921. We have considered this offer fully before coming to our conclusions.

17. Our recommendations regarding grievance No. 1 are as follows :—

(*a*) For ordinary (*i.e.*, not overtime) work the men should be paid by shifts.

(*b*) One shift should entitle a man to one day's pay.

(*c*) One day's pay should be the monthly rate of pay divided by 26.

(*d*) One shift including half an hour for rest and food should not exceed 9 hours from the time of roll-call to the completion of the last trip with a suitable allowance of time for handing over the car or obtaining a receipt.

(*e*) Any time worked in excess of 9 hours during one day should be considered overtime.

(*f*) The overtime for the month should be the sum of the overtime for the various days and in obtaining the equivalent overtime pay this sum should be divided by 7 to give the equivalent number of shifts ; such a method of calculation is practically equivalent to a time and a quarter rate for overtime.

Grievance No. 2.

18. Grievance No. 2 is—"Our pay ranges nominally from Rs. 24 to Rs 28 per month, but as the system of payment is by the working hours and not by day, we can never get our full pay. At present 12 hours' work counts as a day, and as every day we cannot get work and even when we get work we cannot get 12 hours' work, we never earn a full month's pay", and the men's request is—"To give us a fixed monthly salary on a graduated scale, with a minimum pay of Rs. 30."

19. The present scale of pay is Rs. 24 to Rs. 28, but after the first year's service the men are given free uniform, which is calculated to be worth Rs. 2 per month. Our enquiries have shown that the system of payment is not by working hours, but by shifts or number of trips made during the day, and from an examination of the books it has been found that many men by doing overtime earn more than full monthly pay. Under the present arrangements one complete shift counts as a day's work and this shift may vary from

6½ hours to 10½ hours according to the section on which the man is working and the timing of his car. Apart, therefore, from the statement of the pay, this grievance is incorrectly formulated. The request by the men is that they should be given a fixed monthly salary on a graduated scale with a minimum pay of Rs. 30. The following table shows the scales of pay since 1914 and how these have been increased at various intervals :—

	1914.	1st January 1919.	1st July 1919	1st March 1920.	1st September 1920.	Per cent increase from 1914 to present scale.

(Average increase for first 10 years—62 per cent.)

* Value of uniform supplied free after the first year.

For the first ten years the average effect of the increases which have already been given is that the present pay is 62 per cent. higher than the pay of 1914. We have considered the present and the past scales of pay in relation to the rise in prices of food and other necessities and we do not feel justified in recommending any change in the existing scale.

Grievance No. 3.

20. The third grievance is—"There being too many temporary men there is never sufficient work for all." and the men have requested the Company "Not to introduce any more extra hands till all men have been provided with permanent jobs."

21. As has been stated above the men are divided into two classes, permanent and temporary men, the permanent men receiving preference in employment. From the answers which we have received from both sides, it would appear that the number of temporary men is about equal to the number of permanent men. The Tramways Company arrives at the number of permanent men required by calculating the number of men necessary to run the service on the day of least traffic, viz., on Sundays. They make no allowance for the fact that on week days the service is greater, or for the fact that in the normal course of events a number of men will always be absent on leave or on account of sickness. We consider that the number of permanent men is too small. Any calculation made for the purpose of determining the number of permanent men required should, in our opinion, be based on the normal traffic with some allowance for leave and sickness, and not, as at present, on the minimum service. As stated above, we consider that the present system of making temporary men attend without guaranteeing them work and fining them for non-attendance is not just. We consider that the Company should employ a reserve, and that men of this reserve who attend and do not get work should receive one-fourth daily pay.

22. Our recommendations under this heading are therefore as follows :—

(a) The number of permanent men should be increased to the number required as calculated on a basis of normal traffic, due allowance being made for leave and sickness.

(b) The class of temporary men should be abolished.

(c) A reserve should be maintained and men of this reserve who attend without being given work should receive daily pay at the rate of one-fourth of the daily rate they would receive if given work.

Grievance No. 4.

23. Grievance No. 4 is to the effect that "there is no fair distribution of work," and the request of the men is that the Company should "see that Head Starters distribute work fairly and not for gratification as at present."

24. In their reply to this grievance the Company have promised to frame a rule to the effect that every permanent man who answers his proper roll-call on his proper shift will be given work. This reply was accepted by the representative of the men as satisfactory so far as grievance No. 4 is concerned; and, as a Committee, we are therefore not called upon to make any recommendation on this point.

Grievances Nos. 5, 9 and 10.

25. Grievance No. 5 is to the effect that there is "constant harassment by Inspectors and Flying Checkers to compel Conductors to pay gratuity," and the request of the men is to "make proper enquiries in cases reported by Flying Checkers and Inspectors."

The reply of the Company on this point is: "The Company are not prepared to alter the present system of Inspectors and Flying Checkers. If, however, any specific cases of extraction of bribes from Drivers and Conductors are brought to the Company's notice they will be enquired into, and, if proved, severely dealt with."

26. This grievance is very closely connected with grievance No. 10, which is to the effect that "employees are frequently suspended and dismissed without proper enquiry on a complaint by any passenger. When even a case is proved to be false a suspended servant gets no compensation."

The Company's reply to No. 10 is that "employees are only suspended in case of complaints of a serious nature, and no man is dismissed without a full enquiry conducted on the same lines as is done in the case of fraud by a Conductor. The Company will frame a rule providing that in cases other than those of a serious nature no employee will be suspended until he has failed to attend the office on notice from the Company that his case is to be dealt with."

27. Grievance No. 9 is also one of a similar nature, viz., "a Conductor's deposit is liable to be forfeited on the Company dismissing him without any enquiry in his presence, without the alleged offence being tried by Court," and the men's request is to "abolish forfeiture except in cases where men are found guilty of cheating by a competent Court of Justice."

The Company's reply is that "a Conductor's deposit is only liable to be forfeited in the case where the man after enquiry is found to have defrauded the Company in the collection of fares. In every case there is a most careful enquiry, which is always conducted in the presence of the Conductor with an interpreter. The Conductor is always allowed to produce evidence and he is treated in the fairest possible manner. The Company cannot agree to any modification in the present procedure adopted in dealing with cases of fraud."

28. We have considered the three grievances very carefully, and we have come to the conclusion that the Company must be allowed to retain the right of suspension, dismissal and forefeiture of deposits in order to protect

them from any increase in the malpractices which at present, we consider, exist regarding fraud on the part of the Company's servants. We have arrived at this conclusion from the enquiries that we have made, bearing in mind the fact that the total revenue of the Tramways Company passes through the hands of the Conductors. We are of opinion that no concern of this magnitude and of this nature can be run successfully if every paltry case of cheating has to be proved before a competent Court of Justice. We do not consider that the rules of the Company are so much at fault as the method of carrying out those rules. From the evidence which we have taken we are of opinion that the enquiries which are made by the Company in cases involving dismissals and forfeitures are not always carried out with the care which their importance warrants.

29. As a result of our discussion with the representatives of the Tramways Company and the men, the Manager of the Tramways Company has agreed to the following rules, while reserving the right to amend it if necessary to meet new circumstances that may arise, while retaining the spirit of the rule :—

"Drivers and Conductors will only be suspended by the Traffic Superintendent or Assistant Traffic Superintendent, and then only in cases of complaints or reports involving insubordination, assault, insult or abuse of passengers or Company's staff, accidents to passengers by negligency either of Drivers or Conductors, damage to rolling stock by negligent conduct of Drivers, absence without leave for a period exceeding seven days and fraud ; and no man will be dismissed without a full enquiry conducted in his presence by the Traffic Superintendent or Assistant Traffic Superintendent. When the charge against a man who has been suspended is not proved, he shall receive pay for the period of suspension, such pay being calculated at the rate of his average earning for the previous month, provided that he has attended as instructed in the office order of suspension.

In other cases no Driver or Conductor will be suspended until he has failed to comply, within one week, with any notice that may be issued to him by the Company intimating to him that his case is to be dealt with and calling upon him to attend office for that purpose."

This rule was accepted by Mr. Sen on behalf of the men so far as it covered the grievances expressed under 5, 9 and 10. The most important part of this rule is that a man, who has been suspended on a charge which is not afterwards proved, will receive pay for the time of suspension.

30. While of opinion that the power to deal with cases of suspension, dismissal and forfeiture of deposit should remain with the Company, we recommend that the enquiries involved should receive the attention and careful consideration which their importance would naturally demand. In our opinion they have not been carried out in the recent past as carefully as they ought to have been carried out. We also recommend that the attention of the management be drawn to this definite expression of opinion. It has been brought to our notice that four men have been dismissed since our appointment, and we wish to record our disapproval of the action of the management of the Tramways Company in making dismissals according to a procedure which it was one of our duties to enquire into.

Grievance No. 6.

31. Grievance No. 6 states that "when incapacitated by accident (due to no fault of ours) in the course of our employment we get no pay or Compassionate allowance", and the request made is to "grant us compassionate allowance in cases of accidents."

The Company replied to the effect that they were willing to embody their present practice of paying compensation to Drivers and Conductors incapacitated by accident whilst on duty, and, as a result of discussion with the representatives of both sides, the following agreement was arrived at, viz., "the Company will frame a rule for paying compensation to Drivers and Conductors temporarily incapacitated by accident whilst on duty. The Company will only pay allowances provided they are satisfied that the injury was not caused by carelessness or recklessness on the part of the

person injured. The amount of the allowance will be half pay, and the maximum period for which such allowance is payable will be three months. Every application for such allowance must be accompanied by a medical certificate from the Company's medical adviser or a doctor in charge of a recognised hospital or in the employment of Government, certifying that as the result of the accident the applicant is unfit to return to work."

32. The rule on Railways in this country is that the Agent has power to pay compensation in a case of accident for six months at the rate of full pay, and we recommend the institution of a similar rule for the Calcutta Tramways Company employees.

33. The rules referred to here are those applicable to temporary disablement. Our recommendation regarding disablement for a longer period or permanent disablement is that each case should be brought before the management for special consideration with a view to granting further compensation than that already given by the above rule for temporary disablement.

Grievance No. 7.

34. Grievance No. 7 states that "we get no leave, casual or otherwise, during the year, and if we go away even on the most urgent necessity we are liable to be dismissed," and the request of the men is to "make rules for the grant of privilege and casual leave."

The Company's reply is that "every application for leave is dealt with on its merits, and leave is granted whenever possible consistent with the Company's obligations to the public, provided the applicant's attendance has been satisfactory. The Company is prepared to frame a rule on these lines."

35. After consideration of the nature of the work it is our opinion that leave should be given to men who work regularly for twelve months. We recommend that after 12 months' regular work a man should receive three weeks' leave on half pay subject to the convenience of the Company. For the purpose of determining whether a man has worked regularly or not we recommend that an average of 24 shifts a month should be taken as regular working.

Grievance No. 8.

36. Grievance No. 8 is to the effect that "on account of shortage of cash due to accident we are liable to be suspended although we make it good," and the request of the men is to "allow us to make good shortage of cash within a week without its entailing suspension."

The reply of the Company is that "the present rules dealing with cases of cash shortage afford ample facilities to Conductors for making good any cash shortage without suspension. A Conductor must take steps to ascertain the amount of any cash short, which he can easily do. Every Conductor will be given a receipt for the actual cash deposited by him within 15 minutes of his bag being handed over to the Cashier. The Company cannot at all times undertake that a Conductor's tickets and way-bills will be checked in this time."

37. Mr. Sen, as the representative of the men, accepted the reply given by the Company to this grievance.

Grievance No. 11.

38. Grievance No. 11 reads as follows :—

"When an employee has to attend Court in connection with any case by or against the Company he gets no pay or allowance," and the request made by the men is that "attendance in Court under summons as a witness should count as attendance on duty."

The Company's reply is that "they will frame a rule embodying the existing practice under which an employee gets pay granted for the time he is in Court as witness whether the case is actually taken up or not."

39. This promise on the part of the Company to frame a definite rule was accepted by Mr. Sen, the representative of the men.

Grievance No. 12.

40. Grievance No. 12 is that "since last year we have not been given any warm clothing, not even an overcoat, although we have to begin work early in the morning at 4-30 A. M., and work till midnight," and the request of the men is to "supply us with an overcoat for the winter months free of cost."

41. Both parties agreed to accept a compromise as follows :—

"The management will recommend to the Board of Directors the granting of an overcoat to Conductors and Drivers to last three years, provided the recipient deposits Rs. 10 as security. In the event of the recipient leaving the service of the Company or dying before the expiry of three years, the Company will be entitled to deduct from the deposit a portion of value of the overcoat corresponding to the amount by which the period subsequent to the issue of the overcoat falls short of three years. At the conclusion of three years the Company will refund the deposit unless a fresh overcoat is issued."

Grievance No. 13.

42. This grievance is that "we are not properly defended in cases of accidents and we are often wrongly convicted when fault is not ours at all," and the request made by the men is that the Company should "employ competent lawyers for the Company for the purpose of defence."

The reply given by the Company is that they "have a competent staff solely employed for the purpose of instructing pleaders and solicitors in cases brought against the men. The Company cannot make any alterations in these arrangements."

43. As the interests of the Company and the men seem to be identical in this respect it was difficult to understand how this grievance had arisen. But the representative of the men alleged that the officer in charge of the Company's cases for the purpose of instructing solicitors and pleaders had displayed a certain amount of vindictiveness against certain men who had gone on strike last October. He alleged that this vindictiveness took the form of an interference in private cases between the men. Mr. Sen, the representative of the men, admitted that the Company's reply was fair, and he did not wish to press this grievance further, having regard to the fact that the attention of the management had been drawn to the alleged irregularity.

44. We have referred in paragraph 19 above to the granting of free uniform and we have not been able to discover any reason why uniform should be given in the second and subsequent years and not during the first year. We recommend that uniform should be given free from the date of appointment, and, if the Company wish to guard themselves against a man leaving his work very shortly after appointment, they can do so by continuing the present system of taking a deposit of Rs. 15, but this deposit should be returned at the end of the year if the man has remained in service.

45. We are of opinion that much of the dissatisfaction which at present exists would disappear if proper arrangements were made whereby the men have only to work a reasonable number of hours in a day and have an interval of rest of at least half an hour in the middle of the day's work. We consider that the bad time-keeping, which is so obvious from the attendance rolls of the Company, results, in fact at least, from the long hours of work with no rest intervals.

46. The fact that a number of grievances put before us have been settled amicably in our meetings by free discussion between the management and the representative of the men confirms us in the belief that a small standing joint committee of the management and the men, acting really in the nature of consultation between the two parties, would have been able to evolve remedies for these grievances. It is always much easier to remove

grievances in their initial stages by consultation than to remove them after one party has resorted to the pressure of combined action. We therefore suggest for the thoughtful consideration of those concerned the desirability of forming a standing joint consultative committee of management and workmen in which the difficulties of working can be freely discussed from both points of view and overcome in their initial stages whilst they are still relatively unimportant.

47. The grievances may be divided into three classes :—

(1) those in which complete compromise has been obtained between the Company and the representative of the men ;

(2) those in which only partial agreement has been obtained ; and

(3) those in which no agreement has been obtained.

In the first group, as a Committee, we do not make any recommendations ; in the second group we only make recommendations so far as the two parties have not agreed ; and on the third group we have made our recommendations.

Summary of Results of Enquiry.

48. **Grievance No. 1.**—Our recommendations regarding grievance No. 1 are as follows :—

(*a*) For ordinary (*i.e.*, not overtime) work the men should be paid by shifts.

(*b*) One shift should entitle a man to one day's pay.

(*c*) One day's pay should be the monthly rate of pay divided by 26.

(*d*) One shift, including half an hour for rest and food, should not exceed 9 hours from the time of roll-call to the completion of the last trip, with a suitable allowance of time for handing over the car or obtaining a receipt.

(*e*) Any time worked in excess of 9 hours during one day should be considered overtime.

(*f*) The overtime for the month should be the sum of the overtimes for the various days, and in obtaining the equivalent overtime pay this sum should be divided by 7 to give the equivalent number of shifts ; such a method of calculation is practically equivalent to a time and a quarter rate for overtime.

Grievance No. 2.—We have considered the present and the past scales of pay in relations to the rise in the prices of food and other necessities, and we do not feel justified in recommending any change in the existing scale.

Grievance No. 3.—Our recommendations under this heading are as follows :—

(*a*) The number of permanent men should be increased to the number required as calculated on a basis of normal traffic, due allowance being made for leave and sickness.

(*b*) The class of temporary men should be abolished.

(*c*) A reserve should be maintained, and men of this reserve who attend without being given work should receive daily pay at the rate of one-fourth of the daily rate they would receive if given work.

Grievance No. 4.—The offer by the Company to frame a rule was accepted by the men.

Grievances No. 5, 9 and 10.—

(*a*) The rule as stated in paragraph 29 was accepted by both parties.

(*b*) While of opinion that the power to deal with cases of suspension, dismissal and forfeiture of deposit should remain with the Company, we recommend that the enquiries involved should receive the attention and careful consideration which their

importance would naturally demand. In our opinion they have not been carried out in the recent past as carefully as they ought to have been carried out. We also recommend that the attention of the management be drawn to this definite expression of opinion.

Grievance No. 6.—The rule as stated in paragraph 31 drawn up by the Company was accepted by the men.

(*b*) We recommend the framing of a rule similar to the one on Railways.

(*c*) We recommend that each case of disablement other than temporary should be brought before the management for special consideration.

Grievance No. 7.—We recommend three weeks' leave on half pay after twelve months' regular work.

Grievance No. 8.—The reply given by the Company was accepted on behalf of the men.

Grievance No. 11—The offer of the Company was accepted by the representative of the men.

Grievance No. 12.—The management promised to recommend to their Board of Directors the granting of an overcoat to Conductors and Drivers to last three years provided the recipient deposits Rs. 10 as security.

Grievance No. 13.—The alleged irregularity was explained and the attention of the management drawn to it, and the grievance was not pressed by the representative of the men.

Further Recommendations.

1. Free uniform in first year on deposit of security.
2. Period of rest of at least half an hour in the middle of day's work.

DEPARTMENT OF AGRICULTURE, BENGAL.

Special Forecast of the Wheat Crop of Bengal, 1920-21.

(NOTE.—On an average of the five years ending 1918-19, the area under wheat in Bengal has represented some 0.4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to the total wheat acreage in (a) British India and (b) in the territory now reported on, has, in the five years ending 1918-19, averaged (a) 41.8 and 17.0 per cent. respectively.)

Explanatory:—This special forecast deals with the final estimates of acreage and yield of the wheat crop of this Presidency and is published as a special case under Government orders. The usual final forecast will be published in May as in previous years.

Character of the season:—Since the issue of the second forecast, the prospects of the crop improved to some extent in the districts of Murshidabad, Birbhum, Rajshahi, Dinajpur, Bogra and Dacca as a result of the occasional rains received since the latter part of January. In the district of Faridpur, on the other hand, the crop, though improved by the rain in January and February, was badly affected in places by the excessive rain and hailstorms in March when it was just ready for harvest. In the rest of the province, the prospects did not materially improve. On the whole, the season may be regarded as fairly favourable for the crop.

Area sown:—According to the estimates of the District Officers, the total area under wheat amounts to 116,900 acres against 116,300 and 116,100 acres reported in last year's corresponding and final forecasts respectively.

Outturn:—From the District Officers' estimates, the provincial outturn works out to 84 per cent. of the normal this year, against 77 and 78 per cent. respectively in the corresponding and final forecasts of last year.

Taking the normal yield to be 8½ maunds per acre, the gross yield of the crop for the province is estimated at about 30,700 tons against 28,000 and 28,300 tons respectively in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.

APPENDIX I.

Special Forecast of the Wheat Crop of Bengal, 1920-21.

District.	Approximate normal area under the wheat crop.	Approximate area under wheat last year (1919-20).	Estimated area under wheat this year (1920-21).	Taking 100 to represent the normal, what would be the average outturn per acre cropped.		Date by which the harvesting of the crop generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
				Last year.	This year.		
	Acres.	Acres.	Acres.				
Nadia ...	23,100	11,700	12,500	67	50	Middle of March...	The weather has not been favourable. Want of timely rain did a little damage to the crop. The outturn has fallen much below the normal owing to want of timely rain.
Murshidabad ...	69,300	24,400	22,300	75	92	March. Normal...	The decrease in area as compared with last year is due to want of rainfall at sowing time. The weather has been favourable, but the outturn is below the normal owing to want of timely rain.
Jessore ...	2,300	900	800	50	67	March. Normal	The outturn is much below the normal owing to want of sufficient rain.
Burdwan ...	2,000*	2,000*	2,000	67	75	.....	The weather was favourable since the latter part of January and the growth of the crop fair. The outturn is below the normal owing to want of rain at the beginning.
Birbhum ...	4,100	4,100*	3,000	83	92	Latter part of March. Normal.	Since the submission of the second forecast, the weather was favourable. There had been rainfall twice after sowing, though there was no rainfall at the beginning.
Bankura ...	3,600*	3,600*	3,600	100	67	End of February. Normal.	The weather has been unfavourable. Insufficient irrigation accounts for the fall in outturn.
Midnapore ...	900	1,000	800	75	83	Middle of March. Normal.	The plants suffered badly for want of rain in the early stage. Since then the weather was favourable to some extent.
Hooghly ...	2,400	1,700*	1,700*	67	67	End of March. Normal.	The weather has been unfavourable.
Rajshahi ...	18,600	6,900	8,300	67	75	End of March ...	The weather has been a little favourable owing to rainfall since the submission of the second forecast. Some damage has been done by drought.
Dinajpur ...	1,400	1,200	1,300	61	61	Second week of March. Normal.	The weather has not been favourable. The outturn is expected to fall much below the normal owing to want of timely rain.
Jalpaiguri ...	800	600	600	75	92	Not yet commenced.	The weather has been favourable. Recent rainfall has improved the condition of the crop. The outturn is anticipated to fall below the normal for want of rain at sowing time.
Darjeeling ...	4,500	2,500	2,500	100	83	Second week of April.	The weather has been fair. The outturn is anticipated to be below the normal owing to insufficient rainfall.
Rangpur ...	3,000	3,400*	3,400*	90	100	Beginning of March. Normal.	The weather has been favourable and a normal outturn is expected. Slight damage has been done by hailstorms.
Bogra	100	300	300	85	80	Ditto ...	The weather was favourable for some time since the submission of the second forecast. Hence the outturn expected is a little better now.
Pabna	16,000	10,000	7,000	50	67	Middle of March. Normal.	The weather was favourable for the cultivation, but continued drought since the sowing time retarded the growth of the crop to some extent and damaged about two-thirds of the crop. The rainfall since the submission of the second forecast has somewhat improved the prospects.
Malda ...	60,000	35,000	40,000	90	100	Middle of March. Normal.	The weather remained dry for some time after sowing and the growth of the crop was retarded thereby, but the rainfall since then much improved the condition of the crop. The outturn is expected to be normal on the whole.
Dacca	4,100	4,100	4,200	70	75	Ditto ...	The weather was seasonable, but more rain was needed. The outturn is expected to fall much below the normal for want of timely rain.
Faridpur ...	2,700*	2,700*	2,500	96	35	Third week of March. Normal.	The weather was unfavourable just before the harvest time when hailstorm badly damaged the crop in the Goalundo subdivision. Hence the outturn has fallen much below the normal.
Total Bengal ...	219,900	116,100	116,900	78	84

CALCUTTA, *the 9th April 1921.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 6th April 1921.

Summary.—Excepting some light and scattered showers in a few districts of North and East Bengal, there was no rainfall throughout the Province. Rain is badly needed for the standing crops and for facilitating the cultivation of jute and paddy. Harvesting of *rabi* crops is nearing completion. The average price of common rice for the Province has risen very slightly as compared with that of the previous week.

NOTICES UNDER THE BENGAL ELECTORAL RULES.

IN the Court of the Commissioners appointed under section 34 (2) (*a*) of the Bengal Electoral Rules at Suri.

P. E. CAMMIADE,
President of the Commissioners.

BURDWAN, *the 7th April 1921.*

Case No. 1 of 1921 under Bengal Electoral Rules.

TO HIS EXCELLENCY THE GOVERNOR OF BENGAL,

(Through His Excellency's Private Secretary).

SURI, *the 21st December 1920.*

May it please your Excellency,

1. That your Excellency's humble petitioner is one of the electors of the Birbhum Non-Mahomedan constituency and was duly nominated as a candidate for election to the Bengal Legislative Council. His name is entered in the electoral roll of Birbhum, thana Suri, within the Suri Municipality as voter No. 188 of the Anandpur ward.

2. That besides your humble petitioner the following gentlemen were candidates for election as a member to the said Council :—

(*a*) Raja Satya Niranjan Chakravarty of Hetampur,
(*b*) Rai Abinash Chandra Banerjee Bahadur of Sultanpur,
(*c*) Rai Rajani Bhusan Mukherjee Bahadur of Kundola,
(*d*) Babu Benoy Krishna Mukherjee of Kundola,
(*e*) „ Debraj Mukherjee of Suri,
(*f*) „ Nabin Chandra Banerjee of Suri,
(*g*) „ Nirmal Shib Banerjee of Labpur,
(*h*) „ Charu Chandra Sinha of Raipur, at present residing at 8-2, Sankaripara Road, Bhowanipur, Calcutta,

all residents of the district of Birbhum, and

(*i*) Babu Mahendra Narain Choudhury of Nimtita, in the district of Murshidabad.

3. That amongst the candidates named above Rai Abinash Chandra Banerjee Bahadur of Sultanpur has been declared as elected and the said declaration was published in the *Calcutta Gazette*, dated 15th of December 1920.

4. That your Excellency's humble petitioner is informed and that he fully believes that the election of the returned candidate is illegal and *ultra vires*, being not in accordance with the rules and regulations promulgated by the Government for the election of a member and is vitiated by corrupt practices. The irregularities, illegalities and corrupt practices are amongst several others as mentioned below—

(1) that the electoral roll was not duly published in accordance with rule 9 and regulation 6,

(2) that some of the presiding officers who were very great and intimate friends of the returned candidate, and who even travelled with the returned candidate, his agents, and employees, in the car of the returned candidate at the time of busy canvassing, ought not to have been appointed to preside at the polling stations,

(3) that the votes of some of the voters were refused on account of some printing mistake as regards their residence, etc., but votes even of minors were recorded in some cases,

(4) that some of the presiding officers reached the polling stations some time after the appointed time, which was then and there pointed out to the presiding officer, and also left the polling station for about half an hour at the beginning of the second hour, *i.e.*, at 3 P.M., without making any sort of arrangement for keeping the ballot box, the ballot papers, seal, etc., in charge of any responsible officer,

(5) that in some of the polling stations, the presiding officer, without any authority from the returning officer, took as his assistants Inspecting Pandits of the Birbhum District Board of which the returned candidate is the non-official Chairman, and who are believed to be the canvassers of the said candidate,

(6) that the ballot boxes used in the polling stations were not exactly prepared in accordance with regulation 25 and your humble petitioner believes that the ballot papers could be easily withdrawn therefrom without unlocking the boxes,

(7) that the ballot boxes were not sealed in accordance with the regulation and in some cases they were not placed in the same room where the presiding officer took his seat, but at a separate place, not visible from the place where the presiding officer, his clerk, the candidates or their agents took their seats,

(8) that in some of the polling stations the ballot papers were not marked with the seal by the presiding officer as contemplated in the regulation, but were marked by the clerk and handed over to the voters by the clerk,

(9) that in some of the polling stations the place set apart for putting marks on the ballot papers by the voters, was fixed in the verandah just close to the fence outside of which the public had access and opportunity to go and instruct the voters if they liked, there being no screen and that place not being visible from the room where the presiding officer, his clerk, the candidates or their agents took their seats,

(10) that in some of the polling stations the presiding officers marked the ballot papers themselves, although the illiterate voters wanted to put their own cross marks,

(11) that the packets mentioned in regulation 25 were unnecessarily kept at the thanas and not immediately sent to the returning officer,

(12) that the seals of the packets were not duly examined at the time of opening the packets,

(13) that all the rules and regulations prescribed for election were not duly observed,

(14) that the returned candidate, his agents, and other persons with the knowledge and connivance of the returned candidate and his agents, made gifts and offered and promised gratifications to the electors to vote for the returned candidate at the election,

(15) that the returned candidate, his agents, and other persons with the knowledge and connivance of the returned candidate and his agents secured votes from the electors by giving money in cash to the naibs, gomastas,

president panchayets, collecting panchayets, mandals of the villages and the electors themselves,

(16) that the returned candidate being Chairman of the District Board took undue advantage of his position and offered and promised to help the villagers without the sanction or approval of the District Board with roads, schools, medical help, etc., from the District Board, and promised to give substantial help in aid of the same, for securing his votes from the electors of those places, and advanced money to some of the contractors for the works to be completed hereafter,

(17) that the returned candidate during his campaign of busy canvassing in November last visited several schools, clubs, theatrical parties, etc., and made substantial help from his own pocket in cash and offered to give substantial help with the object directly and indirectly of inducing the electors of those places to vote for him,

(18) that the returned candidate in some of the places where the village roads are bad asked the District Board Overseers to repair the roads, and the roads have accordingly been repaired either at his own cost or at the cost of the District Board for which there was no sanction to induce the electors of those places directly or indirectly to vote for him,

(19) that the District Engineer, the Overseers, the school teachers and inspecting pandits under the District Board were all engaged in busy canvassing for the returned candidate and they exercised their undue influence over the contractors and others connected with the District Board for giving their own votes to the returned candidate and for securing other votes for the returned candidate,

(20) that the returned candidate took the assistance of several zamindars, their naibs and gomastas, to use undue influence over their tenants, and prevented them from free exercise of their franchise and in some cases even the zamindars and their naibs and gomastas waited at the polling stations to see that their orders are duly carried out by their tenants in supporting the returned candidate,

(21) that the returned candidate, his agents and other persons with the knowledge and connivance of the returned candidate and his agents paid and promised to pay conveyance allowances to the electors, and gave entertainments and made all sorts of arrangements for the refreshment of the electors in order to induce them directly and indirectly to vote for him,

(22) that the returned candidate induced and caused one of his relations to stand as a candidate for election in order only to prevent some of the electors to exercise freely their franchise for election, that the said relation canvassed for the returned candidate and your Excellency's humble petitioner believes that the said relation voted for the returned candidate.

(23) that the returned candidate, his agents, and other persons with the knowledge and connivance of the returned candidate and his agents made payments and freely promised payments to the electors and other persons for the conveyance of the electors to the polling stations for recording their votes on behalf of the returned candidate,

(24) that the returned candidate engaged taxis, motor cars and hackney carriages for the purpose of carrying the voters to and from the polling stations,

(25) that for the purposes of the election vehicles usually kept for letting on hire were hired and employed by the returned candidate, his agents, and other persons with the knowledge and connivance of the returned candidate and his agents,

(26) that several persons incurred expenses on account of circulars and publications for the purpose of promoting and procuring the election of the returned candidate without being authorized in writing to do so by the candidate,

(27) that several placards and post cards having reference to election were issued which did not bear on their face the name and address of the printer and publisher thereof.

5. That on account of the allegations mentioned above the election of the returned candidate should not stand.

6. That your Excellency's humble petitioner begs further to state that amongst the other nominated candidates who scored larger number of votes in the last election than your Excellency's petitioner are not eligible to be returned for various reasons and your humble petitioner therefore claims

that a declaration may be made that he himself has been duly elected. Your Excellency's humble petitioner therefore prays that all the candidates who were nominated from the Birbhum Non-Mahomedan constituency may be joined as respondents to this petition.

7. That your Excellency's humble petitioner has deposited in the Birbhum Treasury a sum of Rupees one thousand as deposit of security and a Treasury receipt showing the payment of the said sum is annexed herewith.

8. That your Excellency's humble petitioner therefore prays that Commissioners for the trial of this petition may be appointed and that if in the opinion of the Commissioners—

(*a*) the election of the returned candidate be proved to have been procured or induced, or the result of the election has been materially affected by a corrupt practice,

or

(*b*) any corrupt practice specified in Part I of Schedule IV has been committed,

or

(*c*) the result of the election has been materially affected by any irregularity in respect of a nomination paper, or by the improper reception or refusal of a vote, or by any non-compliance with the provisions of the Act or the rules and regulations made thereunder.

or

(*d*) the returned candidate has been guilty by an agent of treating with the orders and with the sanction and connivance of the returned candidate or his election agent,

the election the returned of candidate be declared null and void.

9. That your Excellency's humble petitioner further prays that if the other candidates who scored larger number of votes than your humble petitioner be found ineligible your Excellency's humble petitioner may be declared as duly elected.

I, Lala Mritunjoy Lal, do hereby declare that the statements contained in paragraphs 1, 2, 3 and 7 of this petition are true to the best of my knowledge and the statements contained in the remaining paragraphs are, upon informations received, believed to be true. I sign this verification this day at Suri on the 21st of December at 1 P.M.

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Post Graduate Research Scholarships to be awarded in 1921.

Three Post Graduate Scholarships will be awarded for the encouragement of original research to candidates who have high and special qualifications and appear to be likely to conduct original research with success. The value of each scholarship is Rs. 100 a month, and each is tenable for a maximum period of three years.

2. Ordinarily one scholarship will be awarded annually to a student who proposes to carry on original research in scientific subjects, including such branches as natural and physical science, chemistry, mathematical science, etc., and another scholarship will similarly be awarded for research in literary subjects, including such branches as languages, comparative philology, palæography, epigraphy, philosophy, history, archæology, anthropology, etc., and the third scholarship will be awarded for research either in scientific or in literary subjects. No application for a research scholarship will be considered unless a candidate submits certificates showing that he has the capacity for undertaking the research proposed and a programme of work indicating a definite course of enquiry.

3. Election will be made in the first instance for one year only, with effect from 1st July 1921, but a scholarship may be renewed from year to year, up to the limit of three years, provided the scholar has throughout the year vigorously prosecuted original research in the subject selected by him.

4. Each candidate for a scholarship should submit his application, through the head of the institution in which he last studied to the Director of Public Instruction, Bengal, on or before 10th May next, and must produce evidence of having passed from a college or other institution in Bengal the M.A. or M.Sc. examination of Calcutta University or of having obtained some other equivalent or higher degree, such as Doctor in Science or Master in Engineering of Calcutta University in 1918 or 1919 or 1920. He must state as definitely as possible the subject or part of a subject in

which he intends, if elected to a scholarship, to carry on his original investigation. He must also state the name of the institution in which he proposes to work with evidence that the authorities of the institution are able and willing to provide facilities for him, or if no institution is mentioned, the circumstances or conditions under which he proposes to work should be stated.

5 Applications for this year's scholarships should be submitted in prescribed forms which are obtainable from the Personal Assistant to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

W. W. HORNELL,
Director of Public Instruction, Bengal.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

CALCUTTA, *the 11th April 1921.*

AUSTRALIA, EAST COAST.

Keppel bay and the Fitzroy river, Rockhampton—Alterations to lights and beacons.

No. 119 (first publication).—The Portmaster, Brisbane, has given Notice (No. 1 of 1921) that on the 31st March 1921 the following alterations to lights and beacons will be made :—

1. The southern edge of the sector light at the old Pilot Station, Grassy Hill, will be altered from S. 87 E. Mag. to N. 78 E. Mag. and the last two lines of the paragraph on page 124 of the Queensland Sailing Directions should be altered to read :—" bearings of S. 40 E. and N. 78 E., that is between the Timandra Bank buoy and the black buoy moored at the point of the banks extending north-west from Sea Hill." This altered bearing enables the position of the buoy to be located at night. Directions remain unaltered.
2. The first pair of leads above Thompson's Point, and which lead past that point will be abolished, and a green light will be established on the extreme of Thompson's Point. The directions on page 130 of the Queensland Sailing Directions, commencing at the ninth line, are to be amended to read :—" to Thompson's Point (green light), which is to be rounded about 200 feet off. Follow the bank at about this distance off passing a black buoy on the port hand until abreast of a square white beacon (green light) on the north shore."

The altered directions are indicated in the correction to the Sailing Directions.

CALCUTTA, *the 16th April 1921.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 13th April 1921.

Summary.—The rainfall during the week was unevenly distributed, the fall being generally light over the greater part of the province. It has benefited the standing crops and has facilitated the field operations. More rain is, however, needed especially in parts of West Bengal. The average price of common rice for the province has risen by about 0·33 per cent. as compared with that of the previous week.
